Contemplating Woman in the Philosophy of Edith Stein Maybelle Marie O. Padua, 2007

The Philosophy of Edith Stein Antonio Calcagno, 2007 For most philosophers the work of Edith Stein continues to be eclipsed and relegated to obscurity This work presents an excellent cross section of Stein's writings and demonstrates the timeliness and relevance of her ideas for contemporary philosophical scholarship Antonio Calcagno covers most of Edith Stein's philosophical life from her early work with Husserl to her later encounters with medieval Christian thought as well as a critical and analytical reading of major Steinian texts Stein was an original thinker who challenged not only the direction in which Husserlian phenomenology was progressing but also sought to bring to philosophical light the relevance of certain key questions including the meaning of what it is to be human the relevance of metaphysics to science and fundamental questions about the nature of God Working to correct the perception that Stein is either an unfaithful and distorting phenomenologist or a pious Catholic mystic Calcagno presents important work that has been neglected by both secular and religious scholars The essays are not merely expository but discuss the philosophical questions raised by Stein's work from a contemporary perspective using Stein's original German texts In its attention to the breadth and depth of Stein's philosophy from its initial development to its more mature form The Philosophy of Edith Stein offers a new understanding of an individual who left behind an incredible philosophical and literary legacy worthy of scholarly attention The book will be of interest not only to Stein scholars but to feminists phenomenologists and Heideggerians

A History of Women Philosophers M.E. Waithe, 1995 Like their predecessors and like their male counterparts most women philosophers of the 20th century have significant expertise in several specialities Moreover their work represents the gamut of 20th century philosophy s interests in moral pragmatism logical positivism philosophy of mathematics of psychology and of mind Their writings include feminist philosophy classical moral theory reevaluated in light of Kant Mill and the 19th century feminist and abolitionist movements and issues in logic and perception Included in the fourth volume of the series are discussions of L Susan Stebbing Edith Stein Hedwig Conrad Martius Simone de Beauvoir Simone Weil Mary Whiton Calkins Gerda Walther and others While pre 20th century women philosophers were usually self educated those of the 20th century had greater access to academic preparation in philosophy Yet for all the advances made by women philosophers over two and a half millennia the philosophers discussed in this volume were sometimes excluded from full participation in academic life and sometimes denied full professional academic status

Thinking Woman Jennifer Hockenbery, 2015-10-20 What does it mean to be a woman Do women have a unique nature and a unique vocation Should feminists work to help women specifically or to support all people Thinking Woman examines the lives and ideas of women in the history of philosophy who wished to understand and advocate for themselves as women Some like Hildegard of Bingen and Edith Stein found women to be a unique creature designed by God necessary for good stewardship of creation Others such as Mary Wollstonecraft and Sojourner Truth found women to be identical to men in all but biology and thus identical before the law Still others from Simone de Beauvoir to Judith Butler found the very question troubling as they tried to sort out cultural ideas from biological rules These women and their views form a canon on the question of women a canon that can help guide the conversation for thinkers and activists today who want both to understand women and to advocate for justice for all people
