what I read is my brain that dull or maybe I don't have a brain. Seeing me on the verge of collapse, my father took me to meet a person who was a renowned professor at Vanderbilt University. He was well known for his research on why some students excel in school. He is my godsend mentor; he showed me the light and opened up my eyes and mind both at the same time as he explained why only a few students do exceptionally well in school while rest do not. He answered the three questions I asked you above and said the answers are 1 No 2 No 3 No. Long story short, next final I scored in the top 5% and was called into the principal's office asking me how I was able to do that. I think he was trying to find out if I was cheating really. Moving on, I never had to look back. My college days weren't as glorious or full of A's but I did finish my B.S. in Economics with a 3.8 GPA, not bad huh. Well, that landed me a scholarship at the same university, Vanderbilt, for my MBA. From my dark days of 8th grade till I finished my PhD, yes I did it, only thing I followed were those strategies and smart tips that my mentor gave me. Now this book is not about my success but yours. I wrote this book to show you how easy it truly can be to excel in school as long as we follow a few simple strategies and tips. This book is tailor made to help you rise to meet the challenges of the college experience both academically and socially. In this book, you will learn skills that will help you develop a system of habits that will benefit you for the rest of your life. Learn How to 1 Minimize the time you spend studying 2 Master techniques to optimize the time invested in studying 3 Develop and implement great study habits on a consistent basis 4 Understand that time is a finite resource and therefore needs to be budgeted like any other finite resource 5 Organize, prioritize and execute every assignment, project and event on your calendar 6 Improve your output so you create and turn in grade A work 7 Nine amazing tips that worked for me every time. So grab a pen and a sheet of paper. You won't need more than one sheet. Make a note of any strategies, recommendations and skills that don't already come naturally to you. These notes are just for your eyes and your life.
