Executive Intelligence Review Lyndon H. Larouche, Jr., 2015-01-02 From the Editors Our first issue of 2015 looks forward to our adopted mission for this year Defeating the British Empire and bringing the United States and Western Europe into collaboration with the BRICS This mission is coherent with two major anniversaries that the world will celebrate this year First the United States victory over the British Empire and its Confederacy in 1865 which led to the takeoff of U S industrial might and the spread of its model throughout the world Anton Chaitkin s History feature in this issue on the battle in the 1870s U S brings this period to life in a way that should inspire you about what can be done today The world this year also celebrates the 70th anniversary of the Allied victory over Fascism even as the globe is threatened by a fascist upsurge once again Russia and China in particular are commemorating this event with great emotion as they face new aggression from the West Will sane forces in the West reject this resurgence of evil in time The hope lies in the BRICS dynamic which our Feature identifies as of year beginning with a necessarily small snapshot of the dramatic process that is upending power relations over the entire planet and creating the promise of a better life for billions As we have over the last six months we will be focusing heavily on publicizing the BRICS developments and on the political motion in their support which have been subject to unconscionable blackout by the major news media We feature coverage of the war front with Russia in our International section providing an inside view seldom available to English speaking readers of Russia s preparations to defend itself both militarily and economically This view includes our report on a recent event at Dubna University which was keynoted by Lyndon and Helga LaRouche by video The transcripts of their well received messages are included Under Economics we lead with the imminent threat of a Wall Street blowout likely to be detonated by the crashing oil price All the more urgent that Glass Steagall be put into effect beforehand so that Wall Street speculators are the ones damaged not Main Street Then we can get on with investing in the science mankind needs including in the food supply The prerequisites for that are outlined in an interview with the 2014 World Food Prize winner Sanjaya Rajaram done by our Mexican colleagues Don t miss it

Dare Not Linger Nelson Mandela, Mandla Langa, 2017-10-24 A memoir of Mandela s time in office as the first president of a democratic South Africa completed and expanded with his personal notes and speeches I have discovered the secret that after climbing a great hill one only finds that there are many more hills to climb I have taken a moment here to rest to steal a view of the glorious vista that surrounds me to look back on the distance I have come But I can rest only for a moment for with freedom comes responsibilities and I dare not linger for my long walk is not ended In 1994 Nelson Mandela became the first president of a democratic South Africa From the outset he was committed to serving only a single five year term During his presidency he and his government ensured that all of South Africa s citizens became equal before the law and he laid the foundation for turning a country riven by centuries of colonialism and apartheid into a fully functioning democracy *Dare Not Linger* is the story of Mandela s presidential years drawing heavily on the memoir he began to write as

he prepared to leave office but was unable to finish Now the acclaimed South African writer Mandla Langa has completed the task using Mandela s unfinished draft detailed notes that Mandela made as events were unfolding and a wealth of unseen archival material With a prologue by Mandela s widow Gra a Machel the result is a vivid and often inspirational account of Mandela s presidency and the creation of a new democracy It tells the story of a country in transition and the challenges Mandela faced as he strove to make his vision for a liberated South Africa a reality Underneath the history that has been made there is a human being who chose hope over fear progress over the prisons of the past Even as he became a legend to know the man Nelson Mandela is to respect him even more Barack Obama A rare human being who in freeing himself of his demons also became free to give his extraordinarily leadership to his country and the world Bill Clinton A critically important document as the principal firsthand record of Mandela s tumultuous time in office and the often ingenious measures he took to bring about peace the book contains many such practical lessons in governance Essential to students of Mandela s political career as well as of modern African history Kirkus Reviews *Yearbook of International Organizations 2014-2015 (Volume 4)* Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations **Executive Intelligence Review** Lyndon H. Larouche, Jr., 2015-01-09 From the Editors In view of the existential dangers that threaten humanity today one thing is certain We must make the leap to overcome the purported interests of geopolitics and to unite around the higher vantage point which all astronauts cosmonauts and taikonauts have expressed With the perspective of astronauts viewing the Earth from space it is in fact possible to regard humanity as a unity which lives on a tiny planet in a very large Solar System which is part of a much larger galaxy among billions of galaxies The above perspective expressed by Helga Zepp LaRouche in the leading strategic article of this issue International and already in process in the nations of the BRICS and their allies represents the hope for mankind s future In our cover feature The Maritime Silk Road Comes to the Americas Physical Economy you can see that this mindset is already making headway in the Americas with the initiation of the Nicaraguan Oceanic Canal project When you read the interview with Dr Tel maco Talavera the manager of that project you will see precisely the mindset of optimism and willingness to collaborate with all nations which is needed especially in the United States A similar outlook is

evident in the BRICS nations such as India as Prime Minister Modi reflected in his speech to India's Science Congress Jan 2 which we report here Economics Other articles lay out the dangers if the U S and Europe fail to rise to the challenge The potential Greek exit Grexit from the euro has accelerated the collapse of the trans Atlantic financial system threatening deadly chaos more genocide and war Those moves toward war are further amplified in the latest developments in Central Europe and Korea In our Feature we take up the fundamental cause of the threatened civilizational collapse the insane determination of Wall Street to defend its bankrupt system and put before you once again the programmatic solutions First Lyndon LaRouche's Four Laws To Save the U S A first printed last June and second a major reprise of the American credit system originally produced as part of EIR's The New Silk Road Becomes the World Land Bridge LaRouche has described this Hamiltonian system as America's gift to the world and so it is a program for financing a world recovery based on scientific breakthroughs that will make mankind truly a citizen of the Solar System *The AI Revolution* Antonio Baraybar-Fernández, Sandro Arrufat-Martín, Belén Díaz Díaz, 2025-03-22 This book presents an overview of the vast landscape of artificial intelligence AI in the media industry more specifically in the audiovisual sector Readers are guided through the fundamental pillars of AI from machine learning algorithms to advanced neural networks revealing the technological foundations that drive innovation in the field of communication and media The possibilities of AI in this area are explored and discussed with real case studies The book highlights not only the technological developments but also the ethical dilemmas that arise From privacy issues to equity in access to education the book provides a comprehensive view of the challenges that must be addressed to ensure the ethical and sustainable development of artificial intelligence Altogether this book illuminates how AI continues to transform the way we communicate learn and relate to technology *Executive Intelligence Review; Volume 42, Issue 5* Lyndon LaRouche, 2015-01-30 From the Editors The contrasting alternatives before mankind became even starker this week as the global financial and strategic crises intensified On the one side we have the first definitive government break with the London Wall Street austerity system with the results of the Greek election This is our Cover Feature and it represents the opportunity to be seized immediately if the economic catastrophe portended by the collapse of the euro is to be avoided The euro system is at an end and the choices that nations make now will decide our fate Ironically the electoral victory against austerity in Greece will also accelerate the panic in London that is behind the drive for a thermonuclear showdown with Russia Day by day more foreign policy experts are warning of the danger of the nuclear war being detonated by the Ukraine crisis as we report in International what is lacking is the understanding that the solution lies in a different domain that of abandoning the monetarist system for a new world financial architecture It is for that reason that we once again devote a substantial part of this issue to the programmatic solutions to the current crisis that have been developed by Lyndon LaRouche and his colleagues Our focus this week is the new scientific paradigm required to solve the western United States water crisis a crisis that is threatening the food supply and livelihood of not only the U S but the rest

of the world as well Feature After an introduction pointing to the consequences of the current drought we reprint the section titled Solve the World Water Crisis from EIR s Special Report The New Silk Road Becomes the World Land Bridge which defines the metrics of progress in this critical area of world infrastructure Fortunately the ideas elaborated in this article are at least in some degree being acted on by the BRICS nations especially China Our commemoration of the role of the late Taras Muranivsky in spreading LaRouche s ideas in Russia underscores the potential in that nation as well As our National lead notes President Obama s adoption of the Wall Street London program remains one of the greatest obstacles to moving forward on those ideas His confrontational program against Russia and China demands decisive action bankrupting Wall Street and implementing a Hamiltonian credit system now You ll find that program outlined once again in our editorial After Wall Street s Bankruptcy **Executive Intelligence Review; Volume 42, Issue 16** Lyndon LaRouche,2015-04-17 Basing himself on the path breaking scientific discovery of the Solar System itself by Johannes Kepler Guest Editor Benjamin Deniston has just discovered an original breakthrough of his own one which will revolutionize man s ability to solve such problems as the crippling drought which has struck the Southwestern states of the U S As to its profound implications for the Presidency first of all former Gov Martin O Malley is the only prospective nominee who has exhibited any relevant qualifications By contrast Hillary Rodham Clinton has destroyed whatever qualifications she may once have had after prostrating herself against Lyndon LaRouche s express warning before the bestial Barack Obama But the Presidency is not a single individual however qualified It is an institution comprising a closely coordinated team of experts who are also creative thinkers under the President as exemplified by Lyndon LaRouche s vital participation in the Presidency since the 1970s That team must begin functioning now The major question before the Presidency so defined today is whether the Western states of the United States must be shut down and their populations killed off or exiled because of lack of water as California s degenerate Gov Jerry Brown demands What question could be more important But without consideration of what Deniston raises here it is a question without an answer **Executive Intelligence Review; Volume 42, Issue 14** Lyndon LaRouche,2015-04-03 March 27 Man is not an animal Unlike any animal ever known to us Man can directly apprehend the future and correctly know the future through a discovery of principle like the discoveries of physical principle by Albert Einstein or more profoundly by Einstein s acknowledged predecessor Johannes Kepler who invented modern physical science Animals the creatures of flesh and blood live in the present and the past Man who is not flesh and blood lives in the future to the extent that he is actually human that is to the extent that he is creative Practical people are merely foolish people Practical knowledge is only another name for ignorance Man s continued existence in this Universe depends on nothing but revolutionary advances of discovery of principle typified by breakthroughs in science and art It depends on the Promethean spirit which overturns all the tables of existing practical doctrines all the cant of University approved orthodox scholars to create ever new knowledge the same quality which uniquely makes man human In fact history art and science correctly

understood all attest that the very inner nature the true essence of the Universe itself is in reality nothing other than the revolutionary advance of creative discovery itself This was already understood by Heracleitus and Plato In the course of an inspiring discussion on these themes with associates on March 24 EIR s Founding Editor the great contemporary genius Lyndon LaRouche noted that the large majority of people are only able to think creatively on the condition that they have a President who at least has some idea of what creative thinking is as the last two of course have had none Executive Intelligence Review; Volume 42, Issue 8 Lyndon H. Larouche, Jr.,2015-02-20 From the Editors Lyndon LaRouche has identified the removal of Victoria Nuland Assistant Secretary of State for European and Eurasian Affairs as a crucial requirement for stopping the Obama Administration s confrontational policy with Russia which threatens World War III We spotlight the role of Nuland and her accomplices in our Feature package this issue including with dossiers that virtually no other English language press dares to publish In fact the mainstream U S press won t even give coverage to prominent political figures such as former Reagan Administration ambassador to Moscow Jack Matlock who oppose the lying narrative that Russian President Vladimir Putin s aggressive outlook is the cause of the current East West conflict We provide the full transcript of one of his recent speeches which should cut through the brainwashing you otherwise encounter virtually everywhere For an in depth treatment of how and why the current crisis has come about however there is no substitute for Helga Zepp LaRouche s latest major speech given at the Feb 14 Schiller Institute conference in Manhattan National We publish the full transcript and recommend that you also view the afternoon of presentations which can be found at www.larouchepac.com While the bankrupt London Wall Street crowd demands war the good news is that so much of the world is not only resisting the diktat but forging an alternative Greece s latest moves in this direction are featured in Economics as the new government refuses to submit to blackmail to pay debt which is illegitimate Look for our upcoming study that will document just that As for the BRICS dynamic that continues to make major strides Arabic language editor Hussein Askary reports on the significance of President Putin s recent visit to Egypt which has huge potential for the entire African continent International The BRICS alternative to the bankrupt Trans Atlantic system is also elaborated in a speech by Indian economist Jayshree Sengupta given to a Schiller Institute seminar in Paris which we publish in full The South Korean government s resistance to the Obama Administration s war drive in North Asia is the subject of another article in International while we update the fight to release the classified 28 pages of the 9 11 Congressional Inquiry in National *Countdown in August* Lyndon LaRouche,2015-08-07 Aug 3 Lyndon LaRouche insisted on immediate action in the following discussion with the LaRouche PAC Policy Committee today We have an interesting situation he said in the sense that we re getting closer and closer to doomsday that is the point where Obama actually launches thermonuclear war And it s more and more apparent internationally that that s the situation that is converging upon civilization right now And therefore what we have to do is actually stop the trend in that direction We have to get Obama brought under control and removed from the Presidency

Without that mechanism it is impossible to save civilization or most of it. We are in the greatest danger of humanity in the history of the existence of the human species. Therefore we have to think about what we are going to do to get Obama removed from a controlling position in terms of the powers of the United States. Without that effect the probability the extreme probability is that there will be an extermination of most of the human population on the planet. Because that is what will happen. It is almost like a kinetic process where one thing hits the other, one part of the planet hits the other parts of the planet, they interact, they build up, they build up in a combination and it becomes uncontrollable. And maybe the extinction of the entire human species could occur in this month. Executive Intelligence Review; Volume 42, Issue 7 Lyndon

LaRouche, 2015-02-13 From the Editors: What do you need to know and how do you have to think in order to bring mankind out of the current seemingly insoluble crises that have put us on the edge of World War III. In this issue of EIR we do our best to supply those necessities. Helga Zepp LaRouche provides the strategic overview, emphasizing what must be done to halt the war threat. The excerpt from Russian Foreign Minister Lavrov's speech at the Munich Security Conference backs up her case, countering the Western media lie that Russia created the crisis. We also note recent Russia media coverage of Mrs. LaRouche and her Schiller Institute. Concluding this section is our definitive expose of what is behind the British Empire's assault on Argentina and its President, a leading collaborator of the BRICS nations in their motion to create a new just world economic order. Greece, in its rejection of the murderous austerity that has been imposed on it, has not yet joined the BRICS but it is putting up a fight that is inspiring other Europeans to fight, as you will see in Economics. And the British and their stooges are also running into major problems on the terror front, as shown by our report on the explosion of coverage of the Saudi role in 9/11 and the motion to declassify the 28 pages of the 9/11 Joint Inquiry report that deals with that. Even more dramatic is our Counterintelligence feature by Australian correspondent Robert Barwick on how the British monarchy is being shaken to the core by the release of new material on the assassination of Princess Diana and renewed scrutiny on Prince Charles's Saudi ties. Circulation of this story will shake it even more. The rest of the issue is comprised of three in-depth reports on the method, economic and scientific, which must be adopted to rebuild the world after the British monarchy's defeat. First, the Central Asia program from EIR's definitive The Silk Road Becomes the World Land Bridge report showing the alternative to British geopolitics in that region. Second, From Kepler to China Today: What Really Is Mankind? a discussion by Jason Ross of the LaRouchePAC Science Team on the epistemological basis for thinking about man's role in the universe. Last, see our lively story on a breakthrough in nuclear fission written to bust anti-nuclear axioms in Germany but applicable everywhere. As a whole, this issue aims to support our editorial argument: The disasters before us, which experts claim to be inevitable, can and must be stopped. New Opportunities for Mankind Lyndon LaRouche, 2015-10-02 EDITORIAL: This is a Revolution by Lyndon LaRouche Jr. From some remarks by LaRouche to the LaRouche PAC Policy Committee on September 28, 2015. Sept 28: I can say that the developments of this past week and coming on still are really exemplary of something. We

re not quite sure what they re exemplary of but we do know that it involves Putin And Putin is actually the keystone right now he s the keystone of the future of mankind and in his operation the future s going to be there China of course is a big factor in this and some other people known to me personally are also key people in this operation And that will be a little bit of a surprise to most people because we ll hold that back for a couple of weeks or a week or so So therefore we are actually in a unique situation We are placed in the right place Our numerically small organization has suddenly become very large in many implications including the fun department the musical fun department and things like that which is what has to go with a thing like this And we have a lot of fun with Manhattan and Manhattan of course is the place where the creation of our organization started I think there will be some more eventful developments coming out very soon Of course the destiny of Obama is also among the mysteries which have to be resolved now because this is a change It s a fundamental change in policy And actually we as ourselves because most people don t know what has happened here we a smaller group of people know internationally as well as in the United States this group that we represent has a lot of knowledge about these matters and I can assure you that there will be much more attention to those relationships very soon We have some responsibilities now in this matter There are some things I won t mention which are important things but they re not ready to be mentioned shall we say But more is going to be brought forth more clearly when I present that which will be later This is a revolution There s a matter of risk in it there are elements of risk in it But If you look at the thing the way I see it from my personal viewpoint we re on the edge of something very very big and very very important for all of mankind This is an opening the like of which has never occurred before So begin to enjoy it End Game Against the British Monarchy Lyndon

LaRouche,2015-05-29 A Mission Statement May 21 Lyndon H LaRouche Jr had arrived in India with a group of U S forces when word arrived in April 1945 that President Franklin Roosevelt had died A group of soldiers asked to have an evening meeting with LaRouche He simply told them the President is dead and we have to ourselves all the more assemble ourselves and devote ourselves to the mission of President Roosevelt That was the beginning of Lyndon LaRouche s mission now almost exactly seventy years old which still today is not over although it has now come to a critical fork in the road over the past roughly two weeks We were coming towards the end of the actual conflict in Europe and then beyond LaRouche remembered today And so what I was left with was the Southeast Asia area I got more or less tied to that region plus Russia And what I otherwise had gotten into LaRouche wrote to General Dwight Eisenhower in 1948 asking him to run for President which would have denied the wretched Harry Truman a second term and replaced him with someone who aspired to what Franklin Roosevelt had represented At that time Eisenhower was being brought in as the new president of Columbia University in New York Eisenhower was the one person I had access to LaRouche said today He was then going into his position at Columbia that was my access to him We now know that all four of Franklin Roosevelt s surviving sons were themselves also writing just such letters to Eisenhower at the same time Nevertheless he waited out Truman s term before running and

winning in 1952 What some regard as LaRouche's excursion into the socialist movement during the 1950s and early 1960s was actually much more specific He supported and then joined the Socialist Workers Party an American Trotskyist party because it was fighting McCarthyism better called Trumanism as LaRouche was also doing on his own No other such national organization was doing this including the Communist Party **Executive Intelligence Review; Volume 41, Issue 42**

Lyndon LaRouche, 2014-10-24 From the Editors Mankind lost a golden opportunity back in 1974-76 when faced with the stark choice between the murderous epidemic causing policy of the IMF and the New World Economic Order being proposed by Lyndon LaRouche and a host of leaders from the developing sector the world's leading governments stuck with the IMF From that time forward the world economy has been a ticking time bomb coming closer and closer to an explosion of pestilence famine and war This issue of EIR presents an in depth picture of that choice from the perspective of the threshold of choice where we stand today First in our Feature we report on the current Ebola crisis from the standpoint which Lyndon LaRouche forecast back in 1974-75 that the continuation of IMF policies in Africa and other areas of what was then called the Fourth World would lead to a global pandemic crisis threatening civilization and the survival of man himself We review our impeccable record on this subject and the policy proposals which LaRouche and his wife Helga Zepp LaRouche made over a decade ago The conclusion should be obvious People had better listen to LaRouche this time and start to adopt the right policies starting with tossing Obama out of office Second we provide an in depth picture of the fight by LaRouche and his movement for the alternative to the IMF death policy the new world economic order The LaRouche Record Our review will likely surprise you as you learn of the four decades of intellectual interventions by LaRouche with world leaders It should also encourage you as it should lead you to appreciate more fully the long term impact of ideas on the processes of history Today's BRICS process in fact cannot be competently understood without understanding this 40 year battle by the LaRouches and their political movement for a new economic system of which we can only present a reflection here See our archive for much more The third major element of this edition of EIR is little more than a promissory note in the form of a news report on the latest international Schiller Institute conference on A New Paradigm for Mankind held in Frankfurt Germany Oct 18-19

International We will be publishing many of the speeches from that event starting with our next issue *Executive Intelligence Review* Lyndon H. LaRouche, Jr., 2015-01-16 From the Editors On the same day that global terrorism attacked in Europe Jan 7 EIR and the LaRouchePAC unleashed a revolutionary capability which can utterly defeat that terrorism and destroy its sponsors This superweapon against global terrorism is not new police state legislation in the style of Cheney Bush and Obama It was first the Jan 7 indictment from the highest Congressional level featuring Joint Congressional Inquiry into 9-11 co chairman former Sen Bob Graham of the leading role of the Saudi monarchy in all global terrorism Feature Then in the Jan 9 webcast EIR Counterintelligence Editor Jeffrey Steinberg's authoritative exposure in detail of the British Saudi deployment of all global terror networks And then the powerful demonstration of a spirit of national unity and solidarity in

one European country the immense French demonstrations of Jan 11 among the many European countries which have lost their sovereignty to British governments of Margaret Thatcher Tony Blair and the repulsive royal family This superweapon is now in your hands in the form of this issue of EIR Helga Zepp LaRouche introduces the issue analyzing the strategic potential of the events Then we provide transcripts of the historic Capitol Hill press conference and the supplemental remarks on the British Saudi terror apparatus given by Steinberg during LaRouchePAC s Jan 9 webcast For added depth we include excerpts from two of the most striking of Lyndon LaRouche s forecasts about the international terror deployment his Jan 3 2001 warning of a U S Reichstag Fire and his Sept 11 radio interview during the horrific events of that day The complementary picture of the French mobilization against the terror featuring the interventions of former Presidential candidate Jacques Cheminade lead the International section followed by an update on the war danger which the U S press is so loath to publicize Our BRICS coverage is done from two angles First the progress of the global process of creating a new system as shown in the recent China CELAC summit Economics Then an in depth expos of how the British color revolution faction is trying to destroy South Africa one of the five BRICS nations Counterintelligence To defeat the British strategy LaRouche has insisted Wall Street must be sunk That is the subject of our National section with much more to come next week from Manhattan itself

As London Launches Operation Chaos Lyndon H. Larouche, Jr., 2016-10-14 Agents of History Oct 7 On December 1 1998 Jos L pez Portillo the former President of the Republic of Mexico declaimed It is now necessary for the world to listen to the wise words of Lyndon LaRouche That warning that admonition carries more pungency and more urgency today than on the day that it was uttered As events unfold with warnings of an impending financial crash coming from many different sides and numerous individuals it is of utmost importance that all of us listen to the wise words of Lyndon LaRouche In truth none of the trans Atlantic players on the field even among the more insightful have put forward proposals that indicate that they know what it is that must be done Their minds are operating within layers of nested boxes and their solutions are at best piecemeal at worst they are ludicrous Our mission is to represent the highest standard and to fight from the standpoint of history and as allies and friends of Lyndon LaRouche for LaRouche s policy We should advocate and battle for nothing less In a discussion with the LPAC Policy Committee and others on October 7 LaRouche said this laws which I presented Those laws my laws define exactly what solves the problem by creating a standard by which credit is defined This was developed by the Treasurer of the United States Alexander Hamilton This is the only way it will work My national laws those were whose laws Not mine I was the one who set up the standard for that and they didn t do much about it Therefore all you have to do is go for an international program based on that principle the same principle and you ve got to get the people of the nations working together to understand what this kind of action is Just read the publications on law by Hamilton He wrote the laws They re written there But people don t do it They talk about something else Therefore they don t understand what makes history what makes history work What I did was actually a mechanism to define the way in which the

original system had been established By Hamilton You don t have to do anything else That s what you have to do You re talking about Hamilton s laws and you re talking about my laws That s what you re talking about Don t change the subject

Putin Turns the Flank Lyndon H. Larouche, Jr.,2015-09-11 The following is the transcript of the Sept 4 LaRouche PAC webcast Matthew Ogden Good evening It s Sept 4 2015 My name is Matthew Ogden and I d like to welcome you to our webcast here from larouchepac.com I am joined in the studio tonight by both Jeffrey Steinberg and Megan Beets Jeffrey Steinberg obviously is a representative from Executive Intelligence Review and Megan Beets is joining us from the LaRouche PAC Basement Scientific team We had a chance to meet with both Lyndon LaRouche and Helga LaRouche literally less than an hour ago Now I have to say that tonight s webcast is being prerecorded and I have to make that remark here in the beginning to preface what s about to be said because the situation is so quickly changing and a rapidly changing situation is actually the substance of the subject matter of our discussion here tonight Mr LaRouche s emphasis in our discussion with him earlier was that it must be emphasized that the world is hanging in a state of suspense and that it is very difficult to say one minute to the next what is about to occur but the situation strategically is very clear The world is in a posture of general war even if general war has not yet broken out and the opportunity for a strategic game changer an intervention by Russian President Vladimir Putin especially having to do with the situation in Syria currently could change everything about the current world strategic situation Now the opportunity for this kind of flank of which there are indications President Vladimir Putin is strongly considering something along these lines is the substance of the discussion that we had with Mr LaRouche

The Manhattan Project Lyndon H. Larouche, Jr.,2015-07-31 July 29 Former Secretary of State Hillary Clinton has it in her power to stop President Barack Obama from launching a strategic conflict with Russia that will in all likelihood lead to a thermonuclear war of extinction All she has to do is come forward with the full truth about Benghazi starting with the events of September 11 2012 Lyndon LaRouche has warned repeatedly in recent weeks that President Obama is prepared to launch a provocation against Russia that would rapidly lead to a general war The most likely time frame for such a provocation is the month of August when the U S Congress is in recess and when the Joint Chiefs of Staff is going through a top down personnel change The only thing that can stop this plunge into a thermonuclear war is the removal of President Obama from office or in the alternative a thorough discrediting of the President to the degree that he is unable to launch the intended provocation and his resignation or impeachment is imminent That is the stark reality of the coming days and weeks And former Secretary of State Clinton now a candidate for the Democratic Party presidential nomination is in a unique position to stop the drive for war by at long last telling the truth about Benghazi

Victory Over Fraud Lyndon LaRouche,2016-05-13 The Only Way You Can Win Is The Hard Way May 5 In just a few words spoken over a few minutes on Tuesday evening May 3 Lyndon LaRouche spelled out starkly what he himself has long known and what every successful architect of victory has known but what others refuse to face He showed that victory is only possible through doing the things that have never been done before indeed

never even thought of before based on a totally new original insight You can only win by doing what all the smart people knew was absolutely impossible This is the story of the Inchon Landing of Sept 15 1950 MacArthur told the nay sayers namely the entirety of the U S high command that the very arguments you have made as to the impracticalities involved confirmed his faith in the plan for the enemy commander will reason that no one would be so brash as to make such an attempt MacArthur finished his statement like LaRouche he knew when to finish by whispering I can almost hear the ticking of the second hand of destiny We must act now or we will die But LaRouche s leadership has long been on a profounder level than even the genius MacArthur s Better to think back to MacArthur s friend Gen Charles de Gaulle In his memoirs de Gaulle recalled the moment in 1940 when all the French officials turned their back on his struggle against the treasonous French government at Vichy I felt like someone approaching the ocean he wrote preparing to swim across Yet he did swim across This is almost impossibly difficult but it can be done It must be done even if you can never say in advance how to do it It has been done And Lyndon LaRouche in particular has done it repeatedly and successfully He debated and soundly defeated the chosen representative of the British system in 1971 Impossible Then later through the Strategic Defense Initiative he transformed the incoming U S Reagan Administration into the instrument of what would have been a new world system of peace and dramatic human progress The British tried to assassinate Reagan and went all out to destroy LaRouche They jailed him but couldn t destroy him although his influence was effectively contained for years LaRouche and his wife Helga succeeded in laying the basis for the Eurasian Landbridge Silk Road policy and the BRICS without which humanity would have no prospect for the future Beginning in October 2014 LaRouche set out again to accomplish the impossible He outflanked the resistance and founded a new organization in Manhattan on a new basis prominently including Classical choral work and competent Classical musical performance both of which are linked to a weekly live dialogue with LaRouche It seemed impossible for years every previous attempt had failed But it is demonstrably succeeding and spinning off new organization on a new basis in Northern California in Boston and in a special way in Houston Texas where LaRouche leader Kesha Rogers has vigorously and effectively taken up the fight to revive the Space Program In the referenced Tuesday discussion LaRouche also specified that Right now the question is how will Russia and China survive this situation Because if they don t survive this situation there is not going to be a civilization it just won t happen Now this depends the leading parties that s the only chance You cannot use deductive methods they don t work They can t work under these circumstances You actually are going to depend largely on a contributing factor in which Russia and China are going to play a controlling role

Four New Laws Lyndon H. Larouche, Jr., 2016-08-05 It Begins with LaRouche s Four Laws August 2 Over the last five weeks the world has changed Events combined with willful interventions especially those of Vladimir Putin have created a new global dynamic and transformed the potential for real and total victory in the immediate period ahead Success now depends first on the adoption of LaRouche s Four New Laws a policy set forth in 2014 in his *The Four New Laws to Save the*

U S A Now but long term success requires more than simple adoption of necessary policies even ones as necessary as Glass Steagall and Federal Credit for scientific advancement As LaRouche states in The Four New Laws In principle without a Presidency suited to remove and dump the worst effects felt presently those created presently by the Bush Cheney and Obama Presidencies the United States were soon finished beginning with the mass death of the U S population under the Obama Administration s recent and now accelerated policies of practice And then later A chain reaction collapse to this effect is already accelerating with an effect on the money systems of the nations of that region The present acceleration of a Bail in policy throughout the trans Atlantic region as underway now means mass death suddenly hitting the populations of all nations within that trans Atlantic region whether directly or by overflow This systemic crisis requires not just a set of policies but a New Presidency one based on a citizenry with a higher devotion one beyond mere electoral politics one similar to that of Benjamin Franklin George Washington and Alexander Hamilton It requires a commitment to the creation of a new nation of a new United States and of a world that has never existed before a world now more possible than ever and a world that now lies in our hands whether it comes to be or we fall short
