Mutual Enrichment between Psychology and Theology Russell Re Manning, 2020-11-29 The relationship between psychology and Christian theology has been one of the most important topics in the science and religion fields. Discussions, however, are too frequently one-sided. This book takes an alternative approach following the lead of Fraser Watts; the contributions develop various aspects of the mutual enrichment of each discipline by the other. Moving beyond outdated models of conflict and independence, this book highlights areas of fruitful enhancement at the interface of Christian belief and practice with psychology. Set out in four sections, the book's chapters first engage methodological and substantive issues in the interdisciplinarity raised by the dialogue between psychology and theology. Second chapters explore a variety of areas in which psychology enriches theology, looking at both historical and contemporary themes such as psychoanalysis, embodiment, and mindfulness. Chapters in the third section explore some of the theological enrichments of psychology with topics including character, strengths, wisdom, and forgiveness. The final section engages aspects of mutual enrichment in religious life and pastoral care with an applied focus on mental health, meditation, prayer, spiritual direction, and spirituality. A refreshing alternative study of the mutual enrichment of psychology and theology with theoretical and practical applications, this book reinforces the need for both disciplines to pursue creative and constructive engagement with each other. Of interest to scholars in psychology, theology, and religious studies, this book will also be of interest more widely as a case study of successful interdisciplinary work.

Smart Legal Contracts Jason Grant Allen, Peter Hunn, 2022 A landmark investigation into one of the most important trends at the interface of law and technology: the effort to harness emerging digital technologies to change the way that parties form and perform contracts.

Suspects' Rights in India Prejal Shah, 2021-09-30 This book examines the procedural, cultural, and institutional framework of custodial interrogation in India. It explores theoretical and practical perspectives on custodial interrogation practices in India, which have been in urgent need for reform, and critiques the systemic failure on the part of the police in India to implement suspects' rights uniformly. This volume analyses the Indian framework of custodial interrogation to identify its fundamental flaws and emphasises on the need for having a lawyer present during custodial interrogation. Demonstrates significant evidence on state of suspects' rights in India through comparative law methodologies with a focus on common law scholarship and jurisprudence, more particularly England and Wales, and supplemented by vital empirical research through key interviews with related institutional parties. Discusses emerging seminal jurisprudence of the European Court of Human Rights on applications of the right to fair trial at the custodial interrogation stage, especially shedding light on modern applications of the right to legal assistance in England and Wales and radical Strasbourg-inspired reforms in other European jurisdictions. Highlights the right to legal assistance as one of the viable solutions to break the culture of police lawlessness at this critical stage of the criminal process. An invigorating study, this book is aimed at enriching data and hypothesis for academics, policy makers, civil society.
