A Brief History of the Future of Education Ian Jukes, Ryan L. Schaaf, 2018-12-28 The Future Tense of Teaching in the Digital Age The digital environment has radically changed how and what students need and want to learn but has educational delivery radically changed Get ready to be challenged to accommodate today's learners as opposed to allowing default classroom practices With its touches of humor and choose your own adventure approach the book encourages readers to search for interesting relevant or required material and then jump right in At its core readers will Consider predictions about future learning Understand how to leverage nine core learning attributes of digital generations Discover ten critical roles educators can embrace to remain relevant in the digital age

The Report: Papua New Guinea 2013 Oxford Business Group, 2013-08-16 Papua New Guinea is poised for change as the country's mineral riches are providing a major opportunity for economic development through the exploitation of natural

History of Number Kay Owens, Glen Lean, Patricia Paraide, Charly Muke, 2017-10-24 This unique volume presents an ecocultural and embodied perspective on understanding numbers and their history in indigenous communities The book focuses on research carried out in Papua New Guinea and Oceania and will help educators understand humanity's use of numbers and their development and change The authors focus on indigenous mathematics education in the early years and shine light on the unique processes and number systems of non European styled cultural classrooms This new perspective for mathematics education challenges educators who have not heard about the history of number outside of Western traditions and can help them develop a rich cultural competence in their own practice and a new vision of foundational number concepts such as large numbers groups and systems Featured in this invaluable resource are some data and analyses that chief researcher Glendon Angove Lean collected while living in Papua New Guinea before his death in 1995 Among the topics covered The diversity of counting system cycles where they were established and how they may have developed A detailed exploration of number systems other than base 10 systems including 2 cycle 5 cycle 4 and 6 cycle systems and body part tally systems Research collected from major studies such as Geoff Smith's and Sue Holzknicht's studies of Morobe Province's multiple counting systems Charly Muke's study of counting in the Wahgi Valley in the Jiwaka Province and Patricia Paraide's documentation of the number and measurement knowledge of her Tolai community The implications of viewing early numeracy in the light of this book's research and ways of catering to diversity in mathematics education In this volume Kay Owens draws on recent research from diverse fields such as linguistics and archaeology to present their exegesis on the history of number reaching back ten thousand years ago Researchers and educators interested in the history of mathematical sciences will find History of Number Evidence from Papua New Guinea and Oceania to be an invaluable resource

Achieving Sustainable E-Government in Pacific Island States Rowena Cullen, Graham Hassall, 2017-02-17 This book analyzes the common set of obstacles to the development and integration of government Information and Communication Technology ICT projects and effective e government initiatives in

developing countries It draws on the expertise and experience of more developed states in the Pacific notably Australia and New Zealand both highly rated in global rankings for e government and active in a variety of e government development projects across the region There has been a general failure to identify priorities and align projects with local needs in ICT e government projects Small Island Developing States or SIDS present a unique problem in terms of e government Not only do they suffer from a common set of barriers to ICT development such as their remoteness geographical dispersion moist tropical climates largely rural populations and lack of ICT capacity and infrastructure but are also dependent on external agencies for investment and must negotiate with powerful donors who have conflicting agendas E government is widely regarded as transformational increasing efficiency productivity accountability economic growth and citizen involvement But while the governments of SIDS are committed to harnessing ICTs for effective government and economic development they face major challenges in establishing successful e government initiatives due to the problems outlined above coupled with a lack of HR capacities and appropriate strategies and policies Drawing on the experience of the states mentioned above as well as regional quasi governmental bodies nongovernmental organizations NGOs aid agencies and the private sector the book will be of interest to researchers and students in the fields of e government public administration political science communication information science and social media Accessing Post-School Studies Venica McGhie,2017-12-01 This publication makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success student learning student support and student engagement In this regard the authors draw on the works of higher education theorists such as Kuh Tinto Marton and Saeljoe The book is primarily a helpful resource for South African learners in school students at universities life orientation teachers as well as parents of prospective university students It will especially assist students to adapt to the university environment *In Search of Indian English* Ranjan Kumar Auddy,2019-11-11 This book presents a historical account of the development of an acrolectal variety of the English language in colonial India It highlights the phenomenon of Indianization of the English language and its significance in the articulation of the Indian identity in pre Independence India This volume also discusses the sociocultural milieu in which English became the first choice for writers and political leaders Using examples primarily from the writings of Rammohan Roy Bankimchandra Krupabai Saththianadhan and Gandhi and from the speeches of Vivekananda Tagore and Subhas Bose this book argues that prose written in English in the nineteenth and the early twentieth century scripted a nationalist discourse through its appropriation of the colonizer s language It also examines how these works which absorbed elements of Indian culture and languages paved the path for the emergence of Indian English as a distinct dialect of the English language This book will be useful for teachers scholars and students of English literature linguistics and cultural studies It will also be of use to general readers interested in the history of the English language and the history of modern India A Sustainable Future for Small States Resina Katafono,2017-09-01 A Sustainable Future for Small States Pacific 2050 is part of the

Commonwealth Secretariat's regional strategic foresight programme that examines whether current development strategies set the region on a path to achieve sustainable development by 2050. The study analyses whether Commonwealth Pacific small states (Fiji, Kiribati, Nauru, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu and Vanuatu) will achieve the Sustainable Development Goals. It reviews critical areas that can serve as a catalyst for change in the region: governance (examining political governance, development effectiveness and coordination and ocean governance), non-communicable diseases, information and communications technology, and climate change (focussing on migration and climate change and energy issues). In each of these areas, possible trajectories to 2050 are explored, gaps in the current policy responses are identified, and recommendations are offered to steer the region towards the Pacific Vision of a region of peace, harmony, security, social inclusion, and prosperity so that all Pacific people can lead free, healthy and productive lives.
