The Making and Remaking of Australasia Tony Ballantyne, 2022-11-03 This book explores the emergence of Australasia as a way of thinking about the culture and geography of this region Although it is frequently understood to apply only to Australia and New Zealand the concept has a longer and more complicated history Australasia emerged in the mid 18th century in both French and British writing as European empires extended their reach into Asia and the Pacific and initially held strong links to the Asian continent The book shows that interpretations and understandings of Australasia shifted away from Asia in light of British imperial interests in the 19th century and the concept was adapted by varying political agendas and cultural visions in order to reach into the Pacific or towards Antarctica The Making and Remaking of Australasia offers a number of rich case studies which highlight how the idea itself was adapted and moulded by

people and texts both in the southern hemisphere and the imperial metropole where a range of competing actors articulated divergent visions of this part of the British Empire An important contribution to the cultural history of the British Empire Australia New Zealand and Pacific Studies this collection shows how Australasia has had multiple often contrasting meanings

Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya Donna J. Amoroso,2014

Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya In this original and perceptive study Donna J Amoroso argues that the Malay elites preeminent position after the Second World War had much to do with how British colonialism reshaped old idioms and rituals helping to re invent a tradition In doing so she illuminates the ways that traditionalism reordered the Malay political world the nature of the state and the political economy of leadership In the postwar era traditionalism began to play a new role it became a weapon which the Malay aristocracy employed to resist British plans for a Malayan Union and to neutralise the challenge coming from groups representing a more radical democratic perspective and even hijacking their themes Leading this conservative struggle was Dato Onn bin Jaafar who not only successfully helped shape Malay opposition to the Malayan Union but was also instrumental in the creation of the United Malays National Organisation UMNO that eventually came to personify an acceptable Malay nationalism Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya is an important contribution to the history of colonial Malaya and more generally to the history of ideas in late colonial societies Book jacket A Weed Is a Flower Aliko,1988-04-15
