## Edexcel Past Papers 2012 Year 9:

**Constructing History 11-19** Hilary Cooper, Arthur Chapman, 2009-07-09 This book describes and exemplifies strategies for teaching history across the 11-19 age range in rigorous and enjoyable ways. It illustrates active learning approaches embedded in pupil-led enquiries through detailed case studies which involve students in planning and carrying out historical enquiries, creating accounts and presenting them to audiences in ways that develop increasingly sophisticated historical thinking. The case studies took place in a number of different localities and show how practising teachers worked with pupils during each year from Y6-7 to Y13 to initiate, plan and implement enquiries and to present their findings in a variety of ways. Each case study is a practical example which teachers can use as a model and modify for their own contexts, showing how independent learning linked to group collaboration and peer assessment can enhance learning. Social constructivist theories of learning applied to historical thinking underpin the book with particular emphasis on links between personalised and collaborative learning and e-learning.

**The ICT Teacher's Handbook** Roger Crawford, 2013-06-26 The ICT Teacher's Handbook is an indispensable guide for all teachers responsible for the teaching and management of ICT in the secondary school, both as a comprehensive introduction for students learning to teach ICT and as a source of ongoing support for busy practising teachers. Illustrated throughout with case studies, key further reading and guidance on where to find and how to choose the best software and resources, the book also features a guide to specifications software for whole school support and a useful glossary of key terms. Key topics covered include: Organising and delivering the ICT National Curriculum at key stages 3 and 4 and post-16; Teaching and learning with VLEs, IWBs, social networking and mobile technologies; Assessment, record keeping and reporting; Popular hardware, software and networks; External assessment, target setting and tracking; Managing technical support and technicians; Preparing for promotion and managing an ICT department; Strategies for whole school management of ICT. Written for trainee and experienced ICT teachers and managers in both English and international schools, The ICT Teacher's Handbook is an authoritative guide designed to support effective teaching and learning and efficient use of technology in all schools.

The Art of Uncertainty David Spiegelhalter, 2025-03-04 Named a Best Book of the Year by Forbes and The Economist. From our greatest living statistical communicator, Tim Harford, comes an invaluable data-driven guide for understanding and learning to embrace risk and uncertainty in our daily lives. How dangerous is our diet? How much of sports falls into the realm of luck? When authorities categorize a given event as highly likely, how likely is that really? Whether we're trying to decide if the benefits of a new medication are worth the chance of side effects or if artificial intelligence truly threatens humanity, our lives are riddled with uncertainties, both everyday and existential, yet it can be difficult to know how to properly weigh all those unknowns. Luckily for us, renowned statistician David Spiegelhalter has spent his career dissecting data to resolve the apparently random and decode the many decisions we face with imperfect information. In *The Art of Uncertainty*, he shows

how we can become better at dealing with what we don't know to make smarter choices in a world so full of puzzling variables. In lucid, lively prose Spiegelhalter guides us through the principles of probability, illustrating how they can help us think more analytically about everything from medical advice to sports to climate change forecasts. He demonstrates how taking a mathematical approach to phenomena we might otherwise attribute to fate or luck can help us sort hidden patterns from mere coincidences, better evaluate cause and effect, and predict what's likely to happen in the future. Along the way we learn how a misinterpretation of a probability contributed to the infamous Bay of Pigs fiasco, why a ship twice the size of the Titanic sank without a trace, and why we can be so confident that no two properly shuffled decks of cards have ever been in the same order. Sparkling with wit and fascinating real-world examples, this is an essential guide to navigating uncertainty while also retaining the humility to admit what we don't or simply cannot know.

**Remembering the First World War**  
Bart Ziino, 2014-12-05

Remembering the First World War brings together a group of international scholars to understand how and why the past quarter of a century has witnessed such an extraordinary increase in global popular and academic interest in the First World War, both as an event and in the ways it is remembered. The book discusses this phenomenon across three key areas. The first section looks at family history, genealogy, and the First World War, seeking to understand the power of family history in shaping and reshaping remembrance of the War at the smallest levels, as well as popular media and the continuing role of the state and its agencies. The second part discusses practices of remembering and the more public forms of representation and negotiation through film, literature, museums, monuments, and heritage sites, focusing on agency in representing and remembering war. The third section covers the return of the War and the increasing determination among individuals to acknowledge and participate in public rituals of remembrance with their own contemporary politics. What, for instance, does it mean to wear a poppy on Armistice Remembrance Day? How do symbols like this operate today? These chapters will investigate these aspects through a series of case studies. Placing remembrance of the First World War in its longer historical and broader transnational context, and including illustrations and an afterword by Professor David Reynolds, this is the ideal book for all those interested in the history of the Great War and its aftermath.
