Dialogues of Plato B. Jowett, 1901 Plato, Vol. 2 of 2 R. G. Bury, 2015-06-17 Excerpt from Plato Vol 2 of 2 With an English Translation Now that our children of both sexes are born our proper course will be to deal in the next place with their nurture and education This is a subject which it is wholly impossible to pass over but obviously it can be treated more suitably by way of precept and exhortation than by legislation For in the private life of the family many trivial things are apt to be done which escape general notice things which are the result of individual feelings of pain pleasure or desire and which contravene the instructions of the lawgiver and these will produce in the citizens a multiplicity of contradictor tendencies This is bad for a State For while on the one hand it is improper and undignified to impose penalties on these practices by law because of their triviality and the frequency of their occurrence on the other hand it detracts from the authority of the law which stands written when men grow used to breaking the law in trivial matters repeatedly Hence while it is impossible to pass over these practices in silence it is difficult to legislate concerning them About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Plato* Platon, 1952 *Plato, with an English Translation: 2* Plato, Harold North Fowler, W. morality is not far from the truth But the objection is urged that the honourable is the good and as every one equally desires the good the point of the definition is contained in the words the power of getting them and they must be got justly or with justice The definition will then stand thus Virtue is the power of getting good with justice But justice is a part of virtue and therefore virtue is the getting of good with a part of virtue The definition repeats the word defined Meno complains that the conversation of Socrates has the effect of a torpedo's shock upon him When he talks with other persons he has plenty to say about virtue in the presence of Socrates his thoughts desert him Socrates replies that he is only the cause of perplexity in others because he is himself perplexed He proposes to continue the enquiry But how asks Meno can he enquire either into what he knows or into what he does not know This is a sophistical puzzle which as Socrates remarks saves a great deal of trouble to him who accepts it But the puzzle has a real difficulty latent under it to which Socrates will endeavour to find a reply The difficulty is the origin of knowledge About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Plato** Plato, 1952
