 Moneriù,Filippo Cavallo,2019-01-30 This book documents the state of the art in the field of ambient assisted living AAL  
 highlighting the impressive potential of novel methodologies and technologies to enhance well being and promote active  
 ageing It covers a broad range of topics with sections on technological sensors and platforms social robotics for assistance  
 assistance and care applications health and medical support methodologies and technologies as well as the analysis  
 modelling and design of AAL services The book comprises a selection of the best papers presented at the 8th Italian Forum  
 on Ambient Assisted Living ForitAAL 2017 which was held in Genoa Italy in June 2017 and brought together researchers  
 technology teams and professional associations as well as representatives of the Italian regions and advisors to the Italian  
 Ministry of Education University and Research with the goal of developing a consensus on how to improve provisions for the  
 elderly and impaired The respective contributions offer valuable insights into how the latest advances can help address the  
 needs of the elderly and those with chronic health conditions They also underscore the need for AAL to continue moving  
 toward multidisciplinary integration so as to embrace the various disciplines that place the user of services at the centre of
