Media/Society David Croteau, William Hoynes, Stefania Milan, 2011-05-24 In a society saturated by mass media from newspapers and magazines television and radio to digital video projects and the Internet iPods and TiVo most students possess a great deal of media knowledge and experience before they ever enter the classroom What they often lack however is a broader framework for understanding the relationship between media and society Media Society Industries Images and Audiences provides that context and helps students develop skills for critically evaluating both conventional wisdom and one's own assumptions about the social role of the media Previous editions of Media Society introduced thousands of students to a sociologically informed analysis of the media process The Fourth Edition builds on this success with new material on students as producers e.g. YouTube revised Internet resources the latest data on the media industry new examples from the independent media sector and updated discussions of media policy online media and independent media Media Society is unique among media texts in that it offers e.g. A sociological approach that examines overarching relationships between the various components of the media process the industry its products audiences technology and the broader social world e.g. An

integrated study of mass media that looks at media technologies collective influences and connections between mass media issues that are often treated as separate e An examination of how economic and political constraints affect the media and how audiences actively construct their own interpretations of media messages Other Worlds John R. Heapes, MA, MSW, 2014-02 Who hasn't asked What happens to me after I die and or Are we alone in the universe Other Worlds UFOs Aliens and the Afterlife takes readers on a journey into other galaxies and into a different time a time after all of their tomorrows How are the societies organized on other planets and in the afterlife This book answers this question with a new approach in the UFO and the Near Death Experience fields As readers take this trip they will wonder if there are universal laws governing the societies of intelligent beings regardless of where they reside in existence Are humans projecting into foreign forms their own beliefs about how societies should be arranged on Earth Why study such ethereal and controversial material We always learn about ourselves when we study those who are different from us whether those beings are real or not Anyone who has read a good book of fiction knows the validity of this point Consider how many teenagers identify with the characters in the Hunger Games books What follows is the sociological perspective We will explore institutions such as marriage and the family social classes and culture We will determine the sex of alien travelers as well as the occupations of their human witnesses We will learn what the afterlife looks like and discover what messages deceased beings deliver to humans
