The Proceedings of the 20th International Conference of the System Dynamics Society System Dynamics Society. International Conference, 2002      Computer-Based Management of Complex Systems Peter M. Milling, Erich O.K. Zahn, 2012-12-06 Especially during the last decade the systems approach gained wide spread attention and increased influence in the world of academics and business The holistic view of how individual elements interact with each other to form an entity not a collection of isolated parts becomes more and more important Whether it is called integration as in Computer Integrated Manufacturing organism in ecological studies or network like the communication network it is the system's idea which opens new dimensions for insights applications and development System Dynamics or Industrial Dynamics as it was called during its early years by its founder and mentor MIT's now Professor Emeritus Jay W Forrester pioneered the use of system concepts and computer simulation for the analysis of complex problems in business and management It was applied to study the dynamics of corporations cities national economies and finally the global problems of man and in his limited and fragile environment The field has reached a stage of self sustained development and momentum A few years ago the System Dynamics Society was founded a high quality academic journal is now published in its fifth volume and the annual International Conferences of the Society were institutionalized and took place in America Europe and Asia The organization of international meetings for this scientific community however is older than the System Dynamics Society itself The first conventions were held as special sections of conferences devoted to simulation or cybernetics
