**The Future of Museum and Gallery Design** Suzanne MacLeod, Tricia Austin, Jonathan Hale, Oscar Ho Hing-Kay, 2018-06-18 The Future of Museum and Gallery Design explores new research and practice in museum design Placing a specific emphasis on social responsibility in its broadest sense the book emphasises the need for a greater understanding of the impact of museum design in the experiences of visitors in the manifestation of the vision and values of museums and galleries and in the shaping of civic spaces for culture in our shared social world The chapters included in the book propose a number of innovative approaches to museum design and museum design research Collectively contributors plead for more open and creative ways of making museums and ask that museums recognize design as a resource to be harnessed towards a form of museum making that is culturally located and makes a significant contribution to our personal social environmental and economic sustainability Such an approach demands new ways of conceptualizing museum and gallery design new ways of acknowledging the potential of design and new experimental and research led approaches to the shaping of cultural institutions internationally The Future of Museum and Gallery Design should be of great interest to academics and
