### **INTRODUCTION**

One of the most attractive technologies in mobile technology which is termed as technology (computer or electronic). Several users mobile devices such as mobile communication and learning. The broad use of smartphones and different communication and Wi-Fi network has attracted the attention teaching method and learning process (Khalid&Khalid, 2020). The current usage of mobile devices has led to the use of mobile application in English Language Teaching. Numerous apps are available for language learning to students through many sources for the Internet. Existing researches are the current study that in the possibility and availability of mobile devices.

Moreover, it helps in the classification of apps to help users to identify the type of apps and decide which one to use. There is a lack of research about which apps are good and useful for a particular learner. The research is divided into the primary, secondary and tertiary level. Apps are classified according to the prior assessment category of learners that includes children, teenager or primary level school students to the secondary level, college students and adults or tertiary level. The main objective of this study are:

To put the learners to examine the difficulty in choosing the mobile English Learning apps.

To identify apps based on the learner level.

To identify the effectiveness of existing L2APP apps through mobile technology.

### **THE CONCEPT OF MALL LEARNING**

In the technological era, everyone has their own handheld mobile devices. Using these devices, with many users in common, they connect with people from anywhere in the world. Integration of time and place people and an exchange information with each other. The very term "mobile" stands for the "mobility" in the ability to move from one place to another. Mobile learning refers to the implementation of mobile devices in any form of media. The concept of mobile technology leads to the possibility and information available play a major role in the effectiveness of English language teaching and learning (El-Hassan & Elmaghrabi, 2019).

The main characteristics of MALL learning can be the absence of any barrier to any of the fields of the learner as well as open the place and time for language learning (Khalid&Khalid, 2020). The research in the domain of mobile learning studies is limited few papers to serve as a mobile concept because of the complexity of new mobile devices for the student.

Generally, mobile learning can be defined as utilizing of the personal, portable and wireless devices such as the
