Ecstasy, Ritual, and Alternate Reality Felicitas D. Goodman, 1988-12-22 An important book which deserves the careful attention of serious students of religion Religious Studies Review Anthropologist and spiritual explorer Felicitas Goodman offers a unified field theory of religion as human behavior She examines ritual the religious trance alternate reality ethics and moral code and the named category designating religion **The Pragmatics of Defining Religion** Platvoet, Arie

Molendijk, 2018-11-13 This volume promotes a pragmatic anti essentialist and anti hegemonic approach to the problem of the definition of religion It argues that definitions of religion are context bound strategies for pursuing a variety of purposes extra academic as well as academic Religions being immensely varied complex and multi functional phenomena they need to be studied by several academic disciplines from many different perspectives It is therefore legitimate and useful that many definitions of religions are developed The volume has contributions from scholars in Philosophy of Religion the Comparative Study of Religions Anthropology of Religion Sociology of Religion and Psychology of Religion It has chapters on the polemics of defining religion in modern contexts the history of the concept of religion and the methodology of its definition it includes several definition proposals *Jesus, the Galilean Exorcist* Amanda Witmer, 2012-02-23 Amanda Witmer presents an

investigation of exorcism in the activities of the historical Jesus particularly the connection between spirit possession and exorcism on the one hand and the socio political context of first century Galilee on the other Witmer draws on research from the areas of sociology anthropology archaeology and biblical studies to illuminate this aspect of Jesus career as well as the broader social implications of spirit possession in those he treated and the exorcisms themselves Evidence found in the strands underlying the Synoptic Gospels is evaluated using the criteria of authenticity and comparative analysis in order to establish early and historical material Questions posed and answered concern the historical plausibility of Jesus role as exorcist the possibility that his own career began with a period of spirit possession and the meaning that his exorcisms conveyed to his first century audience Thus the methodology includes textual analysis sociological analysis of general cultural patterns within which first century Palestine can be fitted and anthropological analysis of the plausible functions of both spirit possession and exorcism in agrarian societies Scripturalectics Vincent L. Wimbush, 2017-05-04 In this book

Vincent Wimbush seeks to problematize what we call scriptures a word first used to refer simply to things written the registration of basic information In the modern world the word came to be associated almost exclusively with the center and power defining sacred texts of world religions Wimbush argues that this narrowing of the valence of the term was a decisive development for western culture His purpose is to reconsider the initially broad and politically charged use of the term Scriptures are excavated not merely as texts to be read but understood as discourse as mimetic rituals and practices as ideologically charged orientations to and prescribed behaviors in the world as structures of relationships and social formations as forms of communication Wimbush is naming and constructing a new transdisciplinary critical project which

uses the historical and modern experiences of the Black Atlantic as resources for framing categorization and analysis Using Chinua Achebe's novel *Things Fall Apart* as a touchstone each chapter offers a close reading and analysis of a representative moment in the formation of the Black Atlantic regarded as part of a history of modern human consciousness and conscientization Such a history Wimbush says is reflected in the major turns in what he calls scripturalectics part of the construction of the modern world defined as efforts to manage or control knowledge and meaning

Shamanism Gary Edson, 2014-04-14 The ancient practice of shamanism touches many cultures and spiritual philosophies This book offers an in depth look at the beliefs and practices centered on the shaman a person believed to have powers to heal and communicate with the spirit world It explores shamanism and its associated myths artifacts and legends as a communally endorsed acknowledgment of the supernatural or spirit world that evolved in the Neolithic Period and continues to appeal today The work is heavily illustrated featuring more than 90 of the author's drawings of masks fetishes carvings and ongon and 40 rare photographs of shamans medicine men and women and healers

Historically Responsive Storytelling Eleanor Chadwick, 2023-11-30 This book explores the notion that the emergent language of contemporary theatre and more generally of modern culture has links to much earlier forms of storytelling and an ancient worldview This volume looks at our diverse and amalgamative theatrical inheritance and discusses various practitioners and companies whose work reflects and recapitulates ideas approaches and structures original to theatre's ritual roots Drawing together a range of topics and examples from the early Middle Ages to the modern day Chadwick focuses on a theatrical language which includes an emphasis on the psychosomatic the non linear the symbolic the liminal the collective and the sacred This interdisciplinary work draws on approaches from the fields of anthropology philosophy historical and cognitive phenomenology and neuroscience making the case for the significance of historically responsive modes in theatre practice and more widely in our society and culture

Ecstasy in art, music, and dance Ulrike Groos, Markus Müller, Anne Vieth, 2018 Tracing the phenomenon of ecstasy in art and cultural history this book illuminates the various spiritual political psychological social sexual and aesthetic implications of euphoric and intoxicated states between asceticism and excess Artworks from antiquity to the present time show the various facets of mind altering states while taking different cultural regions into consideration

The Journal of the American Society for Psychical Research American Society for Psychical Research, 1992 List of members in v 1 6 12 **The Nature and Function of Rituals** Ruth-Inge Heinze, 2000-01-30 From time to time immemorial people have performed rituals out of a deep rooted human need to come into the presence of the Divine When a theophany is reenacted harmony and balance necessary for leading a satisfactory life are restored to the individual participants and to the community as a whole This collection of seventeen studies illuminates the power of ritual to facilitate life transitions and includes discussion of rituals associated with childbirth adolescent initiation wedding and funeral rites and rituals used to resolve conflict and reinforce the solidarity of a community The reader will observe how rituals resolve the tension between modernity and tradition and will understand why rituals have not lost their power over the millennia *Journal for the Study of Religion* , 2003 **Women and Miracle Stories** Anne-Marie Korte, 2001 This book contains a multidisciplinary collection of studies on women in miracle stories found in texts ranging from religious classics to contemporary literary fiction Miracle stories are a genre of great importance for the study of women's religious inheritance and for the historical and cultural understanding of women as makers of faith Miracle stories are very generally speaking more open to popular religion and culture than for instance doctrinal and official ecclesiastical texts and as such they can be of special interest to the study of women's lives and religious aspirations Remarkably up till now this genre has not been looked at from this point of view This book aims to open this field for further research by presenting case studies from diverse angles and disciplines Some of the questions this book tries to answer are What do miracle stories specifically tell us about women Are there some types of miracles that are in particular related to certain groups of women What do these stories tell us about women as performers and or subjects of miracles What can be said about the social function and religious meaning of miracles by specifically looking at the way certain groups of women are practising and experiencing miracles By including research on miracle stories in contemporary fiction written by women this book also wants to acknowledge and research the disputed status of miracles as well of women in our present society which is moving from modernity to post modernity *Jung and Shamanism in Dialogue* C. Michael Smith, 1997 In this highly original study C Michael Smith explores the affinities and distinctions between shamanism and Jungian psychology by bringing them together in dialogue According to Smith shamanism is considered to be a complex of practices of magico religious character concerned primarily with psycho spiritual and psychosomatic healing Smith systematically examines shamanism from a Jungian perspective and Jungian psychology from a shamanic perspective ultimately reflecting on the clinical and cultural implications of this study on psychotherapy and spirituality today Jung and Shamanism in Dialogue makes an excellent resource for psychotherapists social workers clergy and anyone interested in tapping into psycho spiritual wisdom BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Q21C** John Argus, Stephen Cox, 1999 **Masterpieces of Non-Western World**

Literature Thomas L. Cooksey, 2007-10-30 Contains ten interpretive essays that discuss classical works of non Western world literature including the poetry of Li Po the Epic of Gilgamesh and The Tale of Genji The Journal of Indo-European Studies, 1993 **Where the Spirits Ride the Wind** Felicitas D. Index** Serinity Young, 1999 *The Biology of Religious Behavior* Jay R. Feierman, 2009-06-08 This title offers a fresh and detailed take on the evolution of religious behavior from a biobehavioral perspective promoting a new understanding that may help build bridges across the religious divide Religious conflict and divisiveness have been important themes in human history and their effects are no less evident today The scientific study of religion cannot by itself mend these divisions but by enhancing our understanding of behavior it can make an important contribution towards that end There has been much recent interest in the study of religion from the perspective of Darwinian evolution The Biology of Religious Behavior The Evolutionary Origins of Faith and Religion offers a broad overview of the topic written by internationally recognized experts In addition to its primary focus on religious behavior the book addresses other important aspects of religion such as values beliefs and emotions as they affect behavior The contributors approach the evolution of religion by examining the behavior of individuals in their everyday lives After describing various religious behaviors the contributors consider the behaviors with reference to their evolutionary history development during the lifetime of the individual proximate causes and adaptive value Happily this foray into understanding religion from a biobehavioral perspective demonstrates that at the biological and behavioral levels what unites the different religions of the world is far greater than what divides them This title attempts to explain the link between biology and religious behavior It takes a multidisciplinary approach offering new insights into religious beliefs and behavior that may help bridge religious divisions It demonstrates that religious belief and behavior have evolved in a similar fashion for all religions It provides a means of understanding how religion could have evolved spread and become what it is today from www.amazon.co.uk Nov 25 2010
