evolution of peripheral ethnic homelands around the North Atlantic from before transoceanic contact to their current
standing in the world political system For example Megumaage homeland of the Micmac is transformed into the French
colony of Acadia then into the British colony of Nova Scotia and subsequently into the present Canadian province Centrally
Professor Chavez tracks the role of colonialism in the transformation of such lands but especially the part played by
federalism in moving beyond the ethnic and racial conflicts resulting from imperialism Significantly Chavez gives attention to

the effects of these processes on the individual mind arguing that historically federalism has permitted the individual to sustain and balance varying ethnic loyalties regionally nationally and globally Beyond Nations concludes with a discussion of an evolving global imagination that takes into account migrations borderlands and transnational communities in an increasingly postcolonial and postnational world
