Eduardo Barreiros And The Recovery Of Spain:

Eduardo Barreiros and the Recovery of Spain Hugh Thomas, 2009 A dramatic biography of the extraordinary Spanish industrialist and entrepreneur Eduardo Barreiros Born in an impoverished region of Galicia possessed of little education and less money Eduardo Barreiros 1919 1992 rose to become an immensely successful entrepreneur and one of Spain's most prominent industrialists In this engaging biography the first on a Spanish entrepreneur in English Hugh Thomas recounts Barreiros's origins as an auto mechanic his success in the motor industry his tragic alliance with the Chrysler Corporation and his little known role as a motor industry founder in 1980s Cuba Drawing on an unrivaled knowledge of Spanish history Lord Thomas also brings to light Barreiros's critical role in the modernization of the Spanish economy in the post Civil War years The book offers a detailed portrait of Don Eduardo's personality character and numerous entrepreneurial endeavors as well as a full account of the difficulties the Franco era government threw in the path of his capitalist activities The relationship between Barreiros and the Chrysler Corporation is also described along with the failed Dodge Dart project that ultimately cost Barreiros his business Finally the book recounts Don Eduardo's late in life efforts to help establish a motor industry in Castro's Cuba a paradoxical conclusion for a great capitalist

The 'Red Terror' and the Spanish Civil War Julius Ruiz, 2014-04-30 This book deals with one of most controversial issues of the Spanish Civil War 1936 9 the Red Terror Approximately 50 000 Spaniards were extrajudicially executed in Republican Spain following the failure of the military rebellion in July 1936 This mass killing of fascists seriously undermined attempts by the legally constituted Republican government to present itself in foreign quarters as fighting a war for democracy This study based on a wealth of scholarship and archival sources challenges the common view that executions were the work of criminal or anarchist uncontrollables Its focus is on Madrid which witnessed at least 8 000 executions in 1936 It shows that the terror was organized and was carried out with the complicity of the police and argues that terror was seen as integral to the antifascist war effort Indeed the elimination of the internal enemy the Fifth Column was regarded as important as the war on the front line
