## **Experience Modes Cambridge Philosophy Classics:**

**Experience and its Modes** Michael Oakeshott, 2015-10-15 This book is Michael Oakeshott's discussion of the relationships between the most important perspectives from which we experience the world

**Compression Mode** Stephen Kennedy, 2025-01-09 This book examines how compression can be understood not only as a digital process enacted through computing but as a wider economic and political phenomenon that impacts on the ecology of waste diversity and social inclusivity Setting out from the linguistic underpinning of visual space it proceeds to the development of the MP3 algorithm and an examination of the waste it creates As it does so it challenges the received wisdom prevalent in western thought that human reason and logic enacted through language is uniquely capable of bringing order to chaos Returning to the idea of a sonic economy it seeks to reintroduce waste error and other discarded material back into our systems of thought or perhaps more accurately into systems beyond our thought

**Truth and History in the Ancient World** Lisa Hau, Ian Ruffell, 2016-11-03 This collection of essays investigates histories in the ancient world and the extent to which the producers and consumers of those histories believed them to be true Ancient Greek historiographers repeatedly stressed the importance of truth to history yet they also purported to believe in myth distorted facts for nationalistic or moralizing purposes and omitted events that modern audiences might consider crucial to a truthful account of the past Truth and History in the Ancient World explores a pluralistic concept of truth one in which different versions of the same historical event can all be true or different kinds of truths and modes of belief are contingent on culture Beginning with comparisons between historiography and aspects of belief in Greek tragedy chapters include discussions of historiography through the works of Herodotus Xenophon and Ktesias as well as Hellenistic and later historiography material culture in Vitruvius and Lucian's satire Rather than investigate whether historiography incorporates elements of poetic rhetorical or narrative techniques to shape historical accounts or whether cultural memory is flexible or manipulated this volume examines pluralities of truth and belief within the ancient world and consequences for our understanding of culture ancient or otherwise

**Experience and Religion** Wilhelm Dupré, 2005 The enactment of humanity begins with experiences and culminates in the effects of coping with experiences Experience confirms the human potential but indicates also its limitations both in the sense that the absence of experiences undermines established modes of behavior and that disregard and misunderstanding of experiences lead to distorted forms of personal and cultural relations This book is an attempt to localize religion as well as the study of religions within the context of experiences and as a topic of philosophical inquiry Focusing on the question of specifically religious experiences and investigating various models of the relationship between religion and experience the study suggests that no specific experiences are needed to understand the emergence and development of religious traditions and attitudes Assessing the implications of basic questions and attitudes in religious studies it presents a theory of religion which is rooted in the internal dynamics of being human and cultural and marked by a

culture oriented understanding of philosophy The book concludes with a discussion of various phenomena which can be addressed as modes and forms of implicit religion since they do not comply with expectations of traditional or explicit religion

**Fifty Key Thinkers on History** Marnie Hughes-Warrington, 2014-09-04 Fifty Key Thinkers on History is an essential guide to the most influential historians theorists and philosophers of history The entries offer comprehensive coverage of the long history of historiography ranging from ancient China Greece and Rome through the Middle Ages to the contemporary world This third edition has been updated throughout and features new entries on Machiavelli Ranajit Guha William McNeil and Niall Ferguson Other thinkers who are introduced include Herodotus Bede Ibn Khaldun E H Carr Fernand Braudel Eric Hobsbawm Michel Foucault Edward Gibbon Each clear and concise essay offers a brief biographical introduction a summary and discussion of each thinker's approach to history and how others have engaged with it a list of their major works and a list of resources for further study

*The Skeptic's Oakeshott* S. Gerencser, 2000-05-04 The Skeptic's Oakeshott poses the thesis that Michael Oakeshott's political philosophy is best understood from the vantage point of his skepticism and his intellectual affinity to Hobbes whose work he commented on extensively Margaret Thatcher based much of her political philosophy on Oakeshott's theories but Gerencser shows how she widely misinterpreted his work He argues persuasively against those who understand Oakeshott in terms of the influence of British idealism Instead Gerencser argues that Oakeshott adopts and softens Hobbes' idea of consent as the basis of political authority By insisting that political authority has its source in acknowledgement and recognition Oakeshott's philosophy opens the doors to democratic politics The book ends with persuasive criticisms of Oakeshott especially for thinking that politics offers only two alternatives either the legitimacy of authority is universally recognized or civil war and secession are the result Gerencser argues for the necessity of conflict and the contestation of the legitimacy of authority He uses examples from Oakeshott's own work to show that civil disobedience is not only integral to democratic politics but is required by Oakeshott's own understanding of the political

**Christian**

**Mysticism's Queer Flame** Michael Bernard Kelly, 2018-09-03 Is the Christian mystical tradition a relic of another time shaped by celibates for celibates unable to engage meaningfully with people of our time who embrace their corporeality and sexuality as crucial aspects of their journey towards union with God This book reflects in serious theological depth and detail on the spiritual and sexual journeys of gay men of mature and committed Christian faith employing the Christian mystical tradition as the lens and the interlocutor in this process This study examines the major themes and stages of the mystical tradition as outlined by Evelyn Underhill but also including more recent work by Ruth Burrows Thomas Merton and Constance Fitzgerald Using methods of qualitative research it then considers the texts of in depth interviews conducted with men most of whom are theologians or spiritual leaders with a deep Catholic faith and all of whom are openly self affirmingly gay Finally it employs Ricoeur's hermeneutical theory to engage in a creative theological conversation between the traditional mystical stages and themes and these men's lives as described in their interviews This is a unique study that brings together ancient spirituality with contemporary lived religion As such it will be of interest to scholars of religious studies theology Christian mysticism and spirituality and queer studies It will be of particular interest to those teach spiritual direction and to all who seek new ways to engage with the spiritual lives of LGBTIQ people *The Formative Years of R. G. Collingwood* William M. Johnston, 2012-12-06 Collingwood and Hegel R G Collingwood was a lonely thinker Begrudgingly admired by some and bludgeoned by others he failed to train a single disciple just as he failed to communicate to the reading public his vision of the unity of experience This failure stands in stark contrast to the success of Georg Wilhelm Friedrich Hegel who won many disciples to a very similar point of view and whose influence on subsequent thought having been rediscovered since 1920 has not yet been adequately explored Collingwood and Hegel share three fundamental similarities both men held overwhelming admiration of the Greeks both possessed uniquely broad knowledge of academic controversies of their day and both were inalterably convinced that human experience constitutes a single whole If experts find Collingwood's vision of wholeness less satisfactory than Hegel's much of the fault lies in the atmosphere in which Collingwood labored Oxford in the 1920's and 1930's sceptical and specialized was not the enthusiastic Heidelberg and Berlin of 1816 to 1831 What is important in Collingwood is not that he fell short of Hegel but that working under adverse conditions he came so close Indeed those unfamiliar with Hegel will find in Collingwood's early works especially in *Speculum Mentis* a useful introduction to the great German *Michael Oakeshott, Philosophical Skepticism and Political Authority* Steven Anthony Gerencser, 1996 *The Continuum Encyclopedia of British Philosophy: K-Q* A.
