Hall, 2010-10-04 The inherent mobility

of tourists and consequent relative ephemerality of contact between the visitor and the visited tourism phenomenon have specific characteristics that challenge the usual fieldwork practices of the social and physical sciences Such conditions create specific concerns for the tourism researcher in terms of their positionality relationality accessibility ethics reflexivity and methodological appropriateness Fieldwork in Tourism is the first book to focus on this extremely significant component of contemporary tourist research and provides hands on approaches to conducting tourism fieldwork in a range of settings exploring the methodological considerations and offering strategies to mitigate these The book also discusses how fieldwork affects researchers personally and what happens to field relationships Divided into five sections each with an introduction and a guide to further reading the chapters cover the context of fieldwork research relationships politics and power the position of the researcher in the field research methods and processes including virtual fieldwork and the relationships between being a tourist and doing fieldwork The concluding chapter suggests that the link between tourism and fieldwork perhaps offers greater insights into understanding creative fieldwork than may be imagined This book incorporates a rich and diverse set of fieldwork experiences insights and reflections on conducting fieldwork in different settings the problems that emerge the solutions that were developed and the realities of being in the field Fieldwork in Tourism is an essential guide for Tourism higher level students academics and researchers embarking on research in this field **Writing Up**

**Qualitative Research** Harry F. Wolcott, 2001-05-23 Harry Wolcott's book is one of those little must-have must-read gems. The voice of experience is unmistakable. It's great fun to read and chock-full of helpful how-to advice. H. Russell Bernard, University of Florida and author of *Social Research Methods*. How do you select what to write up from all the qualitative data that has been collected? How can you best tell the story of your study? Harry F. Wolcott has thoroughly revised the book that has provided a solution to this conundrum as well as inspired thousands of readers with their writing. Using lively examples and friendly tips gleaned from his own and other researchers' experiences and a warm, reflective and remarkably candid writing style, Wolcott offers readers suggestions for when and where to begin, how to keep the momentum going once writing is underway, suggestions for tightening things up, alternatives for handling questions of theory and method, how to proceed with the mechanics of preparing a manuscript from the table of contents to the index and how to get published. Designed in a new format to make it easier to locate and review key ideas, this second edition has been completely updated and expanded to include features such as Chapter 4 on Linking Up. Provides readers with thoughtful guidelines as to how and where to use theory, how much needs to be said about method, and some thoughts about the traditional literature review. Applications Give readers the opportunity to put into practice some of Wolcott's tips to improve or jump-start their own writing. Bulleted Reviews Highlight the key points to remember from each chapter. Subject and author indexes for easy reference. Read the book that will not only enable you to better tell the story of your research but will inspire you to write that dissertation article or book and incorporate writing into its essential place as part of a professional research career. Written in an easy-to-read conversational tone. *Writing up Qualitative Research* is useful and interesting and will be an important aid to graduate students working on their dissertations. It will also enable recent doctorates who accept university positions to advance in their profession through writing and publishing. From review of First Edition in *Harvard Educational Review*. Recommended reading for anyone out there despairing of ever starting to turn that pile of transcripts into written form and indeed for all those lucky enough to have already started. From review of First Edition in *Social Research Association News*. [Stimulus, Intention and Process in Creative Writing](#) Graeme Harper, 2024-02-01 *Stimulus, Intention and Process in Creative Writing* explores three exciting and key areas of creative writing practice and understanding. What stimulates a writer to write or to write a particular piece? What do they intend to achieve when they do it? And is there a process we can study and perhaps even understand? The authors in this book, who are both practitioners and researchers, explore these three areas in unique and thought-provoking ways. They bring to the discussion both expertise in relation to what we already know and a sense of forward thinking in discussing how we can find out more. This is a book for creative writing researchers and students who are seeking new knowledge about how creative writing is done, what informs and encourages those doing it, and what results from that knowledge and encouragement. It is also potentially a book for creative writing practitioners who wonder how the things that interest them have them writing certain things and the ways they go about approaching undertaking and

completing these projects The chapters in this book were originally published in *New Writing The International Journal for the Practice and Theory of Creative Writing* *Exploring Composition Studies* Kelly Ritter, Paul Kei Matsuda, 2012-04-30 Kelly Ritter and Paul Kei Matsuda have created an essential introduction to the field of composition studies for graduate students and instructors new to the study of writing The book offers a careful exploration of this diverse field focusing specifically on scholarship of writing and composing Within this territory the authors draw the boundaries broadly to include allied sites of research such as professional and technical writing writing across the curriculum programs writing centers and writing program administration Importantly they represent composition as a dynamic eclectic field influenced by factors both within the academy and without The editors and their sixteen seasoned contributors have created a comprehensive and thoughtful exploration of composition studies as it stands in the early twenty first century Given the rapid growth of this field and the evolution of its research and pedagogical agendas over even the last ten years this multi vocal introduction is long overdue
