Hunter, 2018-08-01 Southern Homes and Plan Books showcases the architectural legacy and design philosophy of Leila Ross Wilburn 1885 1967 a legacy that includes hundreds of houses in a variety of popular house styles from bungalows to ranch houses built using Wilburn's plan books during the first six decades of the twentieth century Wilburn opened her own firm in Atlanta in 1908 and practiced until her death in 1967 She published nine plan books that offered mail order house designs to contractors builders and prospective homeowners and allowed them the ease of choosing a preconceived design and construction plan Sarah J Boykin and Susan M Hunter provide a survey of the southern homes

built from Wilburn's plan books examining Wilburn's architectural legacy and her achievements as a plan book architect. The book provides beautiful photographs of houses built from her plans along with illustrations from the plan books themselves and other related documents from the time. Readers can thus see how her designs were realized as individual houses and also how they influenced the development of some of the Atlanta area's beloved historical neighborhoods most notably Druid Hills, Morningside, Virginia Highland, and Candler Park, as well as the McDonough Adams Kings Highway MAK Historic District in Decatur. Today Wilburn's houses are enjoyed as appealing historic homes and represent some of the richest examples of southern vernacular architecture to emerge from the plan book tradition.

*The Ozarks* Milton D. Rafferty, 2001-11-01 The Ozark Mountains reach into Missouri, Arkansas, Oklahoma, and Kansas, forming a region with great natural beauty and a distinctive cultural and historical landscape. This comprehensive volume, a fully updated edition of a beloved classic, reaches into history, anthropology, economics, and geography to explore the complex relationships between the Ozarks people and land through times of profound change. Drawing on more than thirty years of research, field observations, and interviews, Rafferty examines this subject matter through a range of topics: the settlement patterns and material cultures of Native Americans, French, Scotch Irish, Germans, Italians, African Americans, Hispanics, and Asians in the region; population growth; the guerrilla warfare and battles of the Civil War; the cultural transformations wrought by railroads, roads, mass media, and modern communication systems; the discovery, development, and decline of the great mining districts; the various forms of agriculture; and the felling of the region's vast forests and the built landscape from log cabins to Victorian mansions to strip malls. This new edition also explores the new and potent forces which have reshaped the region over the last twenty years: tourism and the growing service industry, suburbanization, rapid population growth, and retirement living and agribusiness. Lavishly illustrated with historic and contemporary photographs, maps, and charts.
