The EH-TW9000 & EH-TW9000W have been specifically designed for the ultimate film enthusiast who wants to experience the magic of cinema in their own home. These top-of-the-range Full HD 3D home cinema projectors feature high definition cinematic images, bright 3D projections and flexible installation for comfortable, immersive viewing.

Delivering a high 200,000:1 contrast ratio and enhanced by Epson's newly developed 3LCD panels, they provide high quality images and rich, deep blacks for a wide variety of content. Frame interpolation creates a smoother, more fluid screen movement.

Users can easily switch to 3D content which is brighter than many Full HD 3D home cinema projectors\* thanks to Epson's unique crosstalk reduction technology. A simple press of a button will transport them into an immersive three dimensional experience by converting 2D high definition films and video games into 3D.

The projectors are quick and easy to set up, with wide lens shift, powerful zoom lens, and automatic vertical keystone correction, meaning users can set-up the projectors in a variety of positions without compromising on projection quality.

The EH-TW9000W is also one of the first home projectors with wireless Full HD 3D technology<sup>2</sup>. Users can wirelessly operate their wireless Blu-ray players and laptops to experience their favourite content on a large cinematic scale. If required, users can attach their non-wireless devices to a transmitter via an HDMI cable to enjoy their chosen content without permanent installation or unsightly cables lying around the home.
