Ebook Proceedings International Symposium Intelligent Computing:

Intelligent Computing and Communication Techniques Arvind Dagur, Karan Singh, Pawan Singh Mehra, Dharendra Kumar Shukla, 2025-06-10 This book contains a prolific compilation of research papers presented at the International Conference on Intelligent Computing and Communication Techniques ICICCT 2024 Some of its key features include In depth coverage of artificial intelligence blockchain and their role in enhancing smart living and security with a focus on intelligent computing Depiction of detailed system models and architecture to illustrate the practical applications of AI Discussion on the role of AI and blockchain in banking healthcare navigation communication security etc Analysis of the challenges and opportunities presented by intelligent computing communication techniques and blockchain in healthcare education banking and related industries It is designed for academics researchers students and professionals seeking to expand their knowledge and engage with current research on artificial intelligence secure transactions real time monitoring and security *Handbook of Intelligent Computing and Optimization for Sustainable Development* Mukhdeep Singh Manshahia, Valeriy Kharchenko, Elias Munapo, J. Joshua Thomas, Pandian Vasant, 2022-03-15 HANDBOOK OF INTELLIGENT COMPUTING AND OPTIMIZATION FOR SUSTAINABLE DEVELOPMENT This book provides a comprehensive overview of the latest breakthroughs and recent progress in sustainable intelligent computing technologies applications and optimization techniques across various industries Optimization has received enormous attention along with the rapidly increasing use of communication technology and the development of user friendly software and artificial intelligence In almost all human activities there is a desire to deliver the highest possible results with the least amount of effort Moreover optimization is a very well known area with a vast number of applications from route finding problems to medical treatment construction finance accounting engineering and maintenance schedules in plants As far as optimization of real world problems is concerned understanding the nature of the problem and grouping it in a proper class may help the designer employ proper techniques which can solve the problem efficiently Many intelligent optimization techniques can find optimal solutions without the use of objective function and are less prone to local conditions The 41 chapters comprising the Handbook of Intelligent Computing and Optimization for Sustainable Development by subject specialists represent diverse disciplines such as mathematics and computer science electrical and electronics engineering neuroscience and cognitive sciences medicine and social sciences and provide the reader with an integrated understanding of the importance that intelligent computing has in the sustainable development of current societies It discusses the emerging research exploring the theoretical and practical aspects of successfully implementing new and innovative intelligent techniques in a variety of sectors including IoT manufacturing optimization and healthcare Audience It is a pivotal reference source for IT specialists industry professionals managers executives researchers scientists and engineers seeking current research in emerging perspectives in the field of artificial intelligence in the areas of Internet of Things renewable energy optimization and smart cities *Artificial Intelligence and Sustainable Innovation*

Arvind Dagur, Sohita Agarwal, Dhirendra Kumar Shukla, Shabir Ali, Sandhya Sharma, 2026-01-06 This book brings together researchers academicians industry professionals and policymakers to explore the transformative role of Artificial Intelligence AI in addressing global sustainability challenges With a distinct focus on the United Nations Sustainable Development Goals SDGs it serves as a rich repository of research on AI for energy efficiency climate change mitigation smart cities healthcare and education This title comprises a selection of papers that reflect an emphasis on interdisciplinary research and real world applications It covers a broad spectrum of topics including but not limited to Artificial Intelligence and Sustainable Innovation in green infrastructure industry manufacturing education policy banking navigation communication security and sustainable agriculture It also delves into real life applications of intelligent computing and communication techniques in congruence with SDG goals Researchers academicians research scholars persons in industry students entrepreneurs and technology enthusiasts will benefit from this book

Developing a Cybersecurity Immune System for Industry 4.0

Sergei Petrenko, 2022-09-01 Cyber immune systems try to mimic the adaptive immune system of humans and animals because of its capability to detect and fend off new unseen pathogens Today s current cyber security systems provide an effective defense mechanism against known cyber attacks but are not so good when it comes to defending against unknown attacks This book describes the possible development and organization of self healing computing based on cyber immunity techniques and aimed at working in the new realm of Industry 4 0 Industry 4 0 is the trend towards automation and data exchange in manufacturing technologies and processes which include cyber physical systems CPS the internet of things IoT industrial internet of things IIOT cloud computing cognitive computing and artificial intelligence The book describes the author s research and development of cyber immunity systems that will prevent the destruction of critical information infrastructure by future unknown cyber attacks and thus avoid the significant or catastrophic consequences of such attacks The book is designed for undergraduate and post graduate students for engineers in related fields as well as managers of corporate and state structures chief information officers CIO chief information security officers CISO architects and research engineers in the field of cybersecurity This book contains four chapters 1 Cyber Immunity Concept of the Industry 4 0 2 Mathematical Framework for Immune Protection of Industry 4 0 3 Trends and prospects of the development of Immune Protection of Industry 4 0 4 From detecting cyber attacks to self healing Industry 4 0

Internet of Things and Big Data Analytics for a Green Environment

Yousef Farhaoui, Bharat Bhushan, Nidhi Sindhwani, Rohit Anand, Agbotiname Lucky Imoize, Anshul Verma, 2024-11-27 This book studies the evolution of sustainable green smart cities and demonstrates solutions for green environmental issues using modern industrial IoT solutions It is a ready reference with guidelines and a conceptual framework for context aware product development and research in the IoT paradigm and Big Data Analytics for a Green Environment It brings together the most recent advances in IoT and Big Data in Green Environments emerging aspects of the IoT and Big Data for Green Cities explores key technologies and develops new applications in this research

field Key Features Discusses the framework for development and research in the IoT Paradigm and Big Data Analytics Highlights threats to the IoT architecture and Big Data Analytics for a Green Environment Present the I IoT architecture I IoT applications and their characteristics for a Green Environment Provides a systematic overview of the state of the art research efforts Introduces necessary components and knowledge to become a vital part of the IoT revolution for a Green Environment This book is for professionals and researchers interested in the emerging technology of sustainable development green cities and Green Environment *American Book Publishing Record* ,2007 *The British National Bibliography* Arthur James Wells,2009 *Proceedings of the International Symposium on Intelligent Computing and Networking 2025* Manuel Rodriguez Martinez,Kejie Lu,Feng Ye,Yi Qian,2025-12-19 Intelligent computing and networking are a rapidly growing area that has attracted significant attention due to its potential impact on the quality of service of applications for B5G 6G networks and the future Internet To enable intelligent computing and networking it is necessary to integrate technologies from the fields of communications networking computing artificial intelligence and numerous other fields The scope of the symposium International Symposium on Intelligent Computing and Networking 2025 ISICN 2025 covers all enabling technologies for intelligent computing and networking This book Proceedings of ISICN 2025 includes a huge variety of topics ranging from communications computing and networking to services and applications of artificial intelligence Intended readership includes engineers and researchers in artificial intelligence intelligent computing and networking areas Targeted primary market will be professors graduate students and senior undergraduate students as well as research engineers Targeted secondary market will be industry managers consultants and government research agencies in the related fields
