**Executive Intelligence Review; Volume 41, Issue 48** Lyndon LaRouche, 2014-12-05 From the Editors The international system as it has been heretofore is dying and there are only two alternatives general thermonuclear war or a kind of unity among nations which we see coming out of the BRICS and similar kinds of fora stated Lyndon LaRouche on Nov 29 This issue of EIR provides ample evidence of the promise which the momentum around the BRICS dynamic represents as well as the unmistakable evidence that the NATO nations are going for war Our Feature comes from EIR s just released Special Report The New Silk Road Becomes the World Land Bridge and provides an overview of the Chinese Silk Road strategy that is now reaching around the globe President Xi Jinping s recent speech defining China s foreign policy around that very concept provides a timely update We have three articles in International which provide exciting evidence of how this Chinese and BRICS strategy is sparking optimism for similar projects elsewhere First there s Africa where the Lake Chad Basin Commission has begun to consider the great Transaqua water transfer program Our correspondents were on the scene participants in this development Second we feature recent developments in Mexico where the government has begun to take steps to orient toward the BRICS bringing itself into the British line of fire Again you will learn about the LaRouche movement s intervention in this battle Third we present a report from Australia a nation still under the Queen of England on how the BRICS developments are evoking a promising shift Our Science section also deals with the BRICS nations India China and Russia in terms of their scientific pioneering in space as shown at the recent International Astronautical Conference On the war side we have two reports one from Helga Zepp LaRouche on the global chicken game being played by NATO and the other by Counterintelligence Editor Jeffrey Steinberg who gives you the real story behind the removal of Defense Secretary Chuck Hagel National Our Editorial is a call to action from the Schiller Institute which we endorse and urge you to do as well

*Executive Intelligence Review; Volume 41, Issue 42* Lyndon LaRouche, 2014-10-24 From the Editors Mankind lost a golden opportunity back in 1974 76 when faced with the stark choice between the murderous epidemic causing policy of the IMF and the New World Economic Order being proposed by Lyndon LaRouche and a host of leaders from the developing sector the world s leading governments stuck with the IMF From that time forward the world economy has been a ticking time bomb coming closer and closer to an explosion of pestilence famine and war This issue of EIR presents an in depth picture of that choice from the perspective of the threshold of choice where we stand today First in our Feature we report on the current Ebola crisis from the standpoint which Lyndon LaRouche forecast back in 1974 75 that the continuation of IMF policies in Africa and other areas of what was then called the Fourth World would lead to a global

pandemic crisis threatening civilization and the survival of man himself We review our impeccable record on this subject and the policy proposals which LaRouche and his wife Helga Zepp LaRouche made over a decade ago The conclusion should be obvious People had better listen to LaRouche this time and start to adopt the right policies starting with tossing Obama out of office Second we provide an in depth picture of the fight by LaRouche and his movement for the alternative to the IMF death policy the new world economic order The LaRouche Record Our review will likely surprise you as you learn of the four decades of intellectual interventions by LaRouche with world leaders It should also encourage you as it should lead you to appreciate more fully the long term impact of ideas on the processes of history Today s BRICS process in fact cannot be competently understood without understanding this 40 year battle by the LaRouches and their political movement for a new economic system of which we can only present a reflection here See our archive for much more The third major element of this edition of EIR is little more than a promissory note in the form of a news report on the latest international Schiller Institute conference on A New Paradigm for Mankind held in Frankfurt Germany Oct 18 19 International We will be publishing many of the speeches from that event starting with our next issue     **Executive Intelligence Review; Volume 41, Issue 49** Lyndon LaRouche, 2014-12-12 From the Editors Helga Zepp LaRouche took the LaRouche movement s campaign for the BRICS new paradigm to Washington D C last week shocking her audience of diplomats policymakers and citizens with her presentation of what the BRICS nations have put on the table in terms of development projects which will transform the Earth Feature The United States must join this process or else the already ongoing war dynamic will bring global catastrophe This issue of EIR includes Zepp LaRouche s entire presentation which should whet your appetite for the full New Silk Road Special Report which she was promoting Our other departments highlight the impending disaster if the U S does not dump the warmongers and join the BRICS In International we feature the NATO Merkel offensive against Russia which the Russians have now publicly identified as a drive for regime change President Putin s address to the Federal Assembly is vital reading and we excerpt it at some length as is the recent initiative by members of the German elite who have come out to say War in Europe Not in Our Name Lyndon LaRouche explained how to jam up this war drive in LaRouchePAC s Dec 5 webcast Kick neo con State Department official Victoria Nuland out of office We present his urgent message and the latest developments in Congress on the war question Mankind faces not only a war of extinction but the horrors of pandemic disease should the current paradigm persist The Ebola epidemic still represents such a threat as Debra Freeman updates the picture in this issue Economics The latest developments in the accelerating BRICS process are featured in our coverage of South African President Zuma s trip to China Of relevance for further progress are our interview with Bereket Simon an advisor to Ethiopian Prime Minister Desalegn and the latest Schiller Institute conferences on the BRICS New Paradigm held in Chicago and Boston last weekend We urge you not to miss another significant feature of this issue our obituary for the recently deceased Russian economist Stanislav Menshikov Stanislav Menshikov was one of the most

energetic colorful and knowledgeable participants in Soviet American relations during the height of the Cold War and in Russian American relations thereafter and he was also a close friend and interlocutor with Lyndon and Helga LaRouche over 15 years His personal history provides a unique glimpse into U S Russian relations over several decades *Executive Intelligence Review; Volume 41, Issue 44* Lyndon LaRouche,2014-11-07 From the Editors As most Americans know the just concluded elections did nothing to resolve the crucial issues facing humanity in the immediate days ahead except opening further the potential for the removal of Barack Obama from office In this issue of EIR we focus on those crucial issues First there s the issue of war or peace which has come to the fore with the recent escalation by NATO and Obama against Russia and China In our lead package Strategy we present the current war danger backed up by a discussion of the strategy to defeat it which occurred in the Oct 31 LaRouchePAC webcast Our Feature takes on the other foremost question before us Bringing the trans Atlantic region into cooperation with the BRICS Silk Road process We present the second panel of the recent Frankfurt Schiller Institute conference in which citizens from Germany Greece Italy France and the United States addressed both the obstacles to and necessity for that fundamental change The Obama issue is addressed in both our Economics and National sections First in Economics we report on the open break of the U S military leadership with Obama s disastrous coverup and lies on the Ebola crisis Note It is the military that is demanding real scientific investigation on transmission modes of this virus while the Obama CDC literally suppresses the truth on the matter Under National we report from our own sources on what s in motion for purging the Administration in this post election period The prospects for getting the world out of this mess dominate our International section This past week has seen dramatic developments in Brazil and the Philippines in the BRICS direction Also of crucial importance is a recent event in Russia where Lyndon LaRouche was invited to have his ideas presented on the strategic situation Our final section Science takes up two recent positive developments both featured at the International Astronautical Conference held in Toronto last month First the fascinating European Space Agency mission to place a lander on a comet to learn more about the origins of the universe which was discussed there Second a report on the raft of promising contributions by young science students from small developing nations That science is alive in these nations is a sign of hope for all of us *Executive Intelligence Review; Volume 41, Number 34* Lyndon LaRouche,2014-09-04 From the Editors Pessimists give it up If you open your eyes and your mind to the transformations which are already ongoing in the world today you will find you have no choice but to throw yourselves into the fight for a truly human future for mankind a future that is now visible on the horizon This week s feature by Helga Zepp LaRouche gives you a beautiful foretaste of that future It is a preprint of the introduction to an upcoming Special Report on the World Land Bridge that EIR is producing but we rushed to put it into circulation because it captures the current transformation underway Feature That reality is also underscored by the attention which the Russian and Chinese media are giving to the input of both Lyndon and Helga LaRouche as you will see in our coverage from Voice of

Russia Ria Novosti and China's Xinhua International Complementary to Zepp LaRouche's presentation is our Science feature which further pursues the implementation of the helium 3 perspective which China is undertaking Lyndon LaRouche's Aug 22 webcast whose transcript we run in this issue provides an overview on how to approach this last week's strategic developments LaRouche's response to a question from Washington based institutions on the situation around the ISIS horror in Southwest Asia is critical and is elaborated in Jeffrey Steinberg's International lead LaRouche's responses to questions on U S issues and economic developments emphasize the need to take the standpoint of Prometheus and the need for increasing the productive powers of labor to actually solve the crises before us The rest of the issue updates areas of major breaking developments In Economics we provide the latest on Argentina's battle against the vulture funds and EIR's own top down approach to the Ebola crisis which is now being criminally under resourced with potentially disastrous results for the planet On the Southwest Asia wars we bring to bear our indepth knowledge of the British Empire's use of international terrorism to expose just how that Empire's junior partner Saudi Arabia has created ISIS International We also update the movement to expose the Saudi role in 9 11 by the release of the 28 pages of the 9 11 Congressional Inquiry Report Domestically we bring you a report on the battle over Glass Steagall at the recent State Legislatures conference National Executive Intelligence Review, Volume 41, Number 33 Lyndon H. Larouche, Jr., 2014-08-22 From the Editors Leading nations around the world are moving rapidly to set up a new world economic system based on the real values of physical productivity the productive powers of labor and scientific advance We focus on those exciting developments in this issue of EIR especially the stunning developments in Egypt But that's only part of the story The British financial empire is in a war to prevent the establishment of this new system and it is utilizing every asset it can find going as far as to threaten global war The sanctions war against Russia for example is ripping Europe apart economically The Ukraine developments are even more dangerous International But to succeed the British need to control the U S Presidency Their tool Obama is willingly complying violating the U S Constitution without any effective challenge from Congress and driving toward that confrontation with Russia National At the same time Obama's protection of the predatory financial system is leaving an open field for genocide globally In this issue we have our first coverage of the Ebola outbreak now creating a holocaust in West Africa and threatening the planet Lyndon LaRouche and EIR forecast just such a development as early as in 1974 warning that toleration of IMF austerity conditionalities would lead to global pandemics Without overthrowing the IMF Wall Street London system this scourge and others like it can't be stopped But Obama brought shame on the nation by turning his back on the enormity of the desperate crisis during his recent summit with African leaders How do we stop such atrocities LaRouche this week demanded that the first step be the immediate ouster of Obama's biggest protector House Speaker John Boehner Boehner is elected by the full House and a privileged motion by one member can call the question for the election of a new Speaker immediately That clears a major impediment to impeaching Obama passing Glass Steagall and other crucial steps Our Science feature this

week focuses on what LaRouche recently identified as the miracle of the transformation of China from a cheap labor source for global finance to a knowledge based economy oriented to mankind s scientific frontier on the Moon and beyond The story again begs the question When will the U S join the new coalition for progress      **Executive Intelligence Review; Volume 41, Issue 41** Lyndon LaRouche, 2014-10-17 From the Editors As we put the final touches on this issue of EIR the central conception behind LaRouchePAC s Oct 10 webcast Overcoming the Imperial Drive for a New Dark Age our Feature is coming even more sharply into focus Mankind is threatened with a New Dark Age of unprecedented proportions marked most dramatically by the rampaging expansion of two deadly scourges the ISIS barbarians and the deadly Ebola virus Both come to you directly or indirectly courtesy of the British Empire We draw your attention specifically to one crucial aspect of that webcast discussion Lyndon LaRouche s proposed solution We need an alliance of forces regionally and internationally of the same sort which is actually required to put an end to the British Empire s financial disintegration and the horror show which they have created economically as well LaRouche said we don t exactly know how the end game will work on this but we do know our responsibility in the United States And he addressed the United States population and the Congress in particular asking Are you capable of acting properly to do your part to prevent this coming war before it starts If so then oust Obama and his Republican guards like Speaker Boehner There is already a global alliance centered on the BRICS nations which is cooperating against the British Empire s economic warfare This is the alliance that the U S must join to defeat these threats as well In our news sections you will find the relevant updates on the crucial battlegrounds In International the assault on Southwest Asia Battle for Kobani War Chaos in Southwest Asia Threaten Russia and Beyond and The Strategic Stakes in Brazil s Presidential Elections There is also an exclusive interview with Malaysian scholar Dr Chandra Muzaffar president and founder of Just International In Economics a specific update on the Ebola crisis as of last week end Officials Admit Defeat in Face of Ebola Threat And in National the new phase of the campaign to declassify the 28 pages of the Joint Congressional Inquiry on 9 11 Harlem Town Meeting To Stop World War III Release the 28 Pages This campaign is the most important flank for halting World War III as Helga Zepp LaRouche put it because its success would blow the lid off the role of the Saudi funding of terrorism not just in 9 11 but in the current ISIS drive And finally be sure to take note of the announcement of the newly founded publication the EIR Daily Alert Service with subscription information provided p 38      *Executive Intelligence Review; Volume 41, Number 21* Lyndon H. Larouche, Jr., 2014-05-23 From the Editors This issue of EIR Online proceeds from Lyndon LaRouche s evaluation in his May 16 webcast that we have entered a transitional period in which Obama is slated to fade from the scene and the basis for a new era of global prosperity can be established Feature Of particular significance in this period is LaRouche s highlighting of the potential roles of former President Bill Clinton and former Secretary of State Hillary Clinton especially in light of comments made by the former President in Washington May 14 We recommend that you study this webcast closely for guidance as to how a successful transition can be organized including LaRouche s four point

program Several other developments coming together to shape a hopeful future are also featured Under Economics we highlight more on the Chinese Silk Road perspective which now includes the Bering Strait tunnel Under International we provide our expert analysis of the Indian elections which hold promise for further development of Asian economic cooperation On the U S side Jeffrey Steinberg re views the progress of moves to finally get Obama out of office and we give you a first hand view of how Senate candidate Kesha Rogers is preparing the shock that could move us more rapidly into the post Obama era The obstacle to these hopeful dynamics of course remains the British financial empire led by its Satanic Queen Our feature on the long term relationship between her son and presumptive heir Prince Charles and the terrorist supporting Saudi kingdom will give you a surprising insight into some of the operations of that empire and rein force our assertion that it is the British Empire itself which is the great evil that must be destroyed if mankind is to survive In that light we should note that as we go to print the British monarchy has once more opened attacks on organizations associated with Lyndon LaRouche both in Germany and the United States In a statement issued May 20 LaRouche stated that these attacks signal that the Queen and the British Empire are now going to attack LaRouche directly and that the next stage of world war is now beginning The assaults which include sabotage of websites and preposterous legal charges show hysteria on the part of the monarchy against the role LaRouche and his associates are playing as in 1999 when a British magazine carried a cover feature with a picture of LaRouche next to the title Shut This Man s Mouth and quoted unnamed British sources claiming the monarchy was determined to do so Indeed this Empire is on the skids and ripe to be destroyed     *Executive Intelligence Review; Volume 41, Number 25* Lyndon H. Larouche, Jr.,2014-06-20 From the Editors This issue of EIR features an extraordinary conference held in New York City June 15 dedicated to the theme It s Time To Create a World Without War Feature Called to celebrate the 30th anniversary of the Schiller Institute founded by Helga Zepp LaRouche this conference brought together leading figures in the battle to restore the U S Constitutional system to deliberate on how to establish the basis for true collaboration among sovereign nation states which would lead to world peace Some of the leading contributions to the event are featured in full transcription including Helga Zepp LaRouche s keynote address addresses by former U S Attorney General Ramsey Clark and former CIA analyst turned anti war activist Ray McGovern and an in depth presentation on the New Silk Road strategy of the Chinese government by a distinguished professor from China retired Col Bao Shixui We also provide the texts of greetings to the conference from prominent individuals including an advisor to the President of Russia in these messages you can get a good idea of the impact the Schiller Institute has had in the realm of ideas of economic development globally We will dedicate the next issue almost entirely to completing coverage with transcriptions of the other important speeches The issue does include other important news analyses A leading focus is the current mayhem in Iraq the direct legacy of the British monarchy s evil servant Tony Blair who has been and still is dedicated to destroying the principles of the 1648 Peace of Westphalia International Our analysis comes from our Arabic language

editor Hussein Askary In the area of the British Queen s drive for Green genocide we report on a recent event in the Mexican Congress which saw Mexican patriots in the LaRouche movement taking on a genocidalist crew seeking to crush humanity in the name of reducing carbon emissions In Economics you will find some important developments both by the ECB fascists and their opponents the Chinese and the Russians We also follow up our presentation of Lyndon LaRouche s Four New Laws To Save the U S A with a review of what exactly President Abraham Lincoln s Greenback policy was and how it defended the nation against the British stranglehold over international finance at that time National Economy *Executive Intelligence Review* Lyndon H. Larouche, Jr.,2014-07-18 Presents information on the publication *Executive Intelligence Review* EIR founded and edited by Lyndon H Larouche Jr and published by EIR News Service Contains articles speeches commentaries and press releases by LaRouche Provides a table of contents for the current issue **Executive Intelligence Review; Volume 41, Number 29** Lyndon H. Larouche, Jr.,2014-07-25 From the Editors In mid July as the planet was being wracked by growing war horrors in eastern Ukraine Iraq and Gaza and by economic depression caused by the death throes of the entire trans Atlantic financial system heads of state representing half of humanity gathered in Brazil and took the first steps toward creating a New World Economic Order So begins the Feature of this issue of EIR which brings you the story of the world historical BRICS summit whose outcome will determine your future in the short period ahead Ibero American Intelligence Director Dennis Small cuts to the core of the issue as Lyndon LaRouche defined it What is the standard of value in an economy What the BRICS summit concentrated on was a standard based on raising the productive powers of labor as opposed to the money standard of the dying trans Atlantic system A new just economic system based on such a standard of increased energy flux density has been the rallying cry of the LaRouche movement for more than 40 years as we review But it remains for the U S and Europe to decide to make the same change in values LaRouchePAC s current drive to make this change in the United States leads our National section LaRouche s Four Laws which start with Glass Steagall and the impeachment of Barack Obama must be achieved before Congress takes its Summer recess LaRouchePAC insists There is motion in this direction as we report but it will take a new quality of uncompromising resolution to achieve victory We see signs of that quality in support for Argentina in Europe as our interview with Fabio Porta an Italian parliamentarian reflects Complementing the dramatic BRICS development is our Science Technology feature by nuclear engineer Ramtanu Maitra who presents in detail the requirements for achieving real progress with investment in high energy flux density power starting with nuclear fission The British Empire s threat to destroy this exciting potential is nothing less than genocidal war as Jeffrey Steinberg reports in our International lead Every day brings new escalations against Russia and China regardless of the facts as befits the evil intentions of the Anglo Dutch Financial Empire Fortunately that Empire s days are numbered presuming we revive the principles of the American System of economics which Lyndon LaRouche has championed and which now nearly half of humanity has begun to adopt as their own *Executive Intelligence Review; Volume 41, Issue 38*

Lyndon H. Larouche, Jr.,2014-09-26 From the Editors It is impossible to exaggerate the importance of our Cover Feature this issue which goes hand in glove with our International lead The summit last week between the leaders of the world's two most populous nations India and China featured solid steps toward a new and deeper partnership which portends a brighter future for all mankind The subtext that should be read is The control by the British Empire and its geopolitics is over The visit comes in the midst of an entire BRICS process which is sweeping the planet and creating a new reality that will replace the Empire if humanity is to survive Integral to creating that process has been Helga Zepp LaRouche whose speech to a recent Silk Road conference in Beijing we include in the package as well as that of the Chinese professor who introduced her Then you will find a mind opening reprise of how India has been prepared for its historic role today and a long although necessarily partial grid of the major deals primarily infrastructural made by the BRICs countries since their mid July summit in Brazil Leading the International section is Helga Zepp LaRouche's latest initiative a call for nations to pull together a conference to build a new inclusive world security architecture which will end geopolitics and the concomitant economic misery for all mankind The rest of our news analysis deals with battles underway within that old paradigm Ukraine the Scottish referendum Ebola the fight over infrastructure in Italy and the miserable state of affairs in the U S Congress This latter problem looms even larger now that Obama with his British backers has launched an unconstitutional illegal war of aggression in Southwest Asia specifically against Syria Obama is flagrantly violating the expressed will of the Congress in HCR 105 as well as the stern warnings from the Russians the second greatest nuclear power on the planet about the obligations of all nations to follow international law The fact that ISIS must be defeated and destroyed is no excuse in fact only lawful cooperation among nation states such as Russia the U S Iran Syria and others can conceivably succeed in doing so Instead Obama chooses war putting the world in terrible danger Will the American people choose the BRICS process instead

**Executive Intelligence Review** Lyndon H. Larouche, Jr.,2014-10-03 From the Editors We preface our ongoing indepth coverage of the BRICS process now sweeping the world with a special appeal from Lyndon LaRouche which may catch you by surprise What LaRouche is stressing is the uncomfortable truth that under Obama as President the United States is a captive nation under the control of a British imperial policy which is taking us very quickly toward an outright Nazi dictatorship Already Americans especially in Congress are acting as if a dictatorship were already fully in place Congressmen refuse to assert their Constitutional obligation to decide on war and peace even as they admit the President is lying and acting unconstitutionally They refuse to implement the obvious first step in protecting the nation from another impending financial crash by enacting a Glass Steagall law which the population wants but Obama and Wall Street oppose If their bodies are not imprisoned their minds and wills are Thus our nation is walking down the path to doom as our stories on Obama's health care genocide National and the Ebola epidemic now sweeping West Africa Economics should make clear If action is not taken to stop this process now by the time people decide to resist a full dictatorship may prevent them from

doing so LaRouche has sounded the alarm and the action must follow to oust Obama and his corrupt cronies like Speaker of the House John Boehner and turn to the global alliance which is shaping a real future The hope is that leadership in the U S will emerge to link up with that of the BRICS nations which are expressing a new spirit of the age for human creativity and progress We highlight Lyndon LaRouche s outlook on this process in our cover story Feature and then present four case studies of how a new outlook has taken over the nations of India Argentina Bolivia and Egypt We also have a first hand report on Prime Minister Modi s historic event at New York s Madison Square Garden Sept 27 where he inspired some 20 000 Indian Americans and others with a vision larger than India itself a vision for the whole human family Don t miss Helga Zepp LaRouche s strategic overview this week following up on her recent call for a new inclusive security architecture International Finally we point your attention to our latest exclusive on the Saudi role in funding the 9 11 terrorists National ammunition for the immediate fight to stop today s terror threat and to impeach Obama who is carrying out a treasonous coverup for their crimes      *Executive Intelligence Review; Volume 41, Issue 45* Lyndon LaRouche, 2014-11-01 From the Editors A political impeachment was the spot on characterization by a Washington insider of the Nov 4 U S Presidential elections which as even top Democrats ruefully admitted was a spectacular drubbing of Obama and his party That it took place on the eve of the equally historic APEC summit in Beijing last week where the emergence of a striking counterpole to the rapidly imploding trans Atlantic financial imperium was further consolidated was not lost on either side This week s EIR examines both sides of this unbridgeable divide beginning with our Cover Story The sea change in the U S has all but written Obama s political eulogy and Lyndon LaRouche quickly responded outlining the necessary next steps Once Obama is officially removed from office a new viable government can and must be formed Endgame is coming on fast he said and The whole world will be affected by what the United States does in the coming days Two additional pieces round out the National section a reprint of LaRouche s Four Laws for economic recovery first published in June and a substantial excerpt from the LaRouchePAC Nov 7 webcast in which EIR s Dennis Small discusses the potential for positive change in the wake of the elections Now spin the globe around to the other side of the world where the APEC gathering in Beijing set the agenda for the new world economic order that the LaRouches have devoted the last 40 years to bring into being and where Obama was clearly out of his element Economics This view is bolstered in Helga Zepp LaRouche s interview with China Radio International And in Strategy Zepp LaRouche recalls the Schillerian moment 25 years ago when the Berlin Wall crumbled a moment which was lost but whose promise is now being revived by the forces for a New Paradigm centered on the BRICS and their allies As the U S NATO EU troika drives for confrontation with Russia over Ukraine there are promising signs of rapprochement between Japan and China International And China s Chang e 5T mission is bringing that nation closer to its goal of landing astronauts on the Moon Also on the international stage we look at moves by the Saudi Kingdom to sabotage recent positive developments involving Iran including diplomatic progress between Tehran and Washington Finally in our

Feature we bring you speeches from Panel III of the Schiller Institute Conference in Germany last month on The New Silk Road and the New Paradigm for Mankind **Executive Intelligence Review; Volume 41, Number 31** Lyndon H. Larouche, Jr., 2014-08-08 From the Editors August 5 was the second anniversary of the landing of NASA's Curiosity rover on Mars a monumental accomplishment for mankind in which thousands of scientists from all around the world participated and which sparked optimism among millions A great victory was achieved for mankind declared Lyndon LaRouche in the wake of the landing a victory which he elaborated should lead to the removal of the anti science Obama and the adoption of a new program of space collaboration among nations Two years later it is China which is setting the pace for such space breakthroughs especially with its program for mining helium 3 on the Moon The Aug 1 LaRouchePAC webcast Feature took up this reality from the standpoint of the urgent necessity for the United States in particular to follow its lead The alternative as that webcast and our news coverage in this issue lay out is genocide either by vulture economics and or thermonuclear war Argentina's battle against the economic vultures a battle in the interest of all mankind leads our Economics coverage The combativeness of that South American nation which enjoys the support of the rest of the continent is mirrored in India which has acted for all poor nations in refusing to accede to the World Trade Organizations demand it give up its food security program The British financial empire's drive for war dominates our International section First Helga Zepp LaRouche goes after the real content of the new EU Obama sanctions against Russia and the war danger that that represents We then take up British puppet Benjamin Netanyahu's criminal war against Gaza now increasingly characterized by observers as a crime against humanity An in depth look at the performance of the new Indian government and an obituary for Schiller Institute collaborator and famous Verdi tenor Carlo Bergonzi complete this section To cripple the war danger Obama must be constitutionally removed from office EIR's Jeffrey Steinberg makes the case citing recent U S developments including some resistance to Obama's insane provocations against Russia National That resistance was writ large in reactions to Obama's climate change diktats as we saw in the recent hearings and mass rally in Pittsburgh We wrap up the issue appropriately with a primer by LaRouchePAC science team member Jason Ross on energy flux density a necessary underpinning for LaRouche's polemic in the webcast Expect more along these lines Americans must relearn science if we are to survive

**Executive Intelligence Review; Volume 41, Number 35** Lyndon LaRouche, 2014-09-05 From the Editors Prometheus versus Zeus that is the fundamental characteristic of the world situation today and the outcome of that battle in the short term will determine whether the planet undergoes another Dark Age of mass depopulation and death or goes into a New Renaissance for all mankind In modern terms that conflict is represented by the commitment to a scientific world outlook epitomized in the consolidation of the BRICS nations versus the British imperial system which is driving the world toward war and collapse We feature one of the most stunning examples of the Promethean impulse on the planet the Egyptian mobilization for a New Suez Canal Feature This particular project is only part of the shift underway and we will continue the

story in a followup article on the agricultural project planned to conquer the desert But Egypt is only a small part of the story Our Economics lead on the BRICS motion over the past two weeks shows just how rapidly the new constellation for cooperation among nations is coming into being And there will be much more to come especially on China where Helga Zepp LaRouche is now on tour To master the Promethean outlook means a profound commitment to creativity per se and this is the subject of the Aug 29 LaRouchePAC New Paradigm show which we also feature in this issue Science Jason Ross reviews the core scientific concepts We follow it with our own interview with one of the world s leading researchers on helium 3 Dr Gerald Kulcinski who gives an exciting picture of what could be done once we shift the United States out of its current captivity by the Empire This global conflict is not timeless of course We have entered a showdown period strategically as Jeffrey Steinberg reviews with the upcoming NATO Summit and the Obama Administration s deadly commitment to British Empire strategy International That show down also faces the nations of Western Europe see our reports on recent developments in France and Germany We also update one of the deadliest threats of all the Ebola virus epidemic in Africa Economics We re on the edge of the Promethean era noted Lyndon LaRouche at last week s webcast and everything depends upon acquiring that edge On Sept 8 LaRouche will be 92 years of age and is still leading the fight for that shift If enough people join that fight victory can be achieved Wouldn t it be poetic justice for the Congress to begin impeachment proceedings against Obama when it returns Sept 8 LaRouche s birthday

**Executive Intelligence Review; Volume 41, Number 23** Lyndon H. Larouche, Jr., 2014-06-06 From the Editors You wouldn t know it from the mainstream media but the current world strategic situation presents mankind with a dramatic new opportunity to break out of the culture of death war and economic devastation which has increasingly engulfed the planet since as early as 1900 As LaRouche puts it the British Empire is in big trouble as it faces two triads of opposition one in Eurasia and the other in continental Europe This issue of EIR provides you an exciting picture of both as well as the prospects for the corresponding change in U S politics and basic science which is required to realize a human future Our lead section Strategy presents exciting developments in the Eurasian triad starting with the finalizing of the Eurasian Economic Union followed by the promising first actions of the new Indian government and an extraordinary event keynoted by Lyndon LaRouche on May 29 in Moscow on the Prospects for the Preservation of Mankind Our coverage of the continental European triad International leads with Helga Zepp LaRouche s analysis of the earthquake from the recent elections which pivoted on France Former Presidential candidate Jacques Cheminade provides an inside look National features prospects for the U S joining this sea change through the leadership of Keshia Rogers in the Democratic Party and the way things are closing in on impeachable Obama in this instance on his government s continued defense of the funders of 9 11 the Saudi Kingdom You ll be hearing much more from Rogers in the weeks ahead What kind of future must we create and what kind of change in thinking will it take to achieve it Two other features in our issue are devoted to that larger question First LaRouche s Economists Who Are Usually Stupid a self

described extended autobiographical sketch which goes from a trenchant attack on the Bertrand Russell dominated educational travesty to the basics on the method required to counter it especially the scientific breakthroughs made by V I Vernadsky Feature Second an article by our Asian expert Ramtanu Maitra who is also a nuclear engineer by training on the prospects and necessity for nuclear and thermonuclear fusion in his native India Science Technology The British Empire still poses an enormous danger of course See Economics and the Editorial to keep in focus just how urgent it is to ensure its destruction *Executive Intelligence Review; Volume 41, Issue 47* Lyndon LaRouche, 2014-11-28 from the Editors Lyndon LaRouche has been emphatic There has not been an ounce of growth in the real U S economy since the death of President John F Kennedy In our Cover Feature Economics editor Paul Gallagher elaborates the basis for LaRouche s judgment with a devastating review of exactly how we have been destroying ourselves by adopting British monetarist methods If you can understand what went wrong with our economy you will understand why Americans must not only appreciate what the BRICS nations are doing but why it is urgent that we join them in realizing mankind s global mission a mission JFK himself would have championed The live fight around the BRICS perspective is featured in our Economics section with our report on Silk Road Lady Helga Zepp LaRouche s address to a Mexican audience last week This highly successful event brought the BRICS to the doorstep of the U S and drew significant participation from both a Chinese representative in Mexico and a young LaRouche movement member in Spain most of which we reproduce here The British Empire s war against the BRICS process with threats of regime change and war is the subject of our International lead and includes an abundance of documentation the Establishment media doesn t want you to know about That is followed by a fascinating report by a member of the LaRouche movement on his trip to Syria as part of a delegation assembled in Sweden Our National section serves as a complement to the Feature in taking up the method for bringing Americans back to their historic mission Lyndon LaRouche has identified the series of meetings like the one we cover in depth here as a Manhattan Project capable of showing the way out of the current political crisis to the nation as a whole Under Science we present a highly stimulating paper by LaRouchePAC Scientific Team member Ben Deniston entitled Time for a Solar Noosphere Deniston s article is part of the Vernadsky project which LaRouche has defined to pursue with scientific rigor the implications of the great Ukrainian Russian scientist s contributions to defining the true nature of man as distinct from the animals Finally don t miss the Schiller Institute s international petition on getting the U S and Europe to join the BRICS
