Evelina Frank Frankfort Moore explores the intricate layers of Frances Burney's groundbreaking epistolary novel which heralded a new era in women's writing during the 18th century. Moore's erudite analysis situates *Evelina* within its historical and cultural context, examining themes such as social mobility, gender dynamics, and the quest for identity. With a keen eye for detail, he employs a blend of literary critique and biographical insight, shedding light on Burney's stylistic innovations and her influence on subsequent literary figures. Moore's writing is both accessible and scholarly, inviting readers to grapple with the complexities of Burney's prose while appreciating her profound impact on the development of the English novel. Frank Frankfort Moore, a noted novelist and biographer in his own right, possessed a deep appreciation for the literary figures that shaped the landscape of English literature. His background, steeped in both writing and critical analysis, informed his desire to resurrect and celebrate Burney's work at a time when women's voices were frequently marginalized in the literary canon. Moore's intimate knowledge of Burney's life and her literary milieu enriches his examination, providing readers with a compelling narrative of perseverance and artistry. This scholarly yet engaging volume is a must-read for anyone interested in the evolution of the novel, feminist literature, or the contributions of early female authors. By delving into Moore's incisive commentary and illuminating insights, readers will not only gain a deeper appreciation for *Evelina* but will also understand the literary movements that paved the way for modern storytelling.

Ethical Concepts and their Realisation in Fanny Burney's *Evelina* Katja Kremendahl, 2006-12-07 Seminar paper from the year 2006 in the subject English Language and Literature Studies Literature grade 1.0 University of Dusseldorf Heinrich Heine Anglistisches Institut IV course Female Initiation from the 18th century to the Present language English abstract

Literary works can hardly ever be separated from the ethical concepts of the time. This is even more the case for the 18th-century novel, which as a genre appeared at the beginning of that century. 1 The social, historic, and economic changes, the consequently following rise of the middle class, and radical alteration of the patronage system can be held responsible for the prevailing conditions of a more realistic approach to prose works. While Clive T. Probyn calls the time after the epoch of the big four the novelistic vacuum, 4 Joyce Tompkins even goes so far as to say that whereas the quantity of the output rose, the quality decreased. But although many critics make disparaging remarks about the authors of the period between the fathers of the novel and the generation of Austen, Scott, and others, to neglect the last quarter of the 18th century and its writers would be a terrible mistake. There were writers called the transitional novelists by Lilian D. and Edward Bloom, whose main goals were to imitate their idols, to mix the existing types of novels, and to integrate other, also foreign influences. These authors included among others Fanny Burney and Maria Edgeworth, who were and are recognised for not only imitating but also for having invented a new type. Generally speaking, the authors of 18th-century novels knew that they more than merely entertaining their readership had to invent heroes and heroines who were supposed to offer an ethical and moral pattern. 9 In this paper, after having established a common ground of the fundamental concepts of the 18th century, these aspects will be

examined in Fanny Burney's *Evelina*. First of all it has to be shown what kind of process of education the heroine goes through and why. But equally important it will be in which way the novel masters its didactic task towards educating the 18th-century reader. In the following these two features will be discussed with the help of references to Fanny Burney's life as well as examples from the novel itself.

The 18th century was a wealth of knowledge exploration and rapidly growing technology and expanding record keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars.

Western literary study flows out of eighteenth century works by Alexander Pope, Daniel Defoe, Henry Fielding, Frances Burney, Denis Diderot, Johann Gottfried Herder, Johann Wolfgang von Goethe, and others.
