A Guide to Biblical Commentaries and Reference Works, 11th Edition John F. Evans, 2025-01-21 A Guide to Biblical Commentaries and Reference Works 11th Edition by John F Evans summarizes and briefly analyzes all recent and many older commentaries on each book of the Bible giving insightful comments on the approach of each commentary and its usefulness for biblical interpretation The easy to use book provides analysis in canonical order and includes helpful appendices for compiling a personal research library A Guide to Biblical Commentaries and Reference Works 11th Edition is a key reference tool for any student of the Bible pastors laity and scholars alike The Book of Lamentations John

Goldingay, 2022-02-01 The book of Lamentations is one of the most vivid representations of grief and trauma in the Hebrew Bible Written in the wake of the fall of Jerusalem to the Babylonian Empire it is comprised of five poems of twenty two stanzas each in a manner of tight formal unity unparalleled by any other work in the Scriptures In this volume widely respected Old Testament scholar John Goldingay analyzes these and other aspects of Lamentations while keeping a constant eye on the book s meaning and use as Christian Scripture After a thorough introduction that explores matters of background composition and theology Goldingay provides an original translation of the book from the Masoretic text along with verse by verse commentary

Reconsidering the Book of the Four Nicholas R. Werse, 2019-05-20 Although many scholars recognize literary similarities between Hosea Amos Micah and Zephaniah defining the compositional relationship between these texts remains a matter of debate Following the scholarly trajectory of exploring the compositional relationship between the Twelve prophets several scholars argue that these four prophetic texts formed a precursory collection to the Book of the Twelve Yet even among advocates for this Book of the Four there remain differences in defining the form and function of the collection By reexamining the literary parallels between these texts Werse shows how different methodological convictions have led to the diverse composition models in the field today Through careful consideration of emerging insights in the study of deuteronomism and scribalism Werse provides an innovative composition model explaining how these four texts came to function as a collection in the wake of the traumatic destruction of Jerusalem This volume explores a historic function of these prophetic voices by examining the editorial process that drew them together **Journal of Biblical Literature**, 1982

Abraham in the Book of Jubilees J.T.A.G.M. van Ruiten, 2012-11-09 In Abraham in the Book of Jubilees Jacques van Ruiten offers a systematic analysis of one of the most important and extensive Second Temple Jewish treatments of the figure of Abraham Jub 11 14 23 8 Given the importance of representations and reinterpretations of Abraham within Judaism Christianity and Islam a careful analysis of this early source is an important contribution to research both on the evolving images of biblical patriarchs and on the history of biblical interpretation There are many references to Jubilees in articles and books on images of Abraham They are chosen for exegetical motifs with little attention for its own literary and narrative dynamics or for the specific writing and reading practices that it embodies and attests Van Ruiten s careful analysis thus

The Poetics of Visuality Justin J. White ,2024-11-14 Justin J White explores the nature of images in ancient Israel through a reconceptualization of the relationship between image and text He proposes that in ancient Israel texts evoked images as a core part of their rhetoric Rather than conceptualizing texts and images as ontologically or functionally distinct media he argues that both media are mixed media even while neither medium is reducible to the other In order to make this argument he focuses on the visual aspects of textual rhetoric what he terms the poetics of visuality He builds his argument across three text specific axes of visual rhetoric ekphrasis the visual imagination and material agency He makes the claim that each of these three axes are endemic to Israelite literature and mutually contribute to the formation of a robust ontology of visual representation in ancient Israel Supplements to Vetus Testamentum ,1953

Studies in the Historical Books of the Old Testament John Adney Emerton,1979 *Speaking of Speaking* Samuel Meier,2014-09-03 Direct speech appears on nearly every page of the Hebrew Bible and the large number of publications on direct discourse in the Bible highlights the importance of the subject for biblical studies However thus far only isolated aspects of the various problems that direct discourse presents have received attention Studies of individual verbs introducing direct discourse such as answer speak say and others are necessarily atomistic even though appropriate in their own right Other markers of direct discourse such as Thus said Yahweh or oracle of Yahweh tend to be treated as theological constructs isolated from the larger issues of direct discourse marking in general Speaking of Speaking aims to enrich the reading of the biblical text by offering a coordinated analysis of all such markers not only in order to consolidate a considerable body of work that is often overlooked by scholars but also to move further toward a synthesis that can permit informed generalizations not possible at the present time The comprehensive index facilitates the use of this book as a valuable reference tool The exegetical literary and theological findings of this book will be of great significance for all levels of research in biblical studies
