

The background of the cover is a painting of a battlefield. In the foreground, several soldiers in dark uniforms are visible, some appearing to be in motion or engaged in combat. The ground is uneven and brownish. In the background, there is a large plume of white smoke or mist rising from the battlefield, partially obscuring the sky. The overall tone is somber and historical.

Early Battles Of The Eighth Army Crusader To The Alamein Line:

The Early Battles of Eighth Army Adrian Stewart, 2002 As Adrian Stewart reveals in this account the early history of the Desert Rats was by no means so glorious or successful Through careful examination of the plentiful evidence much provided by those who personally fought in North Africa he analyses the reasons for the near catastrophic reverses in the days before Montgomery His conclusion is that far from being due to any lack of resolve or courage on the part of its soldiers or inadequacies of equipment it was the failure of British generalship particularly that of General Sir Claude Auchinleck the Commander in Chief Middle East that proved so damaging Held in genuinely high regard for his fine qualities The Auk found himself ill fitted for the demands of mobile armoured warfare and often unable to select the right subordinates It was doubly unfortunate that he and Eighth Army faced the able and charismatic Erwin Rommel **BOOK JACKET** *From Tobruk to Tunis* Neal Dando, 2016-04-21 This book focuses on the extent to which the physical terrain features across Egypt Libya and Tunisia affected British operations throughout the campaign in North Africa during the Second World War One main theme of the work analyses the terrain from the operational and tactical perspective and argues that the landscape features heavily influenced British operations and should now be considered alongside other standard military factors The work differs from previous studies in that it considers these additional factors for the entire campaign until the Axis surrender in May 1943 Until now it has been widely assumed that much of the Western Desert coastal plateau was a broadly level open region in which mobile armored operations were paramount However this work concentrates on the British operations to show they were driven by the need to capture and hold key features across each successive battlefield At the operational level planning was led by the need to hold key ground across Libya and especially the province of Cyrenaica during the crucial middle period of the campaign A secondary theme of the work argues that British forces began to improvise certain tactical doctrines which altered the early practice of combined arms assaults into one of the Infantry and Armored formations fighting largely separated battles until the autumn of 1942 Other developments in doctrine which were affected by the terrain included the practice of unit dispersal to hold key ground and the use of temporary units such as Jock columns to harass and engage the enemy The two themes are inter linked and contribute fresh insights to the debate on British methods of warfare The author has consulted key primary documents reports war diaries and published memoirs from major UK archives and compared these with the campaign historiography to develop the main themes of the work These include the National Archives the Churchill Archives Center the Liddell Hart Center for Military History the National Army Museum John Rylands Center Imperial War Museum at London and Duxford and London and the Tank Museum Archives at Bovington The sources include unit war diaries after action reports along with many of the key published and some unpublished memoirs His text is supported by 24 pages of specially commissioned color maps **Ghost Patrol** John Sadler, 2015-11-19 From the author of D Day an amazing tale of how the world s very first special force was created specifically for North Africa during

WWII Books Monthly The origins of most of the West's Special Forces can be traced back to the Long Range Desert Group which operated across the limitless expanses of the Libyan Desert an area the size of India during the whole of the Desert War from 1940 to 1943 After the defeat of the Axis in North Africa they adapted to serve in the Mediterranean the Greek islands Albania Yugoslavia and Greece In the process they became the stuff of legend The brainchild of Ralph Bagnold a prewar desert explorer featured in fictional terms in *The English Patient* the LRDG used specially adapted vehicles and recruited only men of the right temperament and high levels of fitness and endurance Their work was often dangerous always taxing exhausting and uncomfortable They were a new breed of soldier and the Axis never managed to field a similar unit Once the desert war was won they transferred their skills to the Mediterranean sector retraining as mountain guerrillas serving in the ill fated Dodecanese campaign then in strife torn Albania Yugoslavia and Greece fighting alongside the mercurial partisans In addition the LRDG worked alongside the fledgling SAS and established beyond all doubt the value of highly trained Special Forces a legacy which resonates today Genuinely gripping a tale of eccentrics and their high adventures during very dangerous times Classic Military Vehicle

The Italian Army In North Africa Walter S. Zapotoczny Jr., 2018-08-17 Previously unpublished analysis of why and how the Italians fought A look at the role the Italian Army played in North Africa as part of the Deutsches Afrika Korps German Afrika Korps In spite of poor leadership the Italian soldier performed well against all odds in North Africa Profusely illustrated with many rare and unpublished images The German soldier has impressed the world however the Italian Bersagliere soldier has impressed the German soldier Erwin Rommel aka The Desert Fox When most people think of the Italian Army in North Africa during the Second World War they tend to believe that the average Italian soldier offered little resistance to the Allies before surrendering Many suggest that the Italian Army performed in a cowardly manner during the war the reality is not so simple The question remains as to whether the Italians were cowards or victims of circumstance While the Italian soldier's commitment to the war was not as great as that of his German counterpart many Italians fought bravely The Italian Littorio and Ariete Divisions earned Allied admiration at Tobruk Gazala and El Alamein The Italian Army played a significant role as part of the German Afrika Korps and made up a large portion of the Axis combat power in North Africa during 1941 and 1942 In the interest of determining how the Italian Army earned the reputation that it did it is necessary to analyse why and how the Italians fought

South Africans versus Rommel David Brock Katz, 2017-11-15 After bitter debate South Africa a dominion of the British Empire at the time declared war on Germany five days after the invasion of Poland in September 1939 Thrust by the British into the campaign against Erwin Rommel's German Afrika Korps in North Africa the South Africans fought a see saw war of defeats followed by successes culminating in the Battle of El Alamein where South African soldiers made a significant contribution to halting the Desert Fox's advance into Egypt This is the story of an army committed somewhat reluctantly to a war it didn't fully support ill prepared for the battles it was tasked with fighting and sent into action on the orders of its senior alliance

succession of short campaigns blitzkrieg or lightning war Flexibility was as essential as the will to win Battle groups or shock
troops were created from miscellaneous and often disparate military units to undertake a specific local operation it was the
army s skill in combining superior numbers aggressive tactics and the battle group commander s ability to exploit the
changing situation on the ground which brought success on every battlefield The actions described here by James Lucas the
military historian known for his close studies of the German soldier cover all theatres of the war and include battle groups

demonstrate the autonomy given to a commander of relatively low rank and the use he made of his powers The battle groups
