Motorcycles Workshop Manual 125-150 Twins 1959-1966 Floyd Clymer,Velocepress,2009-06-01 A faithful reproduction of the
1967 Floyd Clymer publication of the official Honda Factory Workshop Manual for the 125 150 series C92 CS92 CB92 C95
and CA95 There are exhaustive tables of technical data tolerances and fits and all of the expected data from a factory
publication for the repair and overhaul of all major and minor mechanical and electrical components making it an invaluable
resource for collectors and restorers of these classic Honda motorcycles There are 228 illustrations and each procedure is
explained in a step by step method using an appropriate illustration The translation from Japanese to English is at times a
little quirky but the profuse illustrations make up for any difficulty in understanding what needs to be done There are
separate sections that deal with the repair and overhaul procedures for the engine transmission wheels and brakes front
forks frame and carburetor plus a detailed electrical service section This is a must have reference for any Honda enthusiast
and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of
these classic motorcycles Out of print and unavailable for many years this book is highly sought after on the secondary
market and we are pleased to be able to offer this reproduction as a service to all Honda enthusiasts worldwide
