Fie Fair Physician Wilkie Collins:

Fie! Fie! Or, The Fair Physician Wilkie Collins, 2016-04-03 This early work by Wilkie Collins was originally published in 1882 Born in Marylebone London in 1824 Collins family enrolled him at the Maida Hill Academy in 1835 but then took him to France and Italy with them between 1836 and 1838 Returning to England Collins attended Cole's boarding school and completed his education in 1841 after which he was apprenticed to the tea merchants Antrobus Co in the Strand In 1846 Collins became a law student at Lincoln's Inn and was called to the bar in 1851 although he never practiced It was in 1848 a year after the death of his father that he published his first book *The Memoirs of the Life of William Collins Esq R A* to good reviews The 1860s saw Collins creative high point and it was during this decade that he achieved fame and critical acclaim with his four major novels *The Woman in White* 1860 *No Name* 1862 *Armadale* 1866 and *The Moonstone* 1868 The *Moonstone* meanwhile is seen by many as the first true detective novel T S Eliot called it the first the longest and the best of modern English detective novels in a genre invented by Collins and not by Poe Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions *Medical Identities and Print Culture, 1830s-1910s* Alison

Moulds, 2021-08-10 This book examines how the medical profession engaged with print and literary culture to shape its identities between the 1830s and 1910s in Britain and its empire Moving away from a focus on medical education and professional appointments the book reorients attention to how medical self-fashioning interacted with other axes of identity including age gender race and the spaces of practice Drawing on medical journals and fiction as well as professional advice guides and popular periodicals this volume considers how images of medical practice and professionalism were formed in the cultural and medical imagination Alison Moulds uncovers how medical professionals were involved in textual production and consumption as editors contributors correspondents readers authors and reviewers Ultimately this book opens up new perspectives on the relationship between literature and medicine revealing how the profession engaged with a range of textual practices to build communities air grievances and augment its cultural authority and status in public life

Catalogue of the Original Manuscripts, by Charles Dickens and Wilkie Collins, of *The Frozen Deep*, and *The Perils of Certain English Prisoners*, by Dickens and Collins; *Two Poems* by Dickens; *The Woman in White*, *No Name*, *Armandale*, *Moonstone*, &c., &c., by Collins Sotheby, Wilkinson & Hodge, 1890 *The Doctor in the Victorian Novel* Tabitha Sparks, 2016-03-23 With the character of the doctor as her subject Tabitha Sparks follows the decline of the marriage plot in the Victorian novel As Victorians came to terms with the scientific revolution in medicine of the mid to late nineteenth century the novel's progressive distance from the conventions of the marriage plot can be indexed through a rising identification of the doctor with scientific empiricism A narrative's stance towards scientific reason Sparks argues is revealed by the fictional doctor's relationship to the marriage plot Thus novels that feature romantic doctors almost invariably deny

the authority of empiricism as is the case in George MacDonald's *Adela Cathcart*. In contrast works such as Wilkie Collins's *Heart and Science* which highlight clinically minded or even sinister doctors uphold the determining logic of science and in turn threaten the novel's romantic plot. By focusing on the figure of the doctor rather than on a scientific theme or medical field Sparks emulates the Victorian novel's personalization of tropes and belief systems using the realism associated with the doctor to chart the sustainability of the Victorian novel's central imaginative structure the marriage plot. As the doctors Sparks examines increasingly stand in for the encroachment of empirical knowledge on a morally formulated artistic genre their alienation from the marriage plot and its interrelated decline succinctly herald the end of the Victorian era and the beginning of Modernism.

Medical Women and Victorian Fiction Kristine Swenson, 2005. In *Medical Women and Victorian Fiction* Kristine Swenson explores the cultural intersections of fiction, feminism and medicine during the second half of the nineteenth century in Britain and her colonies by looking at the complex and reciprocal relationship between women and medicine in Victorian culture. Her examination centers around two distinct though related figures the Nightingale nurse and the New Woman doctor. The medical women in the fiction of Elizabeth Gaskell, Ruth Wilkie Collins *The Woman in White*, Dr Margaret Todd, Mona McLean, Medical Student Hilda Gregg, Peace with Honour and others are analyzed in relation to nonfictional discussions of nurses and women doctors in medical publications, nursing tracts, feminist histories and newspapers. Victorian anxieties over sexuality, disease and moral corruption came together most persistently around the figure of a prostitute. However Swenson takes as her focus for this volume an opposing figure the medical woman whom Victorians deployed to combat these social ills. As symbols of traditional female morality informed and transformed by the new social and medical sciences, representations of medical women influenced public debate surrounding women's education and employment, the Contagious Diseases Acts and the health of the empire. At the same time the presence of these educated independent women who received payment for performing tasks traditionally assigned to domestic women or servants inevitably altered the meaning of womanhood and the positions of other women in Victorian culture. Swenson challenges more conventional histories of the rise of the actual nurse and the woman doctor by treating as equally important the development of cultural representations of these figures.

Gender, Technology and the New Woman Lena Wanggren, 2017-04-28. This book examines late nineteenth century feminism in relation to technologies of the time, marking the crucial role of technology in social and literary struggles for equality. The New Woman, the fin de siècle cultural archetype of early feminism, became the focal figure for key nineteenth century debates concerning issues such as gender and sexuality, evolution and degeneration, science, empire and modernity. While the New Woman is located in the debates concerning the crisis in gender or sexual anarchy of the time, the period also saw an upsurge of new technologies of communication, transport and medicine. As this monograph demonstrates, literature of the time is inevitably caught up in this technological modernity; technologies such as the typewriter, the bicycle and medical technologies through literary texts come to work as

freedom machines as harbingers of female emancipation *Wilkie Collins* Alexander Grinstein,2003 This biography provides insight into the complexities of author Wilkie Collins personality and delineates some of the underlying problems he struggled with Wilkie Collins is mostly remembered today for his two classic mystery novels *The Woman in White* and *The Moonstone* *Wilkie Collins* Andrew Gasson,Catherine Peters,1998 This is the most comprehensive work ever published on the life work and influences of Wilkie Collins Interest in Collins has increased over recent years as his novels have gained popularity and his central role in 19th century fiction as a collaborator with writers such as Dickens and the father of the detective novel has been recognized The Guide is much more accessible than a biography entries are arranged alphabetically and fully cross referenced and the text is complemented by over 200 illustrations many of them never before published Special attention is paid to bibliographical and publishing details **Feminist Connections** Katherine Fredlund,Kerri Hauman,Jessica Ouellette,2020-09-29 Highlights feminist rhetorical practices that disrupt and surpass boundaries of time and space In 1917 Alice Paul and other suffragists famously picketed in front of the White House while holding banners with short pithy sayings such as Mr President How long must women wait for Liberty Their juxtaposition of this short phrase with the image of the White House a symbol of liberty and justice relies on the same rhetorical tactics as memes a genre contemporary feminists use frequently to make arguments about reproductive rights Black Lives Matter sex positivity and more Many such connections between feminists of different spaces places and eras have yet to be considered let alone understood *Feminist Connections Rhetoric and Activism across Time Space and Place* reconsiders feminist rhetorical strategies as linked intergenerational and surprisingly consistent despite the emergence of new forms of media and intersectional considerations Contributors to this volume highlight continuities in feminist rhetorical practices that are often invisible to scholars obscured by time new media and wildly different cultural political and social contexts Thus this collection takes a nonchronological approach to the study of feminist rhetoric grouping chapters by rhetorical practice rather than time content or choice of media By connecting historical contemporary and future trajectories this collection develops three feminist rhetorical frameworks revisionary rhetorics circulatory rhetorics and response rhetorics A theorization of these frameworks explains how feminist rhetorical practices past and present rely on similar but diverse methods to create change and fight oppression Identifying these strategies not only helps us rethink feminist rhetoric from an academic perspective but also allows us to enact feminist activist rhetorics beyond the academy during a time in which feminist scholarship cannot afford to remain behind its hallowed yet insular walls **Sale** American Art Association, Anderson Galleries (Firm),1923 *Wilkie Collins* William Harvey Marshall,1970 [Book-prices Current](#) ,1916 [Tulsa Studies in Women's Literature](#) ,2006 *Tale, Novella, Short Story* Wolfgang Görtzschacher,2004 **Anglo-American First Editions: East to west, 1826-1900, describing first editions of English authors whose books were published in America before their publication in England** Isidore Rosenbaum Brussel,1981 **Book-prices Current** ,1916 **The Library of**
