Contesting Spain? The Dynamics of Nationalist Movements in Catalonia and the Basque Country Richard Gillespie, Caroline Gray, 2015-06-26 Contesting Spain The Dynamics of Nationalist Movements in Catalonia and the Basque Country offers an exploration of the dynamics behind contemporary shifts in the orientation of nationalist parties and movements with reference to Catalonia and the Basque country in Spain The chapters were originally papers presented at a workshop held at the Barcelona Centre for International Affairs CIDOB in September 2014 as part of a research project on The Dynamics of Nationalist Evolution in Contemporary Spain whose purpose was to gain a better understanding of why regionally based nationalist movements have experienced shifting relationships with the Spanish state over time in some periods appearing content with accommodation between central and regional government and at other times pushing to go beyond autonomist demands to seek sovereignty or even attain full independence The volume is one of the first to focus comparatively on the rise of pro sovereignty politics in mainstream nationalist parties whose evolution has also featured more traditional impulses towards territorial accommodation within the wider state Using the exceptionally rich laboratory provided by Spain the book explores the dynamics behind shifts in the orientation of nationalist parties and movements once they have established themselves as electorally successful at regional level Dimensions to the analysis include the interaction of nationalist parties with central government pressures from their support bases competition between parties within the home region and international influences This title is innovative in bringing together experts with a range of disciplinary approaches primarily political scientists but also historians and scholars located at the cusp between social sciences and humanities

Rodríguez Uribe, 2013 **Relatos de plomo** Javier Marrodán, 2014 **Making Monuments from Mass Graves in Contemporary Spain** Daniel Palacios González, 2025-10-01 This book narrates how beginning in 1936 bodies buried in mass graves during the Spanish War and subsequent dictatorship were turned into monuments The book describes how the production of monuments evolved and what forms this process and these monuments took it examines how the monuments were incorporated into society and used to influence public opinion and it argues that this process was not simply based on the formal logic of tradition but instead reflected a conscious plan with a specific and rational end goal As such this book puts forward the idea that the monument as a material object became an expression of the historical consciousness of its producers relating how different actors communicated their memories into meaningful gestures while limited by the material reality of integrating the bodies into a novel artefact Finally it contends that the people creating these monuments did not just bury their dead according to a funerary tradition but also sought to influence society Yearbook of Comparative and General Literature , 2005 **Coyuntura** , 1996 **El Libro español** , 1983 Includes a separately paged section Repertorio bibliográfico clasificado por materias which also appears in Libros nuevos Información bibliográfica , 1985-06 Triunfo , 1980 Cambio 16 , 1994 **1982, el año clave** Eduardo Sotillos, 2002 *Host Bibliographic Record for Bound with Item Barcode 30112044669122 and Others* , 2013 *Libros españoles en venta, ISBN* , 1999 **Libros en venta en Hispanoamérica y España** , 1981 Libros españoles, ISBN. , 1980 **Libros españoles en venta** , 1999 **Basta Ya!** Aurelio Arteta, 2003 Terroristas y terrorismo Las víctimas Los movimientos cívicos La sociedad vasca El nacionalismo y la política Educación y cultura *Libros españoles* , 1979 Contrapunto , 1987
