Europe Managing the Crisis Walter Kickert,Tiina Randma-Liiv,2015-06-05 Studies of the recent financial crisis have been largely dominated by economists but the similarities and differences between European countries response reflect both economic and political perspectives which have resulted in considerable differences in their decisions Drawing on uniquely comprehensive research data this book presents an in depth comparative analysis of how 14 European governments tackled the challenge of fiscal consolidation and analyses the political decision making behind these measures By exploring national responses not just in fiscal terms but also from a political perspective it reveals that decision making has been driven by political factors with profound effects on public administration and management This ground breaking book fills an important gap in the research literature for scholars of public management public administration and policy and will be a benchmark for future work on the global economic crisis

similarities in their approaches can be explained *Public Management in Times of Austerity* Eva Moll Sørensen, Hanne Foss Hansen, Mads Bøge Kristiansen, 2017-06-26 Since 2008 the world has experienced an enormous decrease of wealth By many measures the impact of the crisis was severe The fall in GDP the collapse of world trade the rise in unemployment and the credit slump reached bigger proportions than in any other crisis since World War II Although the economic figures seem to improve in some countries the crisis continues being a challenging issue and is said to be one of the most important problems governments face today The crisis has put public finances under ever increasing pressure and governments have responded through austerity measures such as new fiscal rules and budgeting procedures and cutbacks of public spending *Public Management in Times of Austerity* seeks to explore the austerity policies adopted by European governments and their consequences to public management It asks how governments have implemented new rules leading to more stringency in public budgeting and financial management and how they have cut back public expenditure These questions are examined comparatively through case studies in different parts of Europe and variations across countries are discussed and explained Throughout the volume the consequences of the crisis and austerity policies for public management are discussed What is the relationship between crisis and decision making in the public sector and how does austerity affect public sector organisation As the previous crisis in the 1970s resulted in a major reform movement which was later referred to as New Public Management *Public Management in Times of Austerity* look to understand whether the current crisis also leads to a wave of public management reform and if so what is the content of this EU Funds in the New Member States Christian Hagemann, 2018-12-07 This book examines new member states problems with the absorption of EU funds Since accession many new member states from Central and Eastern Europe struggle to access their billions of development funds from Brussels While existing research mostly emphasizes the role of states administrative capacities to account for absorption problems this study adds the so far neglected role of politics as party politicization to the equation The argument is tested using a combination of fuzzy set Qualitative Comparative Analysis fsQCA with two detailed process tracing case studies This book will appeal to scholars interested in EU cohesion policy post accession compliance and post communist politics

Democratic Politics in a European Union Under Stress Olaf Cramme, Sara B. Hobolt, 2014-11-20 This book offers a comprehensive political analysis of the Euro crisis that erupted in Greece in 2010 and subsequently threatened the very survival of the Euro area It has left a profound mark on democratic politics all over Europe changing public attitudes and voting preferences institutional and societal norms and deeply anchored political traditions The contributors to this volume reveal the extent to which policymakers are torn between the pressures emanating from financial markets and the demands put forward by their own constituents how they struggle to reconcile national preferences with wider European interests and how a polarized and politicized Union seeks to maintain some degree of cohesion The emerging picture is that of a European Union under serious stress transformed by new governance structures and a shifting balance of power In response the authors evaluate the prospects of a more legitimate and democratic Europe They provide a rich and pluralist set of new analyses and proposals aimed at understanding and navigating the myriad tensions which surround the EU in the aftermath of the crisis If the European project is to regain the trust of its citizens such considerations must take a central place in public debate *Euro Area Policies, ... The Political Economy of Reform Tompson William, Robert W. R. Price, 2009-09 By looking at 20 reform efforts in ten OECD countries this report examines why some reforms are implemented and other languish

From Reform to Growth Vít Novotný, 2013 The global economic crisis that began in 2007 has posed huge challenges for European citizens and governments The crisis has shown that the financial sector has not been adequately regulated and supervised that governments and individuals have overspent and that European economies are suffering from structural problems This book a collaboration between the Centre for European Studies and its member foundations assesses government responses to the crisis at the national EU and regional levels and also offers policy recommendations Governments should work with one another and with EU institutions to improve bank supervision and regulatory mechanisms They should undertake fiscal consolidation measures bearing in mind that government deficits and debt incur costs that burden future generations Finally they should undertake structural reforms such as creating flexible labour markets increasing the retirement age and shaping efficient public institutions

Monetary Policy & the Economy, 2012 **European Economy**, 2010 *OECD Journal*, 2012 **A Monetary Union in Motion** Richard Portes, 2001 **Renewal**, 2009 Trade and Development Report, 2010, 2010 The 2010 Report focuses on the need to make employment creation a priority in economic policy Unemployment is the most pressing social and economic problem of our time not least because especially in developing countries it is closely related to poverty The fallout from the global crisis has exacerbated what were already sluggish labour markets in most countries even before the crisis erupted It also warns that a premature withdrawal of macroeconomic stimulus measures to expand demand in

developed countries may trigger a deflationary spiral in the global economy with attendant slumps in growth and employment The publication draws attention to the importance of strengthening the macroeconomic policy framework to promote sustainable growth and employment creation in both developed and developing countries and makes recommendations for a reorientation of macroeconomic policies and institution building aimed at strengthening domestic demand **Standard & Poor's Creditweek** ,2009-11
