European Traditions Integration Or Dis Integration:

European Traditions Janwillem Oosterhuis, 2012 *European Disintegration?* Douglas Webber, 2018-11-20 This new book provides a comprehensive analysis of Europe on the brink of political disintegration. Observers of the European Union EU could be forgiven for thinking that it is in a state of permanent crisis. The Union has been beset with high levels of Eurozone debt, Russian intervention and armed conflict in Ukraine, refugees fleeing conflict zones in North Africa and the Middle East, and the decision of Britain to leave the European Union. This text offers a concise and readable assessment of the dynamics, character and consequences of these four crises and the increasingly real possibility of European disintegration. High levels of socio-economic interdependence and institutionalization have failed to result in an ever closer union, and yet the proposed theories of disintegration also fall short. Webber instead shows that it is only by looking at the role of the EU's dominant member, Germany, in each crisis that the potential for an increasingly fragmented Europe becomes clear. Until now, Germany has been the EU's stabilizing force, but this is no longer guaranteed. The fate of the integration process will depend on whether other, more inclusive forms of stabilizing leadership may emerge to fill the vacuum created by Berlin's incapacity. This text is the ideal companion for upper undergraduate and postgraduate students of the European Union as part of degrees in politics, international relations or European studies, or for anyone interested in the crises of the European Union.

European Traditions--integration Or Disintegration? Janwillem Oosterhuis, E. G. D. van Dongen, 2012 European legal traditions can be characterized as a continuous balancing act of two seemingly contradictory forces: centralization and decentralization. On the one hand, Justinian's *Corpus iuris*, the medieval *ius commune* of Roman and Canon law, the *usus modernus pandectarum*, and the current European harmonization efforts all have a centralizing or rather an integrative quality about them. While the *ius proprium*, including the English Common law and particularly the national codifications of the 19th century, as well as the study of these laws, exhibit more diverse decentralizing forces within European legal traditions. This book shows how comparative legal history can be used as a tool to analyze similarities and differences between legal systems. It provides a deeper understanding of common strands in law shared by European countries, in particular those at a substantive level through shared legal ideas and principles such as *clausula rebus sic stantibus*, unjustified enrichment, *cessio bonorum*, subsidiarity, or popular sovereignty, as well as those at a formal level through a common legal language and created by scholarly networks and appellate courts. Above all, the book's contributions, though eclectic in their subject matter, time period, and methodology, all reflect from a historical perspective on the fascinating, diverse European legal traditions.

Integration and Disintegration in European Economies Bruno Dallago, Giovanni Pegoretti, 1995 The complexity of the processes triggered after 1989 by the onset of transition to democratic society and a market economy in Central and Eastern Europe, and the time required for them to settle and stabilize, means that the economic situation of the continent remains uncertain. This book collects analyses by 12 scholars from various European

countries on diverse aspects of the processes of integration and disintegration under way in the European countries

modernity epistemologically modern The second section focuses on the nation state of Finland and the nationalistic use of folk traditions in the discursive production of Finnish modernity and its Others The insights are applicable worldwide in discussions on cultural representation *History for Ready Reference: El Dorado-Greaves* Josephus Nelson Larned, 1894
