## Doctor Whats Wrong Making The Nhs Human Again:

Doctor, What's Wrong? Sophie Petit-Zeman, 2005 In this book the author explores and simplifies the issues from both sides of the NHS professionals and patients improving mutual understanding of the problems and opening up the debate about the future of health care provision

From General Practice to Primary Care Steve Iliffe, 2008-02-14 Anxiety about medicine becoming impersonal and mechanised permeates the NHS In addition the popular media is full of stories about the health service and its unhappy staff focusing on the belief that professionals and patients are being turned into assembly line workers and objects This is particularly prevalent in general practice as plans for massive polyclinics are revealed and payment systems shift seemingly inexorably towards incentives and targets The ethos of family medicine which places so much stress on continuity of care psychosocial understanding of illness and the careful management of doubt is challenged by guidelines governance quality frameworks and patient satisfaction surveys General practice is being industrialized into primary care or so it can seem This book explores the many dimensions of industrialization as it has occurred to others in the past and analyses the origins of the current wave of reform in general practice It analyses why industrialization is being pursued as a government strategy and explores its benefits and dangers It concludes that the medical profession has reasons for being perturbed by industrialization but that it has advantages as well as disadvantages for the NHS and the public Its conclusions may not please either policy makers or practitioners but they offer ways for professionals working in the community to customise current changes in potentially beneficial ways

Testing Treatments Imogen Evans, Hazel Thornton, Iain Chalmers, Paul Glasziou, 2011 This work provides a thought provoking account of how medical treatments can be tested with unbiased or fair trials and explains how patients can work with doctors to achieve this vital goal It spans the gamut of therapy from mastectomy to thalidomide and explores a vast range of case studies

Journal of the Royal Society of Medicine Royal Society of Medicine (Great Britain), 2006 Includes selected papers from meetings of the Society and of its sections

Bringing User Experience to Healthcare Improvement Paul Bate, Glenn Robert, 2007 Offering recommendations for the future and discussion points this book explores the underlying concepts methods and practices for experience based design applying a user focused approach to healthcare systems
