Aging Priscilla Ebersole, 2005 Gerontological Nursing Healthy Aging provides thorough coverage of promoting healthy aging when caring for older adults. The intent throughout the book is to facilitate the healthiest adaptation possible for any older adult regardless of the situation and disease process. The majority of the book is devoted to discussing the significant problems that may occur and methods that nurses may use to make these problems more bearable to solve some and to help the elder find the best possible resolution towards healthy aging. Incorporates healthy aging strategies to maximize the healthiest behaviors of clients/patients with dementia and their caregivers. Disease processes are discussed in the context of healthy adaptation nursing support responsibilities to help the reader gain an understanding of their client's experience. Focus on health and wellness establishes a positive perspective to aging. Careful attention to age, cultural, and gender differences are integrated throughout to help the nurse understand these important considerations in caring for older adults. Each chapter provides a consistent organization including learning objectives, research study questions, activities, assessment guidelines, and are incorporated throughout as tables, boxes, and forms to provide useful tools for practice. Activities and discussion questions at the end of every chapter provide situations to expand student knowledge and understanding. Appendices and resource lists assist in further exploration of material. Text correlates with federal guidelines for Healthy People 2010 to assist the student in integrating knowledge about healthy aging considerations. Expanded content on pharmacologic and nonpharmacologic pain management in Chapter 15 and integrated within appropriate content sections. Completely revised Culture and Aging chapter includes discussions of health disparities and working with interpreters to help identify nursing care interventions appropriate for ethnic elders. New author team with Theris Touhy and Kathleen Jett adds a wealth of experience related to gerontological nursing education and research. Gerontology Nursing Case Studies Donna J. Bowles, 2011-02-24 Designated a Doody's Core Title. This is an excellent teaching guide and resource manual for instructors, gerontological nursing students, and practicing nurses and social workers who wish to learn more about geriatric concerns and care. It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers. As a home care nurse working mainly with the geriatric community, I found the resources helpful in my practice. As an instructor, I found the book to be a very useful guide for teaching geriatrics. Score 90 4 Stars Doody's Medical Reviews. Donna Bowles's Gerontology Nursing Case Studies is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students. Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice. The Gerontologist. The case narrative approach of this book promotes active learning that is more meaningful to students and practicing nurses and more likely to increase the transfer of evidence into practice. An excellent resource for faculty/staff educators to facilitate critical learning skills. Liz Capezuti PhD RN FAAN Dr John W Rowe Professor in Successful Aging Co Director Hartford Institute for Geriatric Nursing New York University College of Nursing.
