Explaining And Understanding International Relations Clarendon Paperbacks:

Explaining and Understanding International Relations Martin Hollis, 1991 Are the workings of the international world to be explained scientifically or are they to be understood through their inward meaning In *Explaining and Understanding International Relations* philosopher Martin Hollis and international relations scholar Steve Smith join forces to analyse the dominant theories of international relations and to examine the philosophical issues underlying them The book has three parts In the first the authors review the growth of the discipline since 1918 pose the level of analysis problem of whether to account for a system in terms of its units or vice versa and contrast the demand of scientific method with those of interpretative understanding In the second they apply the contrast to four factors often cited in accounting for international behaviour the international system the state bureaucracies and decision making individuals Rival accounts of the games nations play are offered in readiness for the final part where the authors propose a theoretical agenda air their differences and invite readers to take sides By tackling deep theoretical issues with lucidity and verve this book will excite debate among theorists and students of international relations while also engaging thought about the philosophical character of the social sciences

Handbook of Research Methods in International Relations Huddleston, R. J., Jamieson, Thomas, James, Patrick, 2022-08-05 Drawing together international experts on research methods in International Relations IR this Handbook answers the complex practical questions for those approaching a new research topic for the first time Innovative in its approach it considers the art of IR research as well as the science offering diverse perspectives on current research methods and emerging developments in the field

The EU and the European Security Order Rikard Bengtsson, 2009-09-10 This book attempts to conceptualise EU action in the field of regional security Drawing on constructivist theory the framework of the book focuses on the meeting or interface of actors a situation reflecting the mutual construction of self other and situation The analytical framework applied here to European security politics is potentially open ended as the theoretical logic that informs the framework is general and abstract in character and not limited to state actors in an international setting The empirical aim of this book is to further our understanding of the EU as a security actor in a regional perspective The book thus links International Relations scholarship with that of EU studies By analyzing a number of different interfaces such as with Russia the US and other states we can learn more about the circumstances and preconditions and with what resources and power the EU acts in a regional security setting This book will be of great interest to students of European security EU policy IR theory and security studies in general Rikard Bengtsson is Assistant Professor of Political Science at Lund University Sweden He has a PhD in Political Science from Lund University Sweden

Ethics, Justice and International Relations Peter Sutch, 2013-04-15 This topical and timely book critically explores contemporary liberal international relations theory In the fifty years since the declaration of human rights the language of international relations has come to incorporate the language of justice and injustice The book argues that if justice is to become the governing

principle of international politics then liberals must recognise that their political preferences cannot be the preconditions of global ethics The hierarchy of international political ethics must be constructed afresh so that the first principles of justice are accessible to all agents as political and ethical equals This book will be essential reading for students and scholars in politics international relations political theory and ethics *Creating Insecurity* Anthony D. Lott, 2019-10-01 In this absorbing book Anthony Lott develops a national security analysis that can be used to critique the policies of states His approach combines realist thought common to traditional security studies and a version of political constructivism common to critical security studies While the focus on human security remains integral the 9 11 attacks on New York demonstrate the importance of national security traditionally defined This book recognizes the importance of both components of security in a broader security dialogue After building a theoretical understanding of security the work examines four disparate security issues that currently engage policy makers in the United States the current discourse concerning ballistic missile defense the war on drugs in Colombia democratic challenges to economic globalization and the state response and the US led war to oust Saddam Hussein from power in Iraq The book is designed for upper division international relations courses in national security studies international politics and theory *China's Energy Security and Relations With Petrostates* Anna Kuteleva, 2021-07-26 This book examines the development of bilateral energy relations between China and the two oil rich countries Kazakhstan and Russia Challenging conventional assumptions about energy politics and China's global quest for oil this book examines the interplay of politics and sociocultural contexts It shows how energy resources become ideas and how these ideas are mobilized in the realm of international relations China's relations with Kazakhstan and Russia are simultaneously enabled and constrained by the discursive politics of oil It is argued that to build collaborative and constructive energy relations with China its partners in Kazakhstan Russia and elsewhere must consider not only the material realities of China's energy industry and the institutional settings of China's energy policy but also the multiple symbolic meanings that energy resources and particularly oil acquire in China China's Energy Security and Relations with Petrostates offers a nuanced understanding of China's bilateral energy relations with Kazakhstan and Russia raising essential questions about the social logic of international energy politics It will appeal to students and scholars of international relations energy security Chinese and post Soviet studies along with researchers working in the fields of energy policy and environmental sustainability *Theories of International Relations: Contemporary reflexive approaches in international relations* Stephen Chan, Cerwyn Moore, 2006 Comprises 80 articles representing the most influential theoretical writings by international relations scholars Introduced by an essay from Stephen Chan and Cerwyn Moore the four thematically organised volumes cover the major traditions of IR theory Together these four volumes provide broad coverage of the subject and historical depth **British Book News**, 1991 *British Book News* British Council, 1993 Includes no 53a British wartime books for young people *The Theory and Practice of International Relations* James R. Lee, 1994 *Walford's*

International Security: Debating security and strategy and the impact of 9-11 Barry Buzan, Lene Hansen, 2007

The Globalization of Eastern Europe Klaus Segbers, Kerstin Imbusch, 2000 Globalization and fragmentation weakly controlled flows of information and knowledge increasing cleavages in societies undergoing rapid change flows of migrants services and capital bypassing the control of national governments life styles and consumption patterns produced by electronic media and advertising all these developments already have a significant impact on post Soviet regions And all kind of actors decision makers journalists experts students perceive the environment beyond their respective national borders increasingly as the playground they have to take into account and as a framework for action The chapters in this volume are produced by experts in the so called transformation countries in Eastern Europe They address various questions on inter and transnational relations thereby offering a framework for reflection and for analysis of macro trends around policy fields relevant for the countries in Central and Eastern Europe The product certainly mirrors the specific environment of researchers teachers and students in these countries At the same time it reflects a process of intensive discussion on the state of IR literature worldwide Furthermore this book demonstrates how useful teaching tools for universities and institutes not only in Eastern and Central Europe can be produced

International Security Barry Buzan, Lene Hansen, 2007-08-17 International Security is one of the main sub fields of International Relations This four volume collection will bring together

seminal journal articles and some book chapters to map the main themes and turning points in the development of International Security Studies Together the four volumes map the progress from the traditional security agenda to more contemporary challenges like terrorism They serve to demonstrate the wide scope of the international security agenda today as well as the wide range of methodologies and epistemologies used to approach the subject Including an extensive overall introduction and part introductions by the Editors this multi volume set will be an essential purchase for all Political Science Libraries and Schools of International Relations

Boundaries in Question John MacMillan, Andrew Linklater, 1995 This collection of essays aims to present a challenge to neo realist approaches highlighting the dynamic quality and potential of international relations This volume presents an alternative theoretical perspective on international relations united by issues of the state A range of subjects are covered dealing with the analysis and limitations of the state as well as challenges and changes to it The Analysis tackles our basic understanding of the state looking at how it maintains itself and the role of belief systems as well as innate systems of privilege The impact of global issues on inter state relations is examined under the umbrella of Challenges in the section on Change contributors highlight the tension between growing social cultural technological and economic influences and the ability of states to maintain their traditional areas of competence The final section identifies changes in the international environment which question the proficiency and sometimes the legitimacy of the state as an international actor This book aims to provide a review of the field of international relations to challenge familiar concepts and theories and to act as a springboard for further debate
