Epigrams Volume II S 6 10 Loeb Classical Library:

Imitation and Contamination of the Classics in the Comedies of Ben Jonson Tom Harrison, 2022-10-12 This book focuses on the influence of classical authors on Ben Jonson's dramaturgy with particular emphasis on the Greek and Roman playwrights and satirists. It illuminates the interdependence of the aspects of Jonson's creative personality by considering how classical performance elements including the Aristophanic Great Idea chorus Terentian Plautine performative strategies and performative elements from literary satire manifest themselves in the structuring and staging of his plays. This fascinating exploration contributes to the performative turn in early modern studies by reframing Jonson's classicism as essential to his dramaturgy as well as his erudition. The book is also a case study for how the early modern education system's emphasis on imitative contaminative practices prepared its students many of whom became professional playwrights for writing for a theatre that had a similar emphasis on recycling and recombining performative tropes and structures.

Scandalogy 4 André Haller, Hendrik Michael, 2023-12-31 This volume examines the growing presence of populism, partisanship and polarization and analyzes what this means for scandalization processes. While politics appears to have entered a mode of perpetual crisis and growing dysfunctionality, the rapid succession of scandals may be a symptom of this crisis and its catalyst at the same time. The book provides a better definition of political scandals and discusses from an interdisciplinary and critical scientific perspective how such scandals are relevant to political developments and how they impact public discourse and media practices. International experts from various subfields of communication studies, political communication research as well as related disciplines contribute to the volume with conceptual, empirical and methodological approaches which reflect on political scandals and the role of media and/or communication. Presenting a unique perspective and providing a first in-depth insight into the relationship between polarization, partisanship, populist communication and scandalization, the book will appeal to students, researchers and scholars from different disciplines as well as practitioners and policy makers interested in a better understanding of political scandals, their impact on public discourse and political developments and their catalyzation through media and communication. *The Bookseller*, 1920 **The Roman Gladius**

and the Ancient Fighting Techniques Fabrizio Casprini, Marco Saliola, 2023-01-06 The backbone of the Roman army was the infantry armed with a javelin or pilum and sword or gladius. This study investigates not just the weapon itself and its design and manufacture but how the sword was originally conceived and how it was employed on the battlefield as an expression of the Roman state. The authors start examining the early swords employed across the Italian Peninsula during the Bronze Age and how these evolved into the gladius which itself changed in the period of Monarchy with the introduction of the cross hilt. During Rome's Consular period the gladius changed again and over time both the length of the blade and its width were altered. Relying exclusively on historical and archaeological evidence, *The Roman Gladius and the Ancient Fighting Techniques* shows how the Roman army developed into a highly disciplined body and how fundamental the gladius

was to its method of fighting It also shows how the combat techniques of the Romans evolved as did those of their enemies The training methods and tactics of the Roman infantry are fully explored and its performance at some of the great battles of the monarchical and consular periods are examined as the area under Roman rule fluctuated with victory or defeat For the Roman people the gladius was the object that better than any other showed their identity since it was a weapon that accompanied the history of the Roman people from its earliest days changing in shape and design as it was adapted to the varying social political and military needs The Roman Gladius and the Ancient Fighting Techniques is the most comprehensive study of this hugely important weapon which also provides the reader with a complete overview of Roman society which in this first volume is treated until the end of the Consular period The book is richly illustrated throughout with drawings and photographs of original weapons and equipment *Literary Communication as Dialogue* Roger D.

Sell,2020-11-15 As traced by Roger D Sell literary communication is a process of community making As long as literary authors and those responding to them respect each other s human autonomy literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit This gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences These heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity s well intentioned but restrictive politics of identity In post postmodern times their ethos is increasingly one of pleasurable egalitarianism The despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated Some of the papers selected for this volume develop Sell s ideas in mainly theoretical terms But most of them offer detailed criticism of particular anglophone writers ranging from Shakespeare Ben Jonson and other poets and dramatists of the early modern period through Wordsworth and Coleridge to Dickens Pinter and Rushdie Renaissance Man Tommi Alho,Jason Finch,Roger D. Sell,2019-11-15 Here friends of Anthony W Johnson honour him as a re embodiment of the polymathic artist scholar figure once observable in Ben Jonson on whom he has done some of his most distinctive work Part I of the book reflects his strong grounding in English literature and culture of the seventeenth century with essays not only on Ben Jonson but also on university drama on grammar school drama and on humanist literary taste Part II responds to his pioneering flights of culture imagological time travel to other periods with essays on riddles through the ages on Matthew Arnold s doubts about Homeric pictorialism and on anciently comic elements in George Gissing s urban fiction Part III celebrates his importance both as scholar and artist for the present day with essays extending imagological analysis to the singer Nick Drake to the avant garde Danish poet Morten S kilde and to Sean S Baker s film Tangerine plus a climactic celebration of Johnson s own performances on solo violin and guitar as augmented by self recording **Birds in Roman Life and Myth** Ashleigh Green,2023-03-03 This book explores the place of birds in Roman myth and everyday life focusing primarily on the transitional period of 100 BCE to 100 CE within the Italian peninsula A

diverse range of topics is considered in order to build a broad overview of the subject Beginning with an appraisal of omens augury and auspices including the sacred chickens consulted by generals before battle it goes on to examine how Romans farmed birds hunted them and kept them as pets It demonstrates how the ownership and consumption of birds were used to communicate status and prestige and how bird consumption mirrored wider economic and social trends Each topic adopts an interdisciplinary approach considering literary evidence alongside art material culture zooarchaeology and modern ornithological knowledge The inclusion of zooarchaeology adds another dimension to the work and highlights the value of using animals and faunal remains to interpret the past Studying the Roman view of birds offers great insight into how they conceived of their relationship with the gods and how they stratified and organised their society This book is a valuable resource for bird lovers and researchers alike particularly those studying animals in the ancient world The Classical Journal ,1922 **The Greek Anthology: Book X, The hortatory and admonitory epigrams ; Book XI, The convivial and satirical epigrams ; Book XII, Strato's Musa puerilis** ,1918 The Classical World ,1913 *B.H.
