Earth Pleiadian Keys To The Living Library By Marciniak Barbara 1994:

Earth Barbara Marciniak,1994-11-01 Embraced worldwide as key spiritual teachers of our times the Pleiadians are back with another bold and controversial look at our highest purpose on Earth Earth Pleiadian Keys to the Living Library is their handbook to inspired living calling on us to restore and return value to the human being and to recognize the Goddess energies and the power of blood as connections to our DNA and our heritage Using wit wisdom and deep compassion they entice us to explore the corridors of time through the concept of the Game Masters to awaken the crucial codes for multidimensional perspective and to redream the Living Library of Earth Their teachings are significantly arranged in twelve chapters to trigger a deeper understanding of our ancestral lineage Earth probes the memories hidden deep within us to reveal our crucial roles in the transformational process unfolding in our times **Beyond the Bleep** Alexandra

Bruce,2005-09-01 What the Bleep Do We Know is the biggest New Age movie phenomenon EVER This outrageous film plunges you into a world where quantum uncertainty is demonstrated where neurological processes and perceptual shifts are engaged and lived by its protagonist where everything is alive and reality is changed by every thought What the Bleep Do We Know gives voice to the modern day radical souls of science bringing their genius to millions What the Bleep Do We Know says that science and spirituality are not different modes of thought but are in fact describing the same thing And it brings the power back to the individual man and woman as it demonstrates creation as the god like capacity of every individual In **Beyond the Bleep** Alexandra Bruce illuminates the personalities and teachings of the physicists neurologists anesthesiologists physicians spiritual teachers mystics and scholars in the film as well as the filmmakers helping the reader sort through their wilder and woollier theories with simple explanations of the cutting edge science on which they are based The phenomenon of the movie is only just beginning spreading outwards from the yoga studios and health food stores of the Pacific Northwest across America and the world There is a huge demand for more information on the topics presented in the film **Beyond the Bleep** is the place to start *Subtle Energy Work* Synthia Andrews,2022 Learning to consciously interact in the domain of subtle energy is the next step in personal and planetary transformation Subtle energy is more than life force it is the substance of reality and the vehicle of consciousness Your body is wired to navigate this domain This book is a unique guide of principles practices and exercises to help you access your energy awareness and live a more empowered life

Comparative Metaphysics Pierre Charbonnier,Gildas Salmon,Peter Skafish,2016-12-22 How does the ontological turn in anthropology redefine what modern Western ontology is in practice and offer the beginnings of a new ontological pluralism On a planet that is increasingly becoming a single metaphysically homogeneous world anthropology remains one of the few disciplines that recognizes that being has been thought with very different concepts and can still be rendered in terms quite different than those placed on it today Yet despite its critical acuity even the most philosophically oriented anthropology often remains segregated from philosophical discussions aimed at rethinking such terms What would come of an

anthropology more fully committed to being a source of post philosophical concepts What would happen to philosophy if it began to think with and through these concepts How finally does comparison condition these two projects This book addresses these questions from a variety of perspectives all of which nonetheless hold in common the view that philosophy has been displaced and altered by the modes of thought of other collectives An international group of authors including Eduardo Viveiros de Castro Marilyn Strathern Philippe Descola and Bruno Latour explore how the new anthropology philosophy conjuncture opens new horizons of critique Gaia Luminous Kiara Windrider, 2023-08-19 this is the most comprehensive book on planetary shift I have ever read The physical realities cosmic perspectives and dynamics involved are all addressed Rapid climate changes galactic and solar cycles volcanism ice ages and magnetic reversals are touched upon in a rich and concise way Gaia Luminous goes to the very heights and depths of what this great change is all about Barry Martin Snyder Birthing the Luminous Self This remarkable book showcases Kiara's extraordinary ability to integrate summarize and structure a vast range of topics from deeply spiritual teachings to the latest discoveries in science Kiara brilliantly and eloquently connects the dots and presents clear and practical solutions for these complex and precarious times Yves Nager Find your Life Purpose For those who are consciously aware of the challenging implications of these times and seek both cosmic perspectives and spiritual guidance Gaia Luminous is an invaluable resource of scholarly and balanced investigation combined with profound personal experience Simon Peter Fuller Rising out of Chaos Kiara Windrider serves up a full course of scientific inquiry evolutionary thinking and sacred insights from a wide variety of traditions This thrilling read feeds our sense of the possible and activates our commitment to a bold new vision for humanity James O Dea The Conscious Activist

Claiming Sacred Ground Adrian J. Ivakhiv, 2001-07-26 Claiming Sacred Ground Pilgrims and Politics at Glastonbury and Sedona Adrian J Ivakhiv A study of people and politics at two New Age spiritual sites In this richly textured account Adrian Ivakhiv focuses on the activities of pilgrim migrants to Glastonbury England and Sedona Arizona He discusses their efforts to encounter and experience the spirit or energy of the land and to mark out its significance by investing it with sacred meanings Their endeavors are presented against a broad canvas of cultural and environmental struggles associated with the incorporation of such geographically marginal places into an expanding global cultural economy Ivakhiv sees these contested and heterotopic landscapes as the nexus of a complex web of interests and longings from millennial anxieties and nostalgic re imaginings of history and prehistory to real estate power grabs contending religious visions and the free play of ideas from science pseudo science and popular culture Looming over all this is the nonhuman life of these landscapes anotherness that alternately reveals and conceals itself behind a paginated of beliefs images and place myths A significant contribution to scholarship on alternative spirituality sacred space and the politics of natural landscapes Claiming Sacred Ground will interest scholars and students of environmental and cultural studies and the sociology of religious movements and pilgrimage Non specialist readers will be stimulated by the cultural ecological and spiritual dimensions of extraordinary natural
