## **Eating Stone Imagination And The Loss Of The Wild:**

*Eating Stone* Ellen Meloy, 2006-10-17 Long believed to be disappearing and possibly even extinct the Southwestern bighorn sheep of Utah's canyonlands have made a surprising comeback Naturalist Ellen Meloy tracks a band of these majestic creatures through backcountry hikes downriver floats and travels across the Southwest Alone in the wilderness Meloy chronicles her communion with the bighorns and laments the growing severance of man from nature a severance that she feels has left us spiritually hungry Wry quirky and perceptive *Eating Stone* is a brilliant and wholly original tribute to the natural world

**This Desert Hides Nothing** Ellen Meloy, 2020-09-01 Writer and naturalist Ellen Meloy and photographer Stephen Strom met in the fall of 2004 and began planning a collaborative book of images and prose expressing their shared love of the desert Two months later Meloy died suddenly at her home in southern Utah Over the years to follow Strom called on Meloy's writing to put his new photographs to words The collaboration seemed to deepen over time and it comes to fruition in *This Desert Hides Nothing*

*Ecology and Literature* B. Moore, 2016-04-30 Employing a groundbreaking rhetorical and ecocritical approach this volume advances personification anthropomorphism as a means of representing the natural world and arguing for its worth outside of human use

**Political Spirituality for a Century of Water Wars** James W. Perkinson, 2019-04-11 This book offers resources for reimagining the biblical vision of water for a time quickly emerging as the century of water wars It takes its urgency from the author's 5 year activist engagement with a grass roots led social movement pushing back on Detroit water shutoffs as global climate crises intensify Concerned with both white supremacist biopolitics and continuing settler colonial reliance on the Doctrine of Christian Discovery and beholden to an interreligious methodology of crossing over and coming back the text creatively re-reads the biblical tradition under tutelage to the mythologies and practices of various indigenous cultures Algonquian Huron Haitian Vodouist and Celtic Norman whose embrace of water is animate and spiritual as well as political and communal Not enough today merely to engage the political battle over water rights however indigenous wisdom and biblical prophecy alike insist that recovery of water spirituality is central to a sustainable future

*Outdoors in the Southwest* Andrew Gulliford, 2014-04-18 More college students than ever are majoring in Outdoor Recreation Outdoor Education or Adventure Education but fewer and fewer Americans spend any time in thoughtful respectful engagement with wilderness While many young people may think of adrenaline laced extreme sports as prime outdoor activities with *Outdoors in the Southwest* Andrew Gulliford seeks to promote appreciation for and discussion of the wild landscapes where those sports are played Advocating an outdoor ethic based on curiosity cooperation humility and ecological literacy this essay collection features selections by renowned southwestern writers including Terry Tempest Williams Edward Abbey Craig Childs and Barbara Kingsolver as well as scholars experienced guides and river rats Essays explain the necessity of nature in the digital age recount rafting adventures and reflect on the psychological effects of expeditions True life cautionary tales tell of encounters with nearly

disastrous flash floods 900 foot falls and lightning strikes The final chapter describes the work of Great Old Broads for Wilderness the Colorado Fourteeners Initiative and other exemplars of wilderness tithing giving back to public lands through volunteering stewardship and eco advocacy Addressing the evolution of public land policy the meaning of wilderness and the importance of environmental protection this collection serves as an intellectual guidebook not just for students but for travelers and anyone curious about the changing landscape of the West

**Sheep** Philip Armstrong, 2016-06-15 The ancient Egyptians worshipped them the Romans dressed them in fitted coats and the Christians associated them with their divine savior In *Sheep* Philip Armstrong traces the natural and cultural history of both wild and domestic species of ovis from the Old World mouflon to the corkscrew horned flocks of the Egyptians from the Trojan sheep of Homer's *Odyssey* to the cannibal sheep of Thomas More's *Utopia* from the vast migratory mobs of Spanish merinos all the way to Dolly the first animal we have ever cloned and Haruki Murakami's sheep human hybrids As Armstrong shows humans have treated sheep with awe cruelty or disdain for many thousands of years Our exploitation of them for milk meat and wool but also for artistic and cultural purposes has shaped both our history and theirs Despite all that we owe them we have often dismissed sheep as the least witted and least interesting of mammals to be accused of sheepishness or behaving like a flock of sheep is to be denigrated for lack of courage individuality or will Yet as this book demonstrates sheep actually possess highly sophisticated social skills and emotional intelligence Above all *Sheep* demonstrates that sometimes the most mundane animals turn out to be the most surprising

Nature's Writers Donald S. Clark, 2024-09-03 A photographic celebration of the landscapes that have influenced some of America's most important nature writers from John Muir to Terry Tempest Williams to Barbara Kingsolver Since 2019 Donald S. Clark has documented the places that have been instrumental in influencing the lives and words of both historic and contemporary nature and environmental writers throughout the United States While we have always felt their passionate connection to their own environments no book has ever made this visual connection between writers and their land before the relationship between prose and place Featuring more than 40 of America's most important writers the content is as far reaching as America itself from sea to shining sea forest to prairie and mountain to coastline Accompanying each gallery of stunning photography is a selected excerpt by the writer about their land With the increasingly noticeable effects of climate change the significance of these writers and their personal connections to the environment is even more timely This unique and compelling story of the land and how it has inspired some of our greatest poets and authors will make a wonderful gift for budding environmentalists students of nature writing or anyone interested in conservation
