Seitel,1992 **O'Dwyer's Directory of Public Relations Executives** ,1998 *Public Relations and Community* Dean Kruckeberg,Kenneth Starck,1988-05-23 This slim volume hits hard at one major point public relations practitioners need to abandon their dominant attitude of narrowly serving the needs of their clients and instead attempt to engender a broad based sense of community By approaching public relations from this broader perspective both the needs of the client and the community are served Implicit in this theory is that a closer knit community will retain more traditional family based values and therefore comprise a more stable and appreciative economic unit for one s client Canadian Journal of Communication Public relations is commonly viewed as using persuasive communications to achieve a client s vested goal Kruckeberg and Starck challenge this oversimplified approach asserting that public relations is a complex multi flow process that should and can affect society as a whole In Part I they examine critically the historical definition and practice of public relations outlining the shortcomings of this narrow approach Part II explores how the community itself has changed Such issues as the shift from rural to urban life and the attempt to regain a sense of community are discussed Part III attempts to reconcile the authors new notion of public relations and community through an in depth case study The results lead the authors to conclude that only if public relations is practiced as an active attempt to build a sense of community can it become a full partner in the communications milieu **Managing Communication Processes** E W. Brody,1991-06-30 This text for communications specialists marks a departure from earlier studies by approaching the subject of communication programs and crisis response holistically concentrating on how mass communication plans programs and campaigns special event and crisis response techniques must be coordinated in order to be effective The study establishes the link between the parent organization s public relations concept and the communication methods it should employ and outlines the design and implementation of those programs for both short term needs and crisis or disaster response The outdated case studies often found in similar volumes are replaced here by theory and problem solving techniques which may be applied to incidents found in any newspaper or periodical election campaigns oil spills or acts of God are included for more meaningful in class study The text also features the many aspects of the design of public relations programs ranging from basic responsibilities in communication to the need for consistency in campaigning and budget considerations This training text will give future communication specialists a broad overview of their discipline with a solid look at how communications systems are interrelated *Effective Public Relations* Scott M.
