Evidence Based Practice In Primary Care:

Evidence-Based Practice in Primary Care Christopher Silagy, Andrew Haines, 2001-08-08 Evidence Based Practice in Primary Health Care is split into two sections The first discusses how the individual can apply evidence based medicine in the clinical setting and the second covers the wider issue of changes in organisation and strategy to promote better and more effective delivery of care within a practice or primary care group Chapters are written by leading specialists in evidence based primary care from Australia the UK and mainland Europe

Introduction to Evidence-Based Practice in Nursing and Health Care Kathy Malloch, Tim Porter-O'Grady, 2010-03-09 The Second Edition of this best selling text has been completely revised and updated with new insights evidence and references throughout every chapter There are two new chapters Evidence Based Regulation and Evidence Based Leadership that expand on concepts and examine the framework of evidence based management

The Evidence-Based Primary Care Handbook Mark Gabbay, 2023-07-28 Here at last is a realistic and practical book that shows how evidence based practice can be successfully applied in a primary care setting The first section provides an introduction to the principles of evidence based health care as they apply to primary care and many other books on this subject stop right there However Section 3 practises what this first section preaches by applying these tools to 15 common clinical problems in primary care such as sore throat asthma urinary tract infections low back pain and heart failure In between Section 2 focuses on topics of particular relevance to planners and to Primary Care Groups PCGs and includes chapters on commissioning prescribing issues and health economics The authors are all familiar with primary care as clinicians and or researchers and understand the reality of practising evidence based medicine in primary care for example how to cope in the absence of best evidence or how to search for evidence when time is very limited GPs primary care nurses PCG managers practice managers community pharmacists and all other members of the primary health care team will find this book challenging informative and relevant
