Fifth Grade October Writing Prompts:

Close Writing Paula Bourque, 2023-10-10 How closely do your students read their writing What are the implications for those who do and those who don't During her work in classrooms literacy coach Paula Bourque noticed that students who read their own writing closely are engaged in their work write fluently are able to produce lengthy drafts and incorporate teaching points from mini lessons into the day's writing In this comprehensive book Paula shows you that no matter what structures or lessons you use in your writing classroom the strategies in Close Writing will help you make these better by creating student writers who are more aware of what effective writing looks like who care about what they write and who take ownership and responsibility for their growth as writers Paula argues that a key element in close writing is learning to look and looking to learn by closely reading our own writing Instead of focusing on the mechanics of their writing she encourages students to read their words for understanding clarity and the effect they will have on an audience She urges them to recognize their habits and their approaches to writing and to build upon them Close Writing is based on research and methods that are reliable and valid best practices but it will not prescribe lessons or structures It gives you a peek inside classrooms where teachers just like you are working with budding authors just like yours Paula also provides considerations for ELL writers as well as a section of interviews with authors She shares an extensive reference resource guide and a companion website with students work samples reproducibles and templates and videos of classroom writing lessons round out this must have resource

Mathematics Instruction in Dual Language Classrooms Marco A. Bravo, Kip Téllez, 2024-07-01 Language and culture play a critical role in the teaching of mathematics and this role intensifies when considering the teaching of mathematics in dual language classrooms This book unpacks lessons learned from socio cultural theory being applied to research of the teaching of mathematics to Emergent Bilinguals with the end of informing practice Utilizing a socio cultural lens authors present the possibilities and limits of the teaching of mathematics in dual language programs 90 10 50 50 models Themes of translanguage disciplinary literacy instruction and culturally responsive instruction are leveraged to test the potential of these constructs to assist Spanish English Emergent Bilinguals access rigorous mathematics content Authors also present limits to these models as often they

can overshadow the mathematics learning We embrace a stance where language and literacy are seen as tools for content area learning and not as ends unto themselves *Identification and Evaluation of Learning Disabilities* Evelyn S.

Johnson, Anne B. Clohessy, 2014-06-19 Get your students the support they need One size does not fit all for helping students with learning disabilities and it doesn't work for identifying learning disabilities either This practical easy to use handbook offers a comprehensive plan guiding general educators special educators administrators and school psychologists through the eligibility and evaluation stages that ensure students get the best services and support they need to be successful You'll find Guidance on what data to collect and how to collect it Strategies for combining RTI with a comprehensive evaluation to diagnose SLD Detailed case studies with graphs figures and test scores at the school classroom and individual student level

Social-Emotional Learning Through STEAM Projects, Grades 4-5 Season Mussey, 2022-02-27 Social Emotional Learning Through STEAM Projects Grades 4-5 helps educators target the development of social and emotional learning SEL competencies for high ability learners through interdisciplinary project based inquiry Aligned with STEAM content standards each of the nine projects introduces students to a real world problem through essential questions and the presentation of a primary source document Both the content and the inquiry process support SEL competency development from self awareness to self management social awareness relationship skills and responsible decision making As students work to understand and pose solutions to each problem they gain the knowledge and practical skills needed to become more socially and emotionally competent individuals in their classroom communities **Bringing Words to Life** Isabel L. Beck, Margaret G. McKeown, Linda Kucan, 2013-03-13 Exciting and engaging vocabulary instruction can set students on the path to a lifelong fascination with words This book provides a research based framework and practical strategies for vocabulary development with children from the earliest grades through high school The authors emphasize instruction that offers rich information about words and their uses and enhances students language comprehension and production Teachers are guided in selecting words for instruction developing student friendly explanations of new words creating meaningful learning activities and getting students involved in thinking about using and noticing new words both within and outside the classroom Many concrete examples sample classroom dialogues and exercises for teachers bring the material to life Helpful appendices include suggestions for trade books that help children enlarge their vocabulary and or have fun with different aspects of words Congressional Record United States.
