Anita Price Davis, Jimmy S. Emerson

Evolution Of The Alabama Agroecosystem Always Keeping Up But Never Catching Up:

Evolution of the Alabama Agroecosystem Eddie Wayne Shell, 2013-01-01 Evolution of the Alabama Agroecosystem describes aspects of food and fiber production from prehistoric to modern times Using information and perspectives from both the hard sciences geology biology and the soft science sociology history economics politics it traces agriculture s evolution from its appearance in the Old World to its establishment in the New World It discusses how agricultural practices originating in Europe Asia and Africa determined the path agriculture followed as it developed in the Americas The book focuses on changes in US and Alabama agriculture since the early nineteenth century and the effects that increased government involvement have had on the country s agricultural development Material presented explains why agriculture in Alabama and much of the South remains only marginally competitive compared to many other states the role that limited agricultural competitiveness played in the slower rate of economic development in the South in general and how those limiting factors ensure that agricultural development in Alabama and the South will continue to keep up but never catch up

New Deal Art in Alabama Anita Price Davis, Jimmy S. Emerson, 2015-08-01 As the United States struggled to recover from the Great Depression 24 towns in Alabama would directly benefit from some of the 83 million allocated by the Federal Government for public art works under the New Deal In the words of Harold Lloyd Hopkins administrator of the Federal Emergency Relief Act artists had to eat too and these funds aided people who needed employment during this difficult period in American history This book examines some of the New Deal art murals reliefs sculptures frescoes and paintings of Alabama and offers biographical sketches of the artists who created them An appendix describes federal art programs and projects of the period 1933 1943

Unreconciled Arthur N. Dunning, 2021-06 How do well meaning people help a community move beyond its past when confronted by those who hold ingrained stereotypes profit from maintaining the status quo or are filled with antipathy toward others This book tells the story of how a Black university president tried to do just that when he led the first non court ordered merger of an historically Black university with an historically white two year college in Albany Georgia Arthur Art N Dunning came of age in the Black Belt of Alabama during the Jim Crow era Among many pivotal experiences he was part of a group of student athletes who helped to integrate Bear Bryant s University of Alabama football team in 1967 The values instilled in him by his family and those in his close knit community together with life experiences through education and from living working and traveling abroad over more than forty years as an educator shaped his approach to leading Albany State University an HBCU through its 2016 merger with all white Darton State College The community s reaction to the merger proved to be an extreme example of what our nation is experiencing today The perceived threat of embracing change while racially integrating two institutions brought out painful stereotypes racial orthodoxy tribalism suspicion and conspiracy theories It peeled away a veneer of racial harmony and exposed unhealthy patterns of behavior and entrenched beliefs held by community members of both races Dunning shares here the hard but

valuable leadership lessons learned when his race and his personal southern history intersected with a university and city that were abruptly forced to acknowledge their own history and were challenged to envision a different future Native Southerners Gregory D. Smithers, 2019-03-28 Long before the indigenous people of southeastern North America first encountered Europeans and Africans they established communities with clear social and political hierarchies and rich cultural traditions Award winning historian Gregory D Smithers brings this world to life in Native Southerners a sweeping narrative of American Indian history in the Southeast from the time before European colonialism to the Trail of Tears and beyond In the Native South as in much of North America storytelling is key to an understanding of origins and tradition and the stories of the indigenous people of the Southeast are central to Native Southerners Spanning territory reaching from modern day Louisiana and Arkansas to the Atlantic coast and from present day Tennessee and Kentucky through Florida this book gives voice to the lived history of such well known polities as the Cherokees Creeks Seminoles Chickasaws and Choctaws as well as smaller Native communities like the Nottoway Occaneechi Haliwa Saponi Catawba Biloxi Chitimacha Natchez Caddo and many others From the oral and cultural traditions of these Native peoples as well as the written archives of European colonists and their Native counterparts Smithers constructs a vibrant history of the societies cultures and peoples that made and remade the Native South in the centuries before the American Civil War What emerges is a complex picture of how Native Southerners understood themselves and their world a portrayal linking community and politics warfare and kinship migration adaptation and ecological stewardship and how this worldview shaped and was shaped by their experience both before and after the arrival of Europeans As nuanced in detail as it is sweeping in scope the narrative Smithers constructs is a testament to the storytelling and the living history that have informed the identities of Native Southerners to our day **The American Untouchables: America & the Racial Contract** Andre Smith, 2019-02-15 The issue of race is often a scab Americans choose to ignore However social science has a responsibility and an obligation to examine not simply the amenable subjects but also the controversial This work in a word is controversial Thomas Franks 2004 argued that cultural differences led white Kansans to abandon the Democratic Party for the Republican Party during the 1980s He specifically argued that abortion was the unifying issue in this ideological migration Simultaneously future President Ronald Reagan opened his campaign for the presidency in Philadelphia Mississippi the sight of the massacre of four young civil rights activists over a decade earlier Race has and is a factor in the American experience Franks premise is simply that the absence of the concentration of African Americans in the Kansas area negated the influence of the black threat hypothesis on the observed ideological switch of white Kansans This work argues that Franks premise fails to incorporate the over arching ideological switch of white voter migration to the Republican party that was occurring during the same period and that Reagan s speech in Philadelphia Mississippi was an overt cue that he was rejecting the civil rights consensus for an historically established race based social contract that positioned people of color outside the traditional

bounds of the social contract The study is a sociopolitical analysis of the African American experience utilizing the racial contract framework developed by Charles Mills The racial contract holds that the social contract explicitly dictates interactions and transaction costs between citizens and government Mills supposition is that historically non Western Europeans were excluded from the penalties for violations of the social contract and a tacit race based contract dictated transaction costs and interactions between Europeans and non Europeans The work utilizes the framework to trace the sociopolitical environment from the first appearance of Africans in America to the present It has the supposition that the initial sociopolitical status of Africans in America was as a result of the reformation of the Western feudal agrarian culture with African captives attached to the land as the neo serfs but that the reformation of feudalism was only possible within the context that Africans were implicitly viewed as outside the bounds of the codified social contract It traces American sociopolitical conflict over the expansion of the racial contract which was the basis of the American Civil War and the establishment of an implicit sociopolitical order within the bounds of the racial contract at the end of the Civil War with codified sanctions for violations of commensality and endogamy
