Volume 9: Kierkegaard and Existentialism Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement [A Companion to Phenomenology and Existentialism](#)

Cross-Cultural Existentialism Leah Kalmanson, 2020-09-17 Engaging in existential discourse beyond the European tradition this book turns to Asian philosophies to reassess vital questions of life's purpose

death's imminence and our capacity for living meaningfully in conditions of uncertainty Inspired by the dilemmas of European existentialism this cross cultural study seeks concrete techniques for existential practice via the philosophies of East Asia The investigation begins with the provocative writings of twentieth century Korean Buddhist nun Kim Iryop who asserts that meditative concentration conducts a potent energy outward throughout the entire karmic network enabling the radical transformation of our shared existential conditions Understanding her claim requires a look at East Asian sources more broadly Considering practices as diverse as Buddhist merit making ceremonies Confucian Ruist methods for self cultivation the ritual memorization and recitation of texts and Yijing divination the book concludes by advocating a speculative turn This speculative existentialism counters the suspicion toward metaphysics characteristic of twentieth century European existential thought and at the same time advances a program for action It is not a how to guide for living but rather a philosophical methodology that takes seriously the power of mental cultivation to transform the meaning of the life that we share

The Tenets of Cognitive Existentialism Dimitri Ginev, 2011-09-20 In *The Tenets of Cognitive Existentialism* Dimitri Ginev draws on developments in hermeneutic phenomenology and other programs in hermeneutic philosophy to inform an interpretative approach to scientific practices At

stake is the question of whether it is possible to integrate forms of reflection upon the ontological difference in the cognitive structure of scientific research. A positive answer would have implied a proof that pace Heidegger science is able to think. This book is an extended version of such a proof. Against those who claim that modern science is doomed to be exclusively committed to the nexus of objectivism and instrumental rationality, the interpretative theory of scientific practices reveals science's potentiality of hermeneutic self-reflection. Scientific research that takes into consideration the ontological difference has resources to enter into a dialogue with Nature. Ginev offers a critique of postmodern tendencies in the philosophy of science and sets out arguments for a feminist hermeneutics of scientific research. **Existential Theology**

Hue Woodson, 2020-09-29. **Existential Theology: An Introduction** offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism, Christian humanism, and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard. To do this, *Existential Theology* attends to the field through the exploration of genres, the European traditions in French, Russian, and German schools of thought, counter traditions in liberation, feminist, and womanist approaches, and postmodern traditions located in anthropological, political, and ethical approaches. While the cultural contexts inform how each of the selected philosopher-theologians present genres of existential theology, other unique genres are examined in theoretical and philosophical contexts, particularly through a selected set of theologians, philosophers, thinkers, and theorists that are not generally categorized theologically. By assessing existential theology through how it manifests itself in genres, this book brings together lesser-known figures, well-known thinkers, and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms. **The Broken Icon: Intuitive Existentialism in Classical Russian Fiction** Geoffrey Clive, 1972. Examines the thematic development of absurdity, despair, and man's quest for meaning in Russian literature. **Marxism and Existentialism** V. Walter Odajnyk, 1965.

Tomorrow, 1948. **Crucial Issues in Education** Henry J. Ehlers, 1973. This is the fifth edition of a series of anthologies which since 1955 have tried to report the pros and cons on major issues in contemporary education. It is not the function of this anthology to provide clear-cut answers to any of the problems raised or to decide the right side or the wrong side of a disputed area. Rather, each chapter presents claims and counterclaims, assertions and denials, proofs and disproofs, conflicting values, and rival hypotheses. Each chapter may be viewed as a dialogue among some of the outstanding minds of our time. To gain the most from this anthology, the reader should strive not merely to understand the opposing points of view but also to clarify his own attitudes and beliefs. The book demands that you exercise your critical faculties and you are

encouraged to exercise them on the anthology itself Preface **The Hibbert Journal** ,1966 *Religious Issues and Interreligious Dialogues* Charles Wei-hsun Fu, Gerhard E.
