Financial Support for Students at Alternative Higher Education Providers Great Britain. Parliament. House of Commons. Committee of Public Accounts, 2015 Approximately 140 institutions offering higher education are termed alternative providers These alternative providers comprise a diverse range of organisations ranging from private companies to charitable institutions They do not receive government grants directly but do access public funding through student loans which are used to pay their fees Following the announcement of higher education reforms in 2011 and the associated increase in tuition fee loans there has been substantial and rapid growth in the sector Between 2010 11 and 2013 14 the number of students claiming support for courses at alternative providers rose from 7 000 to 53 000 Over the same period the total amount of public money paid to students at alternative providers through tuition fee loans and maintenance loans and grants has risen from around 50 million to around 675 million The Department has overall responsibility for oversight of publicly funded higher education including alternative providers with publicly funded students The Department did not learn from previous Government experience furthermore it has been slow to react to warning signs The rapid expansion in numbers was concentrated in five colleges that accounted for 50% of the expansion 20% of students receiving funding were not registered for a qualification and drop out rates were very high in some institutions There was also evidence from whistleblowers that proficiency in English language was not tested that some institutions were recruiting students on the streets and that students claiming funding were not attending colleges **Shakespeare's Props** Sophie Duncan, 2019-01-30

Cognitive approaches to drama have enriched our understanding of Early Modern playtexts acting and spectatorship This monograph is the first full length study of Shakespeare s props and their cognitive impact Shakespeare s most iconic props have become transhistorical transnational metonyms for their plays a strawberry spotted handkerchief instantly recalls Othello a skull Hamlet One reason for stage properties neglect by cognitive theorists may be the longstanding tendency to conceptualise props as detachable body parts instead this monograph argues for props as detachable parts of the mind Through props Shakespeare s characters offload reveal and intervene in each other s cognition illuminating and extending their affect Shakespeare s props are neither static icons nor substitutes for the body but volatile malleable and dangerously exposed extensions of his characters minds Recognising them as such offers new readings of the plays from the way memory becomes a weapon in Hamlet s Elsinore to the pleasures and perils of Early Modern gift culture in Othello The monograph

illuminates Shakespeare's exploration of extended cognition, recollection and remembrance at a time when the growth of printing was forcing Renaissance culture to rethink the relationship between memory and the object. Readings in Shakespearean stage history reveal how props both carry audience affect and reveal cultural priorities: some accrue cultural memories while others decay and are forgotten as detritus of the stage.

A Philosophical Inquiry into Subject English and Creative Writing Oli Belas, 2022-11-18 While engaging with the current political/educational climate of England, this book offers a timely contribution to debates around questions of knowledge in relation to education and school-level English by drawing together theories of individual and disciplinary knowledge. The book provides a philosophical conception of knowledge as fundamentally embodied at the level of the individual and a matter of cultural form at the level of shared or common knowledge and an analysis of the implications of this for schooled English. The research draws from various related fields including literary criticism, philosophy of knowledge and of symbolic form and phenomenology. The book rethinks general notions of knowledge and lays out the problems that exist within knowledge and language systems in education, especially secondary and university levels. This highly relevant and informative book offers an insightful resource for academics, researchers and postgraduate students in the fields of education studies, educational policy and politics, philosophy of education and literature studies.

Cultivating Compassion Pip Hardy, Tony Sumner, 2018-03-02 This book explores how digital storytelling can catalyze change in healthcare. Through six main sections, this second edition covers areas including healthcare education, patient engagement, quality improvement and the use of digital storytelling research. The chapters illuminate how digital storytelling can lead to greater humanity, understanding and ultimately compassion. This collection will appeal to those involved in delivering, managing or receiving healthcare and healthcare education and research, as well as people interested in digital storytelling and participatory media.
