In Good Faith: 4th Ss Polizei Panzer Grenadier Friedrich Husemann,2003 **Panzer Crewman** Simon Forty,Richard Charlton-Taylor,2025-02-28 great detailed shots and drawings for those looking for references in their models Highly recommended for beginners to advanced builders AMPS The German Panzerwaffe ripped up the rulebooks of war that had been laid down by the grinding slaughter of the trenches of World War I Armored vehicles close air support and bold leadership based on mission command Auftragstaktik cut a deadly swathe through the armies of east and west Europe The Panzers made a significant contribution to Nazi successes they remained steadfast in defense as their conquests slipped away their grasp from the apogee at Stalingrad and El Alamein in late 1942 through the long years of retreat to final defeat Attrition and overwhelming odds blunted the opportunities for advances but with increasingly powerful weaponry the Panzerwaffe stiffened the German defensive backbone right to the end Part of the reason for these successes was undoubtedly the Panzers themselves but it wasn't just the weapons that led to the Panzers successes it was the way they were handled A weapon is only as good as those who use it and the Panzertruppen from higher command down to individual crew members proved themselves to be very good at using their weapons Not just the men who fought in the tanks but those who maintained them and kept them in the field recovered and rebuilt the casualties and dealt with the over complexity of design and the huge variety of types of tank weapon and ammunition Selection and training standards so good in the early war years may have dropped off as wartime exigencies bit deep but from 1939 to 1945 German Panzer crew were second to none This Casemate Illustrated provides a full introduction to the role and experience of the Panzer crewman

German Army Uniforms of World War II Stephen Bull, 2021-02-04 A detailed illustrated history of the uniforms of the German army from the period leading up to World War II until 1945 In the years after World War I the defeated and much reduced German Army developed new clothing and personal equipment that drew upon the lessons learned in the trenches In place of the wide variety of uniforms and insignia that had been worn by the Imperial German Army a standardized approach was followed culminating in the uniform items introduced in the 1930s as the Nazi Party came to shape every aspect of German national life The outbreak of war in 1939 prompted further adaptations and simplifications of uniforms and insignia while the increasing use of camouflaged items and the accelerated pace of weapons development led to the appearance of new clothing and personal equipment Medals and awards increased in number as the war went on with grades being added for existing awards and new decorations introduced to reflect battlefield feats Specialists such as mountain troops tank crews and combat engineers were issued distinctive uniform items and kit while the ever expanding variety of fronts on which the German Army fought from the North African desert to the Russian steppe prompted the rapid development of clothing and equipment for different climates and conditions In addition severe shortages of raw materials and the demands of clothing and equipping an army that numbered in the millions forced the simplification of many items and the increasing use of substitute materials in their manufacture In this fully illustrated book noted authority Dr Stephen Bull examines the German Army's wide range of uniforms personal equipment weapons medals and awards and offers a comprehensive guide to the transformation that the German Army soldier underwent in the period from September 1939 to May 1945
