Environmental Values In American Culture:

Environmental Values in American Culture Willett Kempton, James S. Boster, Jennifer A. Hartley, 1995 How do Americans view environmental issues This study by a team of cognitive anthropologists reveals similarities in the way different groups of Americans view environmental change while also showing that Americans may have misunderstandings about these

Environmental Values In American Culture Willett Kempton, 1996-08-01 NULL **Environmental Values in American Popular-culture Narratives** Kelly Christine Ball-Stahl, 2005 **Religion and American Cultures** Gary Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of Religion and American Cultures Tradition Diversity and Popular Expression presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren't largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the none those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America's multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents **Environmentalism for a New Millennium** Leslie Paul Thiele, 1999 The vast majority of people in the industrialized world consider themselves environmentalists Yet environmental problems continue to worsen While the environmental movement is winning the battle for the hearts and minds of citizens in the United States and across the globe it may be losing the war to preserve the health of the planet and its biological diversity The reasons become clear in this book Leslie Paul Thiele provides a much needed analysis of the driving forces within the environmental movement and the key challenges that it faces He begins with a concise history of the movement in the United States where he identifies four successive waves of environmental thought and action The first wave conservation emerged in the mid 1800s and focused on the responsible use of natural resources and the preservation of isolated tracts of wilderness By the 1960s the general public had become aware of the widespread impact of environmental problems on human health and welfare A

concern for the containment of industrial society's environmental degradation emerged. This second wave was followed by a period of co-optation beginning in the 1980s as a now popular social movement made a significant impact on public policy and witnessed the dilution of its goals. Thiele largely focuses on the fourth and current wave of coevolution. Coevolutionary thought and action is grounded in the interdependence of humans and nature in a global context. With the goal of sustainable development in mind, contemporary environmentalists argue that human livelihoods must be integrated into complex and evolving ecological systems. This affirmation of coevolutionary interdependence has brought coherence to an inherently diverse social movement. Through extensive interviews and a critical study of environmental publications and scholarly research, the author provides an inside look at the environmental movement. His analysis illuminates the social, economic, political, and cultural forces that shape the environmental movement today and set its trajectory for the 21st century. Anyone interested in the future of environmentalism will find this book an invaluable guide.

The Grassroots of a Green Revolution Deborah Lynn Guber, 2003. An analysis of Americans' environmental concerns and their willingness to translate their beliefs into action.

The Earthscan Reader in Environmental Values Linda Kalof, Terre Satterfield, 2005. First Published in 2005. Routledge is an imprint of Taylor Francis, an informal company.

Values and Political Attitudes in America Patrick Justin Henry, 2001.

The Governance of Western Public Lands Martin A. Nie, 2008. Examines the conflict surrounding public land management, revealing how problematic language in public land laws, scarcity of resources, and mistrust cloud the debates and offering a range of solutions to help move beyond the dysfunctional status quo management.

Ecological Stewardship: Public expectations, values and law. Social and cultural dimensions. Economic dimensions. Information and data management William T. Sexton, 1999.

Ethics and Ethnicity in the Literature of the United States María Frías, Begoña Simal González, 2006. La tica se puede definir como la relación con el otro, la respuesta obligatoria a un otro que precede cualquier norma específica de conducta moral, una relación tica primordial que es la base de cualquier código tico o moral particular. Cuando ese otro se particulariza como el otro tico, como se ve afectada en su misma articulación esta concepción de la tica. Tiene la etnicidad como concepto un cariz tico. Hay una tica de la etnicidad. Por el contrario, la tica es tica. La matización tica de lo tico estrecha de algún modo el ámbito de actuación de lo tico. En una cultura tal como la de los Estados Unidos, fundada sobre una tica individualista de rango paradójicamente universalizante que se ve cuestionada constantemente por las propias constricciones impuestas a la singularidad tica de sus muchos otros, tales preguntas parecen especialmente pertinentes. Los ensayos de este volumen demuestran implícitamente que estas preguntas no tienen respuestas definitivas, puesto que se trata de tminos cuyo dominio conceptual se refiere a lo singular y lo diferente a las singularidades obstinadamente no generalizables del otro. La literatura diversa de los Estados Unidos nos proporciona el terreno textual ideal para esta conjunción de lo tico y lo tico. Como lo demuestra el panorama transhistórico de estos ensayos, esta contestación es intrínseca a la propia literatura, dada su explicitación de la otredad y a la vez su participación en

la domesticación de esa otredad La literatura de los Estados Unidos con sus históricamente determinadas demandas de pluralidad discursiva y sus generalizaciones totalizantes y trascendentales se convierte en un corpus donde sobresale la articulación de este doble movimiento La conjunción de lo tónico con lo tónico evita la cerrazón de la apertura tónica ya que un enfoque tónico cuestiona la tentación de la tónica hacia la abstracción mientras que el impulso tónico nos mantiene alerta frente a la constitución universalizante y estereotipada de las identidades tónicas **African American Environmental Thought**

Kimberly K. Smith, 2007 Examines the works of Frederick Douglass Booker T Washington W E B Du Bois and several other canonical figures to uncover a rich and vital tradition of black environmental thought from the abolition movement through the Harlem Renaissance Provides the first careful linkage of the early conservation movement to black history the first detailed description of black agrarianism and the first analysis of scientific racism as an environmental theory

Environmental Communication and the Public Sphere Robert Cox, 2006-01-13 this is an excellent introduction to an important topic Media International Australia Environmental Communication and the Public Sphere is the first comprehensive undergraduate textbook in the growing field of environmental communication It takes as its theme the role of communication in influencing the ways in which we perceive the environment as well as what actions we and others take in our relations to the natural world The text blends scholarship and hands on experiences to provide a theory based and coherent description of the concrete communication practices and sites in the debates over environment protection The level of presentation targets upper level undergraduate students in speech communication environmental studies English journalism political science and sociology Additional theory and vocabulary are introduced as are case studies and examples for closer examination of the principal sites and practices of environmental communication including forums for public participation advocacy campaigns media coverage of environmental stories risk communication and models of dispute settlement Key Features Provides a core text broad and theoretically coherent coverage that covers all of the basic areas of environmental communication Draws on the author's experiences as president of the largest U S environmental group Summarizes current scholarship in the area and makes accessible many of the practices of media corporations and advocacy groups that are not readily available in public sources Gives students insight into the practical ways to participate publicly in influencing the decisions of governmental agencies that affect the environment Offers a comprehensible treatment of the complexity and range of issues sites and practices in environmental communication Act Locally exercises provide opportunities for students to apply their knowledge of the principles of environmental communication on their campus or community Boston College Environmental Affairs Law Review Boston College. Law School, 1999 *Cases and Materials on Environmental Law* Daniel A. Farber, Jody Freeman, Ann E. Carlson, 2010 The Eighth Edition provides up to date treatment of climate change issues This classic casebook provides students with a thorough understanding of all major federal environmental regulatory schemes as well as insight into current policy controversies Particular attention is given to the

proper role of cost benefit analysis the appropriate judicial role in reviewing agency decisions and the impact of constitutional decisions relating to federalism standing and takings It also covers the latest Supreme Court cases on subjects from Superfund to water pollution as well as the major regulatory changes in the first year of the Obama Administration

Public Understanding of Science, 2000 A forum for the emerging interdisciplinary field of public understanding of science this journal encourages open debate of contrasting and even conflicting viewpoints on all aspects of the interrelationships between science and the public

Environmental Policy in the 1990s Norman J. Vig, Michael E. Kraft, 1997 This thought provoking collection of essays puts 25 years of environmental policy development in context by examining the current institutional framework for making policy and how it has emerged the role of environmentalism and public opinion in shaping policy the search for more efficient policy solutions and the impact of global environmental imperatives This edition covers the new heightened role of the states in making policy environmental justice and the greening of U S businesses among other topics The book also provides an in depth analysis of the 104th Congress on environmental policies and reviews the Clinton administration s environmental record and efforts to reform the Environmental Protection Agency

Environmental Concern Among Asian Americans in the Houston Area Michelle Lin, 2003

The Common Law and the Environment Roger E. Meiners, Andrew P. Morriss, 2000 Since 1970 when the Clean Air Act was passed and the Environmental Protection Agency was created the primary means for addressing environmental problems in the U S has been through comprehensive federal statutes and detailed regulations Evaluating almost three decades of experience with the Clean Air Act Superfund the Clean Water Act the Endangered Species Act and other major federal environmental statutes the contributors to this volume question the effectiveness and impact of the legal regime that created these regulations While most studies of environmental policy paint a picture of improvement through government initiatives these essays argue the contrary Pointing to Cleveland s burning river the death of Lake Erie smog in Los Angeles and Love Canal the contributors demonstrate that command and control regulation of the environment has not delivered the great improvements in environmental quality as promised The Common Law and the Environment offers principles for a new approach to protecting the environment and looks to evidence of the successes of alternative legal systems to address significant problems

The Cultural Creatives Paul H. Ray, Sherry Ruth Anderson, 2000 Are You a Cultural Creative Do you dislike all the emphasis in modern culture on success and making it on getting and spending on wealth and luxury goods Do you care deeply about the destruction of the environment and would pay higher taxes or prices to clean it up and to stop global warming Are you unhappy with both the left and the right in politics and want to find a new way that does not simply steer a middle course In this landmark book sociologist Paul H Ray and psychologist Sherry Ruth Anderson draw upon thirteen years of survey research studies on more than 100 000 Americans plus more than 100 focus groups and dozens of in depth interviews They reveal who the Cultural Creatives are and the fascinating story of their

emergence over the last generation using vivid examples and engaging personal stories to describe their distinctive values and lifestyles The Cultural Creatives care deeply about ecology and saving the planet about relationships peace and social justice about self actualization spirituality and self expression Surprisingly they are both inner directed and socially concerned they re activists volunteers and contributors to good causes more often than other Americans But because they ve been so invisible they are astonished to find out how many others share both their values and their way of life Once they realize their numbers their impact on America promises to be enormous shaping a new agenda for the twenty first century What makes the appearance of the Cultural Creatives especially timely is that our civilization is in the midst of an epochal change caught between globalization accelerating technologies and adeteriorating planetary ecology A creative minority can have enormous leverage to carry us into a new renaissance instead of a disastrous fall The book ends with a number of maps for the remarkable journey that our civilization is embarked upon initiations evolutionary models scenarios and the elements of a new mythos for our time The Cultural Creatives offers a more hopeful future and prepares us all for a transition to a new saner and wiser culture
