Evolution Linda Gamlin, 2000 Text about and photography of experiments animals plants bones and fossils reveal the ideas and discoveries that have changed our understanding of the natural world and how life began Title page verso

Growing Up with Science Cavendish Square Publishing LLC, 2006 Volume fifteen of a seventeen volume alphabetically arranged encyclopedia contains approximately five hundred articles introducing key aspects of science and technology

Volcanoes and Earthquakes Susanna Van Rose, James Putnam, 2004 Photographs and text explain the causes and effects of volcanoes and earthquakes and examine specific occurrences throughout history

A Project Guide to Fish & Amphibians Carol Smalley, 2010-12-23 Believe it or not fish and amphibians have a lot in common with humans All have backbones and like humans some fish and amphibians produce live young With these fun and easy science experiments you can explore many more similarities and differences between fish amphibians and you What organs do we share and which ones are different Do we have the same type of vision How about the sense of touch Find out these answers and more including how fish move through water and what keeps them from sinking You can also help make life easier for some of these creatures by exploring their ecosystems and making a home for sensitive species Grab your science notebook and get ready to explore these fabulous creatures

The Gods' Machines Wun Chok Bong, 2008-05-27 Based on the author's decipherment of prehistoric carvings and the application of mathematical measurements The Gods Machines shows how unknown phenomena from Angkor Wat to Stonehenge to crop circles are actually powerhouses built by an advanced extraterrestrial civilization for tapping electromagnetic energy The book traces the development of that civilization on Earth over 5 000 years revealing how all these structures are aligned according to a universal formula an angle of 135 degrees at which Earth's energy has been tapped by the alien creators of these monuments These fascinating theories not only explain our distant past but also open the door to a future of power technology and space travel Megalithic sites such as Newgrange and Stonehenge are constructed with quartz and iron rich stones with electrical conduction properties minerals also found atop Aztec temple and inside crop circles These stones according to the author served as dry cell batteries when heated and stressed and supplied energy to the builders traveling vehicles Most interestingly the author has tested his theory on today's crop circles The Gods Machines is certain to stimulate debate among readers interested in alternative history ancient civilization and extraterrestrial intelligence
