Fidic Contracts Guide :

The FIDIC contracts guide, 2000 The FIDIC Contracts Guide Peter L. Booen, 2000 **The FIDIC Contracts Guide** Fidic, Thomas Telford Limited, 2000-06-30 FIDIC User's Guide Brian W. Totterdill, 2001

Guides to the FIDIC contract traditionally have been geared towards highlighting the legal aspects of claims arising from the contract. This text focuses on the practical administration of the contract recognizing the growing tendency for projects to be administered by local employers, consultants and contractors rather than by international organizations.

The FIDIC Contracts Guide International Federation of Consulting Engineers, 2006 FIDIC - A Guide for Practitioners Axel-Volkmar Jaeger, Götz-Sebastian Hök, 2009-11-11

In 1999 a suite of three new conditions of contract was published by FIDIC following the basic structure and wording harmonised and updated around the previous FIDIC Design Build and Turnkey Contract. The 1992 Orange Book. These conditions known as the FIDIC rainbow were the Conditions of Contract for Construction the so called Red Book for works designed by the Employer, Plant and Design Build the so called Yellow Book for works designed by the Contractor, EPC Turnkey Projects the so called Silver Book for works designed by the Contractor. The first is intended for construction works where the Employer is responsible for the design as for per the previous so called Red Book 4th Edition 1987 with an important role for the Engineer. The other two conditions of contract are intended for situations when the Contractor is responsible for the design. The Plant and Design Build Contract has the traditional Engineer while the EPC Turnkey Contract has a two party arrangement generally with an Employer's Representative as one of the parties.

FIDIC Contracts Guide with Detailed Guidance on Using the First Editions of FIDIC's Conditions for Construction; for Plant and Designbuild; for EPC/turnkey Projects International Federation of Consulting Engineers, 2000 **An Employer's and Engineer's Guide to the FIDIC Conditions of Contract** Michael D. Robinson, 2013-02-05

When all parties involved in the construction process fully understand their roles and are able to anticipate potential points of conflict disputes and delays will be minimised. The Employer's and Engineer's Guide to the FIDIC Conditions of Contract sets out the essential administrative requirements of a FIDIC based contract by reference to the FIDIC 1999 Red Book. The obligations and duties of the Employer and the Engineer are identified and discussed. Potential pitfalls are highlighted and likely consequences pointed out. The importance of the Employer's role in the preparation of tenders which fully reflect his requirements and duties and obligations arising in the execution of the works is emphasised. The key role of the Engineer in the effective administration of contracts after award is examined and commentary provided. Included in the guide are a number of appendices including model letters which will be of value to less experienced staff particularly those whose mother tongue is not the English language. Engineers, quantity surveyors and project managers engaged in the contractual administration of international projects using FIDIC forms of contract will find the concise guidance in simple and jargon free language provided here invaluable.
