Children and Sexual-Based Online Harms Catherine Knibbs, 2023-07-27 This sensitive guide for carers and professionals working with children and young people explains the serious issues of sexual content and harm that children face online. Covering technologies used by children aged two through to adulthood, it offers clear evidence-based information about sexual-based online harm, its effects, and what adults can do to support children should they see, hear, or bear witness to these events online. Catherine Knibbs, specialist advisor in the field, explains the issues involved when using online platforms and devices in family, social, and educational settings. The guide offers an accessible explanation of how online harm impacts developmental, neurological, and social development, as well as young people's mental health and well-being. Examined in as non-traumatising a way as possible, the book covers key topics including consent, pornography, online grooming, sexting, live streaming, revenge porn, ASD, sexuality, and gender, and vigilantism. Offering guidance and proactive and reactive strategies based on neuroscience and child development, it shows how e-safety is not one-size-fits-all and must consider the vulnerabilities of individual children and families. Children and Sexual-Based Online Harms will equip professionals and carers with the knowledge to support their work and to direct conversations about the online harms that children and young people face. It is essential reading for those training and working with children in psychological, educational, and social work contexts, as well as parents, policy makers, and those involved in the development of online technologies.

Adaptation in the Age of Media Convergence Johannes Fehrle, Werner Schäfke-Zell, 2025-10-01 This collection considers new phenomena emerging in a convergence environment from the perspective of adaptation studies. The contributions take the most prominent methods within the field to offer reconsiderations of theoretical concepts and practices in participatory culture, transmedia franchises, and new media adaptations. The authors discuss phenomena ranging from mash-ups of novels and YouTube cover songs to negotiations of authorial control and interpretative authority between media producers and fan communities, to perspectives on the fictional and legal framework of brands and franchises. In this fashion, the collection expands the horizons of both adaptation and transmedia studies and provides reassessments of frequently discussed BBC's *Sherlock* or the LEGO franchise, and previously largely ignored phenomena: self-censorship in transnational franchises, mash-up novels, or YouTube cover videos.

The Case for Fanfiction Ashley J. Barner, 2017-08-07 Challenging readers to rethink what they read and why, the author questions the aesthetic assumptions that have led to the devaluing of fanfiction, a genre criticized as both tasteless and derivative, and other guilty pleasure reading and writing, including romance and fantasy. The complicated relationship between fanfic and intellectual property rights is discussed in light of the millennia-old tradition of derivative literature before modern copyright law established originality as the hallmark of great fiction. Absorbed reading, the practice of immersing oneself in the narrative versus critically reading from a distance, is a strong motive for the appropriation by fanfiction of canon characters and worlds.

The Routledge Companion to Literary Media Astrid

Ensslin, Julia Round, Bronwen Thomas, 2023-08-30 The Routledge Companion to Literary Media examines the fast moving present and future of a media ecosystem in which the literary continues to play a vital role The term literary media challenges the tendency to hold the two terms distinct and broadens accepted usage of the literary to include popular cultural forms emerging technologies and taste cultures genres and platforms as well as traditions and audiences all too often excluded from literary histories and canons Featuring contributions from leading international scholars and practitioners the Companion provides a comprehensive guide to existing terms and theories that address the alignment of literature and a variety of media forms It situates the concept in relation to existing theories and historiographies considers emerging genres and forms such as locative narratives and autofiction and expands discussion beyond the boundaries by which literary authorship is conventionally defined Contributors also examine specific production and publishing contexts to provide in depth analysis of the promotion of literary media materials The volume further considers reading and other aspects of situated audience engagement such as Indigenous and oral storytelling prize and review cultures book clubs children and young adults This authoritative collection is an invaluable resource for scholars and students working at the intersection of literary and media studies

contemporary literary cultures and practices are increasingly intertwined with social media In this lively and wide ranging study Bronwen Thomas explores how social media provides new ways of connecting with and rediscovering established literary works and authors while also facilitating the emergence of unique and distinctive forms of creative expression The book takes a 360 approach to the subject combining analysis of current forms and practices with an examination of how social media fosters ongoing collaborative discourse amongst both informal and formal literary networks and demonstrating how the participatory practices of social media have the potential to radically transform how literature is produced shared and circulated The first study of its kind to focus specifically on social media Literature and Social Media provides a timely and engaging account of the state of the art while interrogating the rhetoric that so often accompanies discussion of the new in this context *Fifty Shades of Grey* E.
