Fifty Hollywood Directors Routledge Key Guides:

Todd Solondz Julian Murphet, 2019-08-16 Films like *Welcome to the Dollhouse* and *Happiness* established Todd Solondz as independent cinema's premier satirist. Blending a trademark black humor into atmospheres of grueling bleakness, Solondz repeatedly takes moviegoers into a bland suburban junk space peopled by the damaged, the neglected, and the depraved. Julian Murphet appraises the career of the controversial if increasingly ignored indie film auteur. Through close readings and a discussion with the director, Murphet dissects how Solondz's themes and techniques serve stories laden with hot button topics like pedophilia, rape, and family and systemic cruelty. Solondz's uncompromising return to the same motifs, stylistic choices, and characters reject any idea of aesthetic progression. Instead, he embraces an art of diminishing returns that satirizes the laws of valuation sustaining what we call cinema. It also reflects both Solondz's declining box office fortunes and the changing economics of independent film in an era of financial contraction.

Focus On: 100 Most Popular American Romantic Drama Films Wikipedia contributors, **Focus On: 100 Most Popular United States National Film Registry Films** Wikipedia contributors, **Literary Research and British Postmodernism** Bridgit McCafferty, Arianne Hartsell-Gundy, 2015-09-02 *Literary Research and British Postmodernism* is a guide for scholars that aims to connect the complex relationships between print and multimedia, technological advancements, and the influence of critical theory that converge in postwar British literature. This era is unique in that strict boundaries between fiction, nonfiction, multimedia, and print are not useful. Postmodern literature is defined by the breaking down of boundaries as a reaction to modernism and requires an innovative, multifaceted approach to research. In this guide, the authors explore these complex relationships and offer strategies for researching this new period of literature. This book takes a holistic approach to postmodern literature that recognizes the way in which digital media, film, critical theory, popular music, and more traditional print sources are inextricably linked. Through this approach, the authors present a broad view of postmodernism that includes a wide variety of British authors writing in the last half of the twentieth century. The book's definition of postmodern includes any British literature following World War II that engages issues central to postmodern theory, including the social construction of gender, sexuality, and power; the subjectivity of truth; technology as a social force; intertextuality; metafiction; postcolonial narrative; and fantasy. This guide aims to aid researchers of postwar British literature by defining best practices for scholars conducting research in a period so broadly varied in the way it defines literature.
