

A photograph of a dirt road winding through a forest. The trees on either side have autumn-colored foliage in shades of orange, yellow, and brown. The road leads towards a bright light at the end of the path, creating a strong perspective. The overall mood is serene and contemplative.

Everything And Nothing Everything And Nothing

Andrew Cohen

Everything And Nothing Everything And Nothing:

Everything and Nothing Graham Priest, Markus Gabriel, 2022-09-15 Is it possible for reality as a whole to be part of itself Can the world appear within itself without thereby undermining the consistency of our thought and knowledge claims concerning more local matters of fact This is a question on which Markus Gabriel and Graham Priest disagree Gabriel argues that the world cannot exist precisely because it is understood to be an absolutely totality Priest responds by developing a special form of mereology according to which reality is a single all encompassing whole everything which counts itself among its denizens Their disagreement results in a debate about everything and nothing Gabriel argues that we experience nothingness once we overcome our urge to contain reality in an all encompassing thought whereas Priest develops an account of nothing according to which it is the ground of absolutely everything A debate about everything and nothing but also a reflection on the very possibility of metaphysics

Evolutionary Enlightenment Andrew Cohen, 2011 Cohen has re envisioned spiritual enlightenment in a completely new context This context is as he writes nothing less than the 14 billion year epic of our cosmic evolution a vast perspective that enhances and enlarges to almost infinite proportions the sense of the significance of what it means to be human
