Digital Project Practice for Banking and FinTech Tobias Endress,2024-03-13 New technology and changes in the regulatory framework have had a significant impact various new players have emerged and new business models have evolved API based ecosystems have become the new normal and collaboration in the financial and banking industry has reached new levels Digital Project Practice for Banking and FinTech focuses on technology changes in the financial industry and their implications for business practice A combination of practical experience in the field as well as academic research the book explores a wide range of topics in the multifaceted landscape of FinTech It examines the industry s various dimensions implications and potential based on academic research and practice From project management in the digital era to the regulation and supervision of FinTech companies the book delves into distinct aspects of this dynamic field offering valuable insights and practical knowledge It provides an in depth overview of various unfolding developments and how to deal with and benefit from them The book begins by exploring the unique challenges and opportunities project management

presents in the digital era It examines the evolving role of project management and provides strategies for effectively navigating the complexities of digital transformation initiatives The book then covers such topics as Financial Technology Canvas a powerful tool for facilitating effective communication within fintech teams Process automation implementation in the financial sector and related benefits challenges and best practices to drive operational efficiency and enhance customer experiences Robotic process automation in financial institutions Cyptoeconomics and its potential implications for the diffusion of payment technologies The efficiency and risk factors associated with digital disruption in the banking sector At its core this book is about real world practice in the digital banking industry It is a source of different perspectives and diverse experiences from the global financial and banking industry

History and Theory of Compromise Jan-Hendryk de Boer, Manon Westphal, Julia Mariko Jacoby, Karsten Mause, Stefan Zeppenfeld, 2025-11-17 Interest in compromise has recently grown both in public and scholarly debates However there is a lack of interdisciplinary dialogue on the topic This volume fills this gap by bringing together contributions from various relevant disciplines They show that compromise has been a central technique to regulate social and political conflicts in different contexts In a compromise the conflicting parties create an agreement by making mutual concessions but do not give up their original claims Therein lies the capacity of compromise to prevent or end escalated conflicts even in situations in which disagreements cannot be transformed into a consensus In addition to theoretical investigations of the concept the volume includes case studies on Europe in the Middle Ages in the 19th and 20th centuries and on pre modern and contemporary Japan The overarching question is about the preconditions of compromises The authors examine the role of compromise in diplomacy politics trade economics and everyday life Together they generate a comprehensive picture of the capacities and limitations of compromise in the past and today
